SPEAKER'S REMARKS

MR SPEAKER (MR KEORAPETSE): Order! Honourable Members, good afternoon. I am still finding out who our guests in the public gallery are and I will make that announcement in due course. Honourable Members, let us start the business of today with questions.

QUESTIONS FOR ORAL ANSWER

OWNERSHIP OF BONDED WAREHOUSES

MR G. LEKAU (MOGODITSHANE WEST): asked the Minister of Finance to state:

- (i) how many locals have bonded warehouses and operate as clearing agents as opposed to foreigners;
- (ii) how many imported vehicles have been cleared or stored in bonded warehouses operated by Batswana compared to foreigners this year;
- (iii) how many vehicles from locals were revalued as compared to foreigners;
- (iv) what it takes for one to have a bonded warehouse and/or clearing agent (fees/skills); and
- (v) whether it is not time this kind of business is strictly reserved for locals.

MINISTER OF FINANCE (MR GAOLATHE): Thank you Mr Speaker. Thank you Honourable Member of Parliament. Greetings to the wonderful students that I see.

- (i) Mr Speaker, the Botswana Unified Revenue Service (BURS) database has 104 registered and licensed customs bonded warehouses and 203 registered and licensed customs clearing agents. Amongst these customs bonded warehouses, 35 are 100 per cent owned by citizens of Botswana, 59 are on joint venture ownership between Batswana and foreigners. Six are owned by foreigners and four are owned by the Government of Botswana.

With regards to customs clearing agencies, 164 are 100 per cent owned by Batswana, 31 are owned as joint ventures between Batswana and foreigners and eight are owned by foreigners.

- (ii) Mr Speaker, from 1st January 2024 to date, a total number of 13 756 vehicles were cleared and stored in the bonded warehouses which were 100 per cent owned by Batswana. Eighteen Thousand, One and Forty-Seven (18,147) vehicles were cleared and stored by bonded warehouses on joint venture ownership between Batswana and foreigners and 422 vehicles were cleared and stored in bonded warehouses operated by foreigners.
- (iii) Mr Speaker, revaluations are international customs practice conducted mainly to determine the customs value of goods for purposes of levying customs duties. Goods subject to revaluation are a result of risk profiling selections or referral cases where customs clearance office and the trader did not agree on the value of the goods.

Mr Speaker, it appears that for now it is not possible to identify the nationality of owners of the goods revalued since upon making revaluations, nationality of individuals is not a requirement. However, as from the 1st of April 2024 to date, 2814 vehicles have been received for revaluation and among those, 2715 revaluations have been completed whilst 99 are still pending. A total amount of P2,573,820 have been recovered from these revaluations.

- (iv) Mr Speaker, the requirements for licensing and registration to operate as a clearing agency or bonded warehouse are as follows... it is a long list, it is a dissertation. I think to summarise this list of requirements, let me describe the requirement list as administrative. It is a question of documentary, evidence from Companies and Intellectual Property Authority (CIPA), Omang, names of directors, certificates of incorporation and so on. I do not think it will be an efficient use of time to spell out all of them.

Mr Speaker, the clearing agency applicant must lodge with the Commissioner General a nominal fee of P20 000 as security bond through a recognised financial institution, that is a bank or insurance company accredited to the Bank of Botswana. This only applies after approval of the application and must be lodged with the Commissioner General, no later than 21

working days from the date of approval to application. Applications for customs bonded warehouse must lodge with the Commissioner General a security and guaranteed by recognised financial institution accredited by the Bank of Botswana. The bond amount should be equivalent to any potential duties or taxes on goods that may be stored, produced or sold at a given time in the intended bonded warehouse.

Mr Speaker, although Botswana citizens may have the requisite skills, experience, the access to capital and meet requirements to successfully operate clearing and bonded warehouse businesses, there are several factors that the Government considers before making a determination to reserve a particular industry for any particular group.

To summarise this idea Honourable Member of Parliament, Botswana is a small country. One of our aspirations and ambition is to create global players who are export oriented. So Botswana needs the external world, neighbours and other countries than other countries need us. So whatever it is that we do, we need to do it keeping in mind that we will need all these countries so that we are able to create opportunities for companies birthed in this country. I thank you Mr Speaker.

MR LEKAU: Supplementary. *Ke ne ke re ke botse, ga ke a utlwa e wela sentle. Kana* the Botswana 2003 Trade Act got 35 sectors reserved for locals *gore a e ne e se nako ya gore* this bond and clearing agent *di tsene* in that sector *ya 35?*

By extension to say, *fa o lebelela* Namibia and South Africa, clearing *kana e a bo e le go tshwara makgetho a* Batswana, strictly *e dirwa ke* locals. In Namibia you cannot do clearing *o le* Motswana or as a joint venture, strictly reserved for locals and same applies to South African. *A go ne go se matshwanedi gore* we could do that? Thank you very much.

