**MR SPEAKER (MR KEORAPETSE):** Pray be seated. Order! Honourable Members! Honourable Members, good afternoon. I hope you had a restful weekend. I know it was full of activities but I hope you managed to rest.

### **QUESTIONS FOR ORAL ANSWER**

#### **TOLL-GATE AT THE TLOKWENG BORDER POST**

**MR P. M. SEGOKGO (TLOKWENG):** asked the Minister of Transport and Infrastructure if there are:

- (i) plans to construct a toll-gate at the Tlokweng Border Post to raise revenue for the country; and
- (ii) intentions to construct a toll-gate at the Dibete Quarantine Gate on the A1 road as a way to diversify the country's revenue base.

**ASSISTANT MINISTER OF TRANSPORT AND INFRASTRUCTURE (MR ATAMELANG):** Mr Speaker, allow me to respond to the Honourable Member's question as follows;

- (i) The Ministry of Transport and Infrastructure does not have plans to construct toll-gate *ya kwa* Tlokweng Border Post but the Honourable Member of Parliament (MP) is free to bring the proposal for National Development Plan (NDP) 12 for engagement and notes sharing. I remain hopeful that together with Honourable Members of this August House, we will contribute to Botswana's transformation agenda.
- (ii) Mr Speaker, tolling as a means of funding road maintenance is just one of many Road User Charging (RUC) instruments that are available such as the fuel levies, licence fees, transit fees, weight distance charges, just to name a few. The ministry is using the permit system whereby all foreign registered vehicles pay road user charges as and when they enter Botswana at any point of entry.

Mr Speaker, the Ministry of Transport and Infrastructure has intentions to construct toll-gates in any suitable location on our national road network including the Dibete Quarantine Gate, if found suitable. However, this will be subject to recommendations from the Feasibility Study on Tolling of Roads in Botswana which will be conducted during NDP 12. The 12<sup>th</sup> Parliament passed legislation on tolling, which empowers the Minister responsible for transport to declare any road in Botswana a toll road for possible introduction of tolling. Thank you Mr Speaker.

**MR SEGOKGO:** *Supplementary.* Ke a leboga *Mr Speaker.* Ke bo ke go leboge *Honourable Minister* ka karabo e o e fileng eo, ke dumela gore e maatla. A Tona o a itse ka *study* se se kileng sa diriwa ka 2015 se se neng se supa gore fa re ka dira *toll gates* tse, *one financial year we can raise* madi a a kana ka bo P120 billion? E bile gape se ka thusa le Tona Gaolathe gore a se ka a sokola thata ka madi a diteemane, a bo a itse gore go na le kwa o ka bonang sekgwamanyana teng? Ke a leboga.

#### **MAINTENANCE OF ROADS IN KGATLENG EAST CONSTITUENCY**

**MR M. M. PULE (KGATLENG EAST):** asked the Minister of Transport and Infrastructure to outline Government's current and future plans to address the state of both internal and central Government roads in the Kgatleng East Constituency as well as other roads across the country and to further:

- (i) provide a detailed maintenance plan, including measures put in place to ensure timely and consistent upkeep of these roads in order to improve durability and safety for all road users; and
- (ii) indicate specific plans to dry grade Dikwididi-Mochudi Road, Mokatse-Mochudi Road and Matebeleng-Mochudi Road.

**ASSISTANT MINISTER OF TRANSPORT AND INFRASTRUCTURE (MR ATAMELANG):** Mr Speaker, my ministry conducts road condition survey every four years on paved and unpaved road networks of Botswana, the results of which inform the development of a multi-year road maintenance, upgrading and rehabilitation plan. In this regard, the adopted frequency of road maintenance is dependent on traffic volumes. In accordance to the Road Condition Survey done in 2022, the recommended frequencies of grading are 14 days, 30 days, 60 days and 90 days. An extract from the Maintenance and Rehabilitation Report is attached.

My ministry will have the opportunity to put in place a plan that will uplift the condition or state of all roads across the country based on their traffic volumes, economic and social benefits under the upcoming NDP.

- (i) Mr Speaker, my ministry's intention for maintenance of roads in Kgatleng East Constituency and roads across Botswana is primarily rehabilitation, asphalt overlay and resealing of surfaced roads and dry grading and re-gravelling of unsurfaced roads. However, my ministry is unable to carry out required maintenance interventions primarily due to budgetary constraints. Activities such as grading and pothole patching are done in-house albeit with limited resources.
- (ii) Mr Speaker, the dry grading of Dikwididi-Mochudi, Mokatse-Mochudi and Matebeleng-Mochudi roads are planned for grading frequencies of 90 days, 60 days and 90 days respectively. My ministry is unable to fully maintain these frequencies and even for the whole of Kgatleng District due to budgetary constraints and shortage of in-house plant and equipment. Thank you Mr Speaker.

**MR PULE:** *Supplementary.* Mr Speaker, nte ke akgole Tona ka fa a arabileng ka teng, tota o ntshitse a comprehensive picture ya ditsela, gongwe Botswana ka bophara le kwa Kgatleng.

Ke yone e re dumelang gore ba ka e tsaya *as an alternative route to ya gravel*. Ke a leboga Mr Speaker.

**LEADER OF THE OPPOSITION (MR SALESHANDO):** On a point of procedure. Mr Speaker, *ga ke tseye gore o arabile potso ka botlalo. Kana Question 4 e simolola e re* “to ask the Minister of Transport and Infrastructure to brief this Honourable House on the state of the North West District roads and intended mitigating factors against extreme deterioration,” e bo e re in particular, *e bo e tla e ntsha tse dingwe*. I think the Minister should have also made a broad statement about the state of the roads in the districts. I did not get that. And then (iii) le (iv), he has answered less than half the question.

**MR SPEAKER:** Honourable Minister, please answer the question. As I said, I will waive Standing Order 58.6 that says “a Member shall address the House from the seat allocated to him.” So I will allow you in light of the technical glitch we are experiencing to use Honourable Motsamai’s mic. Go ahead. Did you hear what Honourable Saleshando was saying?

**MR ATAMELANG:** Yes, I will try to respond to that. I appreciate your input with regard to the question. *Se ke ka se buang fela ke gore* I will need to get to him *ke mo neele* a report *e a e tlhokang* in terms of the district state of affairs with regards to *ditsela*. That is all.

**MR SPEAKER:** Honourable Minister, the gist of the question is on the state of the roads in the North West District and then in particular, the question zeros down to Samedupe-Somelo. So I do not know how you ended up going straight to (i) without answering the broader question. Is that how your answer is structured because I could hear you were not reading the answer but you were summarising the answer in Setswana. So let me just find out from you if this is exactly how this question is answered from the text that you have.

**MR ATAMELANG:** Okay, I will read it in English for your appreciation.

**MR SPEAKER:** Please do.

**MR ATAMELANG:** The Ministry of Transport and Infrastructure does not have plans to conduct... Just a moment.

**HONOURABLE MEMBER:** ...(Inaudible)...

**HONOURABLE MEMBER:** A ngwana a tshele.

**MR SPEAKER:** It is Question 4 for 53.

**MR ATAMELANG:** *Ke kopa* to respond on a later date.

**MR SPEAKER:** That is fine Honourable Minister. I am sure Honourable Kekgongeile, you would be amenable to him answering on a later date, *mme* Honourable Minister *ga ke batle seemo se se tswelela gape*. You should carefully study the questions and properly respond to them. That later date, you must give us a definite time. When can you answer this question? Can you answer this question tomorrow?

**MR ATAMELANG:** Yes Mr Speaker.

#### Later Date.

**MR SPEAKER:** Clerks, this question should come in tomorrow.

**MR NKAWANA:** *On a point of procedure. Thank you Mr Speaker.* Ke ne ke ithaya ke re ka Labothlano o ne o re ga o eletse go bona motho a le one a nna le dipotso di le dintsi *on one* Order Paper and Segokgo has more than one.

**MR SPEAKER:** Honourable Members, the Order Paper will change, I think from tomorrow because your questions that you have submitted, most of you are maturing today. So from tomorrow you will not see one Member of Parliament (MP) with more than one question.

#### BTC EMPLOYEES

**MR P. M. SEGOKGO (TLOKWENG):** asked the Minister of Communications and Innovation whether he is aware that 200 Botswana Telecommunications Corporation (BTC) employees were unfairly dismissed in December 2022; if so:

- (i) is he also aware that some of those employees had worked for as long as 35 years but were only given meagre severance packages as low as P40,000;

- (ii) are there any plans to resolve this matter amicably, including recalling the cases from the courts; and

- (iii) are there any plans to re-employ them in future.