MR GAOLATHE: Thank you Honourable Member of Parliament (MP). I am actually delighted that after you had asked all these questions, you have actually gotten to the point where you wanted, which is that you have the idea that Government needs to consider the idea of making this particular type of business a preserve for local companies. That is your recommendation. I want to say that we are taking it as a recommendation. So my answer was revolving around the bigger strategy, even as we take in these types of recommendations, we should

always keep in mind that we need the outside world more than they need us. From what I am hearing from you, you are saying that they may well be extenuating circumstances and one of these may well be the idea of preserving the security of our country. So we will consider your recommendation and we will look at it against our larger vision of creating global companies. Thank you Mr Speaker.

BTC EMPLOYEES

MR P. M. SEGOKGO (TLOKWENG): asked the Minister of Communications and Innovation whether he is aware that two hundred Botswana Telecommunications Corporation (BTC) employees were unfairly dismissed in December 2022; if so:

- (i) is he also aware that some of those employees had worked for as long as 35 years but were only given meagre severance packages as low as P40,000;
- (ii) are there any plans to resolve this matter amicably, including recalling the cases from the courts; and
- (iii) are there any plans to re-employ them in future.

MINISTER OF COMMUNICATIONS AND INNOVATION (MR TSHERE): Thank you very much Honourable Speaker. I guess I am satisfied now with the answer Mr Speaker.

Let me preface my response Mr Speaker, by informing this Honourable House that Botswana Telecommunications Corporation Limited (BTCL) is now a public listed company, listed under the Botswana Stock Exchange. BTC is actually owned by the Government at 54 per cent, for which the remaining shares are owned by the minority shareholders. This arrangement was preceded by the repealing of the Botswana Telecommunications Act of 2012, hence now it operates under the Companies Act.

This listing Mr Speaker, meant that BTC brings on board other shareholders which is at 46 per cent and that includes over 42 000 Batswana citizens and some other corporations or organisations like Debwana Pension Fund who are actually other shareholders at BTC.

In its operational structure Mr Speaker, it is therefore for profit company, so it is there to make profit which in its course of duty will make decisions to adjust its business model such that it creates value for its shareholders. As a public listed company Mr speaker, BTCL is regulated by provisions of the Botswana Companies Act and equity listing requirements of the BSE which governs how these entities behave with respect to operation, shareholding and stake holding. So it is this pretext Mr Speaker, that I wanted this Honourable House to understand how BTCL works.

- (i) However Mr Speaker, in further answering the Honourable Member's question, I am aware of the 200 BTCL employees who were retrenched following restructuring exercise in 2022.

Now the question as to whether it was unfair or fair Mr Speaker, it is a matter that is before the court. Therefore, I am restricted to continue on this matter as it will be *sub judice*. Thank you.

MR KEKGONEGILE: *Supplementary.* Tanki *Mr Speaker.* Tona, ke ne ke sa utlwa *the shareholding jaaka o ne o e bua mme the assumption* ke gore Goromente *is a major shareholder* mo BTC. *As a major shareholder* le le Goromente, a lona mme le dumalana le ka fa go tsamaileng ka teng? Fa e le gore ga le dumalane le ka fa go tsamaileng ka teng, go thata eng gore le ka busa kgang e kwa *court through the board and management as a major shareholder*, ya tla ya nna fa fatshe ya rarabololwa? Go thata go le kae gore le ka dira jalo?

Gompieno you are confined to the *sub judice* principle mme ka fa o e buang ka teng, o e bua e le gore tota le lona le bona o kare gongwe go ka buisanwa. Ke eng le sa e buse kwa *court ga buisanwa*?

MR TSHERE: Thank you very much Mr Speaker, and thank you very much Honourable Member. I agree with you, maybe we could look at it again but remember this matter was not brought to court by BTCL. It was brought by the BTC Employees Union. So they have the power to withdraw it if they so wish. That is the position of the company right now. However, as we go forward as a new Government, we will look into these things and make sure that we do not just willy-nilly dispose of people and create that unemployment because as the Umbrella for Democratic Change (UDC), we want to create employment; in fact 100 000 in the first one year. So that obviously was not fitting in our character. Thank you.