**MINISTER OF COMMUNICATIONS AND INNOVATION (MR TSHERE):** Thank you very much Mr Speaker. Fortunately Mr Speaker, I have received the question and the answer but I am not satisfied with the answer. So I ask you to later date it for tomorrow so that I satisfy myself. Thank you.

**MR SPEAKER:** I am sure Honourable Segokgo will be amenable to you because if the Minister himself is not satisfied with the answer, you can imagine how the MP will react.

#### Later Date.

#### TRANSFORMATION OF DISTRICT COUNCILS

**MR T. B. LUCAS (BOBIRWA):** asked the Minister of Local Government and Traditional Affairs to state how Government intends to transform and reform District Councils to ensure that they have relative autonomy and are able to generate income for self-sustenance.

**MINISTER OF LOCAL GOVERNMENT AND TRADITIONAL AFFAIRS (MR MOTSHEGWA):**

*Ke a leboga Motsamaisa Dipuisanyo tsa Palamete, mme ke lemoje potso. Karabo ya me e bopharanyana mme ke tlao e khutshwafatsa, tota direction e le go tlhalosa diphetogo tse re di eletsang go leka go nonotsha Goromente wa Dikgaolo.*

*E ntse ka tsela e e ntseng jaana;* that the Government of Botswana through my ministry has developed a Draft National Decentralisation Policy which is yet to be presented before the relevant structures for consideration. The Draft Policy seeks to transition local authorities from the existing hybrid deconcentrated local governance system to a fully-devolved system with enhanced service delivery. It is underpinned by the goal to promote equitable and sustainable development and enhance citizen participation by transferring decision making powers and resources to local Governments and empowering citizens to actively participate in the planning, financing, implementation and evaluation of all local development and service delivery activities while holding their leaders accountable.

Mr Speaker, the policy recognises that local authorities face hindrances in generating self-sustaining income largely because of the ineffective and inefficient fiscal

and public financial management regime. Some of the elements of the challenges that emerge include generally low yielding nature of revenue sources assigned to the local level and the dependence on inter-governmental fiscal transfers.

In an effort to address such challenges and empower Local Authorities to generate income for self-sustenance, a Draft Fiscal Decentralisation Strategy was developed subsequent to the development of the Draft National Decentralisation Policy. The overarching policy objective of the Draft Fiscal Decentralisation Strategy is to support mobilisation, predictable flow and efficient equitable and cost effective use of resources by decentralising national institutions and the line ministries, Local Authorities and other institutions at national and local levels in performing their assigned functions.

*Ka bokhutshwane, Goromente o tsamaela gone kwa go nonotsheng Goromente wa dikgaolo ka gore ke ene yo o gaufi le batho, go mo neela dithata tsa tsamaiso le dithata tsa go ipapalela itsholelo ya go dira ditogamaano tsa bone. #### POLICY OF REPOSSESSION OF FARM LAND

**DR U. DOW (KGATLENG WEST):** asked the Minister of Lands and Agriculture whether his Government will be reviewing the current policy of repossession of farm land to make way for residential plots and more particularly whether he:

- (i) accepts that there is an economic value for the presence of small holdings in towns and villages;
- (ii) is aware that the co-existence of residence and farm holdings is a feature that obtains in many towns across the world; and
- (iii) that one of the reasons for the high cost of locally produced agricultural products is the high transportation costs and lack of other infrastructural services

**ASSISTANT MINISTER OF LANDS AND AGRICULTURE (DR DIKOLOTI):** Tanki Mr Speaker. Mr Speaker, I appreciate that there is a need to review the policy of repossession of farm land to make way for residential plots in the light of the fact that land is a fixed asset while on the other hand population is growing.

As the Government, we are committed to ensuring food security while at the same time providing decent accommodation for our citizens. Land is a pre-requisite for both housing and food production. Therefore, we will implement the alternative growth models for our settlements and promote smart agricultural practices. This could involve among others high models in urban places such as hydroponics, aquaculture, backyard poultry to mention but a few. Therefore, the merger of land in agriculture sectors places my ministry in a better to coordinate and balance the practice of repossession of farm lands.

Mr Speaker, I accept that there is economic value of the presence of holdings in towns and villages as this brings productions closer to the consumers and therefore promoting enterprises viability as it minimizes transaction costs. The arrangement creates convenience for identification of high value crop commodities and committing to produce such for specific niche markets within villages, towns or cities.

Mr Speaker, I fully agree with the Honourable Member that many cities and towns across the world practice mixed use developments that support urban agricultural activities. Botswana has learnt from these practices hence the development of land policies and guidelines that support the introduction of some non-agricultural activities in ploughing fields as opposed to whole change of land use.

Mr Speaker, it is a fact that transportation is a factor in the cost of any commodity that has to be transported to its market. Government is committed to the provision of infrastructure to the production areas. It should be noted that there will always be cases where it is necessary to repossess agricultural land to cater for village expansion, but as I have hitherto said, ensuring effective coexistence of different operation all in a single compressed space with a mutual and enhancing beneficiation among the land uses. Example; the introduction of industries in farm lands may bring processing factories to the proximity thereby promoting value addition. I thank you Mr Speaker.

**DR DOW:** *Supplementary.* Ke a leboga, e bile ke lebogela karabo eo fela thata mokaulengwe. Mr Speaker, it will be out of character for me not to pay my respects to our fallen gallant heroes and heroines of opposition politics in Botswana who stood with limited and even no resources against the well-funded resourced and well-oiled Botswana Democratic Party (BDP) who were in power for nearly six decades. I think I need and want this moment to recognise and bow to founders of Botswana Peoples Party (BPP) comrade Motsamai Mpho, Klaas Motshidisi, Phillip Matante, K.T Motsete among others, for keeping the BDP on its toes in the early years of our independence. Without these fearless men, I can bet you the BDP could have had a field day, but they did not. Mr Speaker, before I conclude my candid remarks on the BPP, I would like to once more send my heartfelt condolences to the wife, children and family of comrade Richard Gudu, a stalwart of opposition politics

in his own rights. Comrade Gudu was wholeheartedly invested in the UDC projects. He passed on two weeks before the General Elections. May the comrade's soul continue to rest in eternal peace.

Mr Speaker, you must agree with me celebrating the UDC victory would also remain fictitious and farfetched without acknowledging the foundational and the significant role played by the erudite ideolog and intellectual giant *Rre* Kenneth Koma, and his contemporaries in the Botswana National Front (BNF).

Mr Speaker, I get emotional all the time when I think about my departed dear friend, rather a mentor Gomolemo Motswaledi, affectionately known as "Sir G" by his contemporaries. I remember Mr Speaker, meeting him one evening in fall of 2010 at a restaurant in the tiny City of Stellenbosch. We wined and dined, him holding his favorite drink, me also holding mine, your guess is as good as mine as to what I was having or what he was having. I can tell you, we both enjoyed our drinks. He said something to me that stayed with me, he said to me at the time that "there will come a time when no progress at all at a personal level, will make sense until you raise your hand and confront the system." Indeed, at the time I may have taken time to take that decision, but as they say the rest is history, and here I am. In recognising Gomolemo Motswaledi, I will also want to recognise our father Tax Motswaledi, the father to Gomolemo, who when it was not fashionable stood with us in opposition, and encouraged us and told us that indeed the day will come. It is on the shoulders of these heroes and heroines, that we stand and we stand tall.

I want Mr Speaker, to recognise a couple of other people who took part in this journey. I want to recognise Honourable Same Bathobakae who was a Member of Parliament for Tlokweng, with whom I travelled extensively during my tenure at the Pan African Parliament (PAP). I want to recognise *mokaulengwe* Bina Motlogelwa, who worked in my office as an Administrator, a giant, a soldier, and a fearless fighter. I want to recognise the former Alliance for Progressives (AP) Womens League President *Mme* Joyce Mothudi. I want to recognise the ideolog Dr Edmond Tafa, I want to recognise Councilor Shadrack Meku, who was a Councilor in Francistown. I want to recognise *mokaulengwe* Ramogojwa from Jwaneng, Dr David Mafoko, our doctor who passed on in a tragic accident. I want to recognise *mokaulengwe* Captain Mula *Rre* Dintwa from Mogapi, I want to recognise *Rre* Sebati

Sebati *kwa* Maun, *Rre* Sethebe, comrade Nkamo Keamogetswe Badirile, *Rre* Thibedi *kwa* Jwaneng, *Rre* Sekgwā *kwa* Molepolole. I want to end this tribute by recognising the legendary Councilor in Gaborone Central *Rre* Max Bobi, who welcomed me when I arrived wet behind the ears, coming from the brighter City of Johannesburg, to the dimmer lights of Maruapula. He said to me one day in a hall filled with enthusiastic people *kwa* Tsholofelo, *batho ba intumeletse fela boithe. Jaanong Rre Bobi a bo a emeleta a bo a re "Lona ma Botswana Movement Democracy (BMD) ke a le itse, le batho ba ba lerato thata, le bo le tlaa tlopelela Mopalamente lerato."* *Jaanong fa batho ba reeditse, a bo a re "o nyetse fa a riana."* *Nako ya teng ga ke itse gore o ne a ntshenyeletsa kana o ne a dirajang, mme* we want to recognise their contributions.

Mr Speaker, I want to talk briefly about where we are now, in terms of the assignment that I have been given by this Government, by President Boko to be a Minister of International Relations. I want to extend my gratitude to the President, for outlining a clear and inspiring vision for our nation during these challenging times. It is important for us to say this, that indeed we have come in as a Government at a difficult time, where aspirations are high and we are indeed ready and committed to meeting those expectations.

The theme that the President adopted "Transforming Botswana for Inclusive Growth" is both timely and relevant, it resonates deeply with our collective aspirations. Mr Speaker, the President emphasised human rights centric Foreign Policy, and I want to say that the President stated and I quote, "we will focus our Foreign Policy to ensure that our advocacy is heard in the promotion of human rights, democracy, justice, good governance, peace and security."

Mr Speaker, this restructuring of our Foreign Policy priorities is significant as it allows us to be proactive partners in the international community, advocating for individuals and communities whose voices may otherwise go unheard. I want to state for the record Mr speaker, that I wholeheartedly support this approach which reflects our nation's core values and our commitment to uphold the dignity of all individuals.

A human rights approach in Foreign Policy Mr Speaker, is not only a moral imperative, but also a strategic necessity in today's interconnected world. Some people have had misgivings about this approach, but I want to say Mr Speaker, by prioritising human rights in our

foreign relations, we reaffirm our dedication democratic principles, justice and equality. This framework allows us to engage with other nations from a position of integrity and conviction, promoting values that resonate with Botswana's own foundational principles. The protection of human rights serves as a cornerstone for fostering peace, stability and sustainable development, both domestically and internationally. Our commitment Mr Speaker, to amplify advocacy for democracy and good governance is particularly crucial, as we strive to cultivate healthy relationships with other nations.

Mr Speaker, the President emphasised this reason during his recent attendance at the Southern African Development Community (SADC) Extraordinary Summit in Harare, Zimbabwe. His participation in such key diplomatic engagements underscores his commitment to forging partnerships that advance Botswana's interest on bilateral, regional and multilateral levels. These platforms provide us with valuable opportunities to collaborate with other countries in promoting shared values and collective action in the face of common challenges. Mr Speaker, I want to say that in this context it is essential that we strengthen the capacity of our Diplomatic Missions for them to effectively advance Botswana's interest on the global stage. I have had the opportunity to visit our Mission in Zimbabwe, where Honourable Ambassador Kenny Kapinga served and served diligently. I want to say that they are doing a good job, but we will be engaged in coming up with creative innovative ideas around reconstituting these Missions, ensuring that assigning or deploying people to these Missions is done and informed by the strategic interest in those particular Missions, to ensure that we maximise those economic diplomacy opportunities that exists in those key diplomatic engagements.

Mr Speaker, our mandate as I have said as the Ministry of International Relations is very clear. The ministry is charged with the responsibility to promote the Botswana's interest abroad through the strategic engagement with other nations and international organisations.

We have said Mr Speaker, during our interactions with the diaspora in Zimbabwe and Belgium, that the President and his Government require and yearn for an engaged citizen, whether it is people who are domiciled here in Botswana or they are in the diaspora. We want them engaged, that is why we will be looking at improving the diaspora engagement strategies to make sure that the diaspora in every citizen of this country feels welcome and have a role to play in this Government.

Mr Speaker, I want to place, as the President has done, emphasis on economic diplomacy. This is particularly significant and timely, especially as we navigate the complexities of an over evolving global economy. Economic diplomacy will serve as a fundamental strategy for Botswana's development in the years ahead as we work to attract increased Foreign Direct Investment (FDI) and expand market access for our local goods we are committed to prioritising initiatives that create jobs, especially for our youth. I have said this and the President has said this in addressing our diaspora and investors, that we are in a hurry to create jobs and industrialise. We call on international cooperating partners to partner with us to make sure that indeed these promises that we have made to the nation, promises of creating up to 500 000 jobs in the next five years, come true. We have said that we want to ensure that through economic diplomacy, we bring in investors who are going to help us cut our import bill. We cannot continue to have an import bill that runs into billions, almost 100 billion, which necessarily means that we are importing everything and exporting those jobs.

Mr Speaker, I was part of a high-level delegation from Botswana which travelled to Brussels, Belgium, for an engagement with the international community on the sensitive subject of diamonds. We met with all diamond traders, everybody that met us in the diamond sector. I am proud to say that the address given by the President has given the diamond industry much more hope and impetus. While in Brussels, we met Batswana living in and around Belgium, they engaged with us constructively and productively, and just like most of their ... (Inaudible)... back home they are extremely happy and pleased by the change of Government after nearly six decades.

Mr Speaker, on social media, I have seen some of our country men and women jokingly stating that *batho ba ne ba hupetse kana batho ba ne ba lapile. Ne Ikalanga toti batho ba ba nyala*. Mr Speaker, being ruled by one party for six decades, I can tell you now it is unhealthy, undesirable and needs to complacency. I want to state now that indeed the Umbrella for Democratic Change (UDC) Government will not take Batswana for granted ever, we are committed to every promissory note that we gave to the nation, and we will work hard to ensure that we deliver.

Mr Speaker, I want to reiterate that this resounding and convincing victory by the UDC has not or given a lot of people renewed hope not only for Batswana in the

country but those in the diaspora. To hear many of them in the diaspora happily stating that they are ready to relocate home to work for their country cannot be taken for granted, it is a testament for the hope, the renewed hope that comes with the second republic. I heard a lot of these individuals in the diaspora telling us that *jaanong re ka boela gae*. We want to say to them that there is room for everyone. We want everybody's skills and expertise and we will provide that space.

I do not know whether my time can be shown. Ooh, I have 10 minutes, okay, *ke lebile e e kwa godimo e khibidu e*.

Mr Speaker, let me now talk about issues that were raised by the President in the State of the Nation Address (SONA) briefly before *ke wita ka dikgang tsa kwa kgao long*.

Mr Speaker, the President speaks about a transformative journey. I want to say that he emphasised that doing business as usual has not helped the country to overcome even the simplest of challenges. It is understandable Mr Speaker, the frustration, the laissez-faire, ineptitudeness, the cavalier attitude that has often been found when Batswana want to ask for assistance. We want to reassure Batswana that the UDC does not take the mandate bestowed upon it lightly. It will never have the luxury to entertain complacency, we are here to deliver and deliver we will.

Mr Speaker, in a quest and hurry to address the socioeconomic challenges that the nation faces and transform the economy in a short-term to long-term, the UDC Government, as the President has unequivocally stated in his SONA, will embark on wide range reforms and interventions. This will herald a sustainable economic growth and economic development. I have no doubt that the transformative journey that the President has explicitly enunciated in his SONA will transform Botswana into what has been achieved by the Asian tigers; *bo* Hong Kong, South Korea, Taiwan and Singapore. In the past, I know that some scholars have compared Botswana with these Asian tigers but I must dare say that this time around, following the UDC transformatory agenda, the comparison will be more fitting.

Mr Speaker, in the first 100 days the UDC Government will restore trust and governance as stated by the President in his SONA, that is page six, for those who

want to reference. Transparency in anticorruption measures will restore public trust and attract FDI, that we so much need to create jobs and reinvigorate the economy and jerk our economy out of inertia.

In today's Botswana, the public discourse is dominated by real and perceived corruption especially involving State Owned Enterprises (SOEs) and infrastructure sector.

Three weeks ago the nation witnessed public demonstrations against the perceived corruption at the Citizen Entrepreneurial Development Agency (CEDA). In fact, public concerns about wanton corruption are backed by among others Afrobarometer survey reports, which lists corruption as a major problem that the public wants addressed by their Government.

Mr Speaker, corruption is cancerous. I want to say to my colleagues in Government, we must deal with it decisively. It erodes public confidence on public institutions and the Government, it paints a gloomy picture about the country internationally, therefore affecting or having a negative impact on our attempt to lure FDI.

This Government that I am part of and I am confident to say we will do everything and anything possible to address corruption within the legal framework. Without combating corruption and wastage, it will be impossible to achieve most of the key national priority areas and objectives espoused and articulated very clearly in the UDC manifesto.

I fully support the public or citizens demand for accountability by our SOEs and the Government.

Mr Speaker, the UDC Government is unwavering and unrelenting in its quest to conduct intensive and extensive financial forensic audit.

I am fully aware, and so are my colleagues in the UDC that the voters voted us into power in large numbers because their main grievances and gripes were corruption and wanton mismanagement of public resources.

I fully support my Government's promise to conduct financial and forensic audits. This should extend to all SOEs, including land boards and tertiary institutions. That is what a Government that belongs to the people does.

Mr Speaker, I want to briefly talk about my constituency; Gaborone Central. I want to state Mr Speaker, sometimes when people hear or talk about Gaborone Central, they think it is synonymous with affluence, no, we still have pit latrines in our constituency. That is why during the 11<sup>th</sup> Parliament I presented a Motion asking for the extension of the Self-Help Housing Agency (SHHA) Scheme to ensure that our people from the low-income bracket are able to connect to the sewer system. We still have poverty in our constituency. I have said here before and I have quoted a Zimbabwean author Chenjerai Hove, who wrote a book. In the book he says, “poverty is worse than war, you can stop war by talking, but you cannot stop poverty by talking.” That is why we are saying the debilitating soul supping unemployment that our people are faced with in Gaborone Central should go with the BDP Government. We need to give them hope as they have hope now.

You go to Special Support Group (SSG) *kwa* Gaborone Central *kwa* Maruapula, you still have men and women in uniform, *ba ba ikaletseng go re sireletsa, ba sena boroko*. Where we are supposed to go and train, *kwa di-gym*, they accommodate up to 100 officers. This has no place in the second republic. We need to give our people hope. *Fa batho ba rile ba ya go bereka, re ba thuse*. We still have situations Mr Speaker, when you go to Maoka Junior Secondary School in Gaborone, in the centre of the city, students still share a chair, this has no place in the second republic. Mr Speaker, you still have officers commuting from outside Gaborone, the issue of accommodation must be addressed.

Mr Speaker, I want to speak briefly about UB. UB *ke* university *ya rona e e agilweng ke batsadi ba rona ka motho le motho kgomo*. I was part of this House during economic downturn or that time when there was a problem with the global economy, UB was told by the Government of the day *gore*, ‘*nnyaa, ga re na go le neela subvention gompieno, re kopa gore le dirise savings tsa lona*.’ *Ba bo ba dirisa savings tsa bone. E rile fa ba tshwanetse gore ba fiwe madi a bone a le double jaaka ba ne ba sololeditswe, ba bo ba bolelelwabore no, ‘le one a le neng le a dirisa ale e ne e ntse e le a ga Goromente,’ dilo tsa Puso e e duleng. Ra re, re le Puso ya UDC, we need to return the dignity to UB.*

*Gompieno jaana UB e ntse e tsweletse e re e dira mo gotweng retrenchment or restructuring. Babereki ba UB for over three years, they cannot take loans because they do not know whether they are working or they*

are going tomorrow or not. We also have it on good authority Mr Speaker, that the situation has gotten so bad that we are even now getting loans from banks or financial institutions to facilitate terminal payments that are due to these people that we are saying they should voluntarily leave. This situation needs to be addressed by my colleagues.

*Maabane fa ke kwala speech se, ke ne ke tla ke ikgakolola gore kana jaanong re babusi, ke fokotsa bogalenyana, mme go batla gone, mme re baakantse dikgang tse, ka gore go botlhokwa gore dilo tsele tsa Puso e e rileng tsa maloba, e nne tsa maloba.*

Mr Speaker, I also proposed during the 11<sup>th</sup> Parliament *gore re* extend the Bill of Rights, *gore re dire gore* the second-generation rights *di nne justifiable*. I want us to have a look at this.

I want to end Mr Speaker by saying *re ne re ikagetse hall kwa Maruapula ka Constituency Development Fund*. I want to promise *batho ba Maruapula gore re ikagetse hall eo, go lebega e le gore jaanong bangwe ba a e tsaya, ba batla go e dirisa; ke zwaketse nou, e boela kwa bathong. Ke batla gore gape ke ba tshephise gore clinic ya Maruapula re sale re e ikagela e bo e sa bulwe, re tlaa e bula mo bogautshwaneng*. Day-care centre *ya kwa 27 e re saleng re e aga* during the 11<sup>th</sup> Parliament, *re tlaa e bula mo bogautshwaneng*.

I want to say Mr Speaker that I am really honoured to having been voted by *batho ba Gaborone Central gore ke ye go ba emela and ba a itse gore ke tlaa ba emela ka bokgabane*. *Ke batla go rotloetsa Batswana ke ba gakolole gore Puso e ya UDC ke ya bone, ba sekabare katoga, ba re atumele, ba re gakolole. Ke a leboga.*

**MR DIGWA (BOTETI WEST):** *Ke a leboga Mr Speaker. Mma ke leboge gore o bo o tlhophilwe o le Speaker mo Botswana yo mošha. **MR SPEAKER:** No, it cannot be because I have made a ruling. My ruling is that I am deferring this matter to the day on which Honourable Motaosane will bring the evidence that alleges treason. Let us wait for three days Gen. Mokgware.

**MR MOTAOSANE:** ...o raya mathata a eng, ga ke tshosediwe. Ke batla go tlhamaalala gore BDP, e ka tswa Batswana ba ne ba e lebile ka leithlo le ba neng ba e lebile ka lone, mme ke bosupi mo ntlong e, mongwe le mongwe o a itse gore BDP e tsere lefatshe le kwa e le tsereng teng, go sena sepe. *The same BDP e ne ya tsaya tshwetso ya gore bana ba tsene sekole mahala. Ba ne ba se tsena some of us here, bangwe ba ka bo ba sa kgona go ya secondary school, because batsadi ba ne ba sena madi a go ba isa dikoleng. That is how BDP during the 80s e ne ya tla ka leano la gore ngwana mongwe le mongwe a se ka a duela school fees, and that is way mongwe le mngwe a kgonneng go bona letsatsi la gore a tsene sekole go fitlhelela kwa a kgonneng teng, e ntse e le the BDP Government. Ba kgona go tsena dikole, ke sone se o bona e le Mapalamente le Minister ba na le Degrees tse di farologanyeng. It was because the BDP took cognizance of the fact that ga re lekane re se meno, mme ka ditswammung tse re neng ra di bona, tse ke lebogang Modimo gore a bo ne a di fitlhela makgoa go fitlhelela ba re neela boipuso a bo di tla go bonala re teng, ka gore di ne di rekwa. Dilo tse ga re a tshwanelwa go ithiba seatla mo matlhong bagaetsho, re re BDP ga e a dira sepe.*

Fa ke feta ka tseo, ke batla go bua le ka achievements tse gompieno le relelang fela, Goromento yo mošha o ya go relela fela because of the foundation that was laid by the BDP. Dilo tse, motho fa a di dirile di bonala, o tshwanetse a di a kgolelw. A supiwe diphoso fa a di supiwang teng, mme fela fa a dirileng teng mo go nonofileng a re go leboge. Ke le nosi, Goromento yo wa UDC fa a dirang sentle teng ke tsile go mo ema nokeng. I will not fault ke bo ke ithiba seatla matlhong ke re, ka gore ke UDC. No! I am here for the people of Thamaga-Kumakwane, and I am going to support the Government where necessary. Fa Goromento a sa direng sentle teng, ke tlaa bua ke re nnyaa fa ga ke dumalane le wena e bile ga o dire sentle. A re neng re nna Batswana, re itse gore kgatlhego ya lepolotiki lengwe le lengwe ke go emela batho ba kgaolo ya ga bone le ditlhabololo tsa lefatsh la rona, gore di tle re di bone mo lefatsheng la Botswana, jaaka re di bona gompieno di le mantletsentletse di dirilwe ke BDP.