MR SEGOKGO: *Supplementary.* Ke a leboga Honourable Minister. Ke dumela gore o e tshwere sentle rra ka koo. Ke dumela gore jaaka o bua, bana ba Modimo ba tlaa busetswa mo ditirong kana gongwe ba tlaa fiwa *incentives* tse di botoka. Kana ba bangwe ba setse ba gorogile mo dingwageng tse di kwa godimo, *problem* e nngwe e ne e le mathata a *incentives*.

Mo godimo ga moo e le *a supplementary question, are you aware* gore mo go 200 yo, go na le ba ba feletseng ba kgaolwa mo tirong? Tota molato wa bone e se *the restructuring exercise* jaaka batho ba rata go bua. Kana *restructuring exercise* e a bo e le gore kompone e batla go dira madi *and then feel that they should sacrifice their employees* gore ba tle ba kgone go dira madi *as the move on digitisation and everything.* Ba felela e le gore *they sacrifice* babereki ba bone. O ne o ntshosa fa o bua ka dikgang tsa *profit* gore a mme batho *can be sacrificed* gore go tle go kgone go dirwa *profit?* Kgang ya me ke gore go na le ba ba leng teng gone mo Tona. A o *aware* gore go na le ba ba teng? *Problem* ya bone e ne e le *to unionise*, bone ba ba isitseng *case eo kwa court.* Ba bo ba felela ba le *dismissed.* Tota bone e ne e le *dismissal* ya gore *they unionise* mme molao wa lefatshe la rona la Botswana, *Constitution* e a letlelela gore batho ba ka kgona *to unionise.* Ba bo ba felela ba *bargain* ka tsela e e ntseng jang. *Are you aware* gore moo gone, go na le palo e e kobetsweng fela gore ba ne ba leka go buelela ba bangwe ba ba neng ba le *unfairly dismissed?* Ke a leboga.

MR TSHERE: Thank you Honourable Speaker and Honourable Segokgo for bringing that. I am not aware of those who were dismissed, merely because they were unionising. I assume that the Botswana Telecommunication Union has been there and operating in a while. However, I will investigate that. As to

whether or not they are going to be returned to their jobs, like I am saying, the matter is before court Mr Speaker, whether it was fair or unfair to dismiss them. That one I cannot go into. If they ever come back, I would be very happy but the matter would be before the courts.

I mentioned that BTC in my preface that it operates for profit and that has to be very clear Honourable Members. There are external shareholders at BTCL who are not interested on the social aspect as Government may, but for profit. They want money. They want value for their money and I am sure there are over 42, 000 Batswana who have put in and bought shares under BTCL, they want profit, they do not do it for charity. That is the business model that they chose when we chose the IPO route.

FERTILISER PLANT

DR U. DOW (KGATLENG WEST): asked the Minister of Local Government and Traditional Affairs whether he is aware of the health hazards posed by the co-location of the fertiliser plant and residences in Molangwana in Kgatleng and, considering the undeniable value to the economy of the plant, whether he has considered or would consider measures such as:

- (i) Government constructing a wind barrier on the southern side of the plant; and
- (ii) Government negotiating with the residents with a view to relocating them to the northern side of the plant.

MINISTER OF LOCAL GOVERNMENT AND TRADITIONAL AFFAIRS (MR MOTSHEGWA): Thank you very much Mr Speaker. Earlier on I had made an attempt to reach out to the Honourable Member that we later date the question with possibility of redirecting it to the relevant ministry. But nonetheless, I can proceed with the answer that I have, then if there are any further issues to be dealt with, then we can engage the relevant ministry.

Mr Speaker, with regard to...

DR DOW: *Procedure. Mr Speaker, ke a leboga. Minister o simolola fela ka go supa gore ga a ka ke a araba ka botlalo mme o bua lebaka la gore o batla the question to be redirected. Mr Speaker; fa o ka lebelela mandate wa ministry one o, tota question e tsile sentle. Maloba ba kopile later date, that is why it was later dated. Jaanong*

gompieno ba re e isiwe go sele gape, ke ne ke re fa e le gore Minister ga a na karabo, e bile o batla nako, ga go na molato ke ka mo neela nako to be later dated gape, e tle e arabiwe ka botlalo. *Thank you Mr Speaker.*

MR MOTSHEGWA: *Thank you Mr Speaker.* Ga ke itse gore ga ke a utlwala fa kae, ke ne ke ipaakanyeditse go araba. Ke emisitswe ke araba.

MR SPEAKER: Nnyaa, Honourable Motshegwa, what the Honourable Member is saying is that you indicated at the beginning that you are hoping that this question would have been redirected, but that you will answer, and whatever parts that you are unable to answer, would then be perhaps answered by another Minister to whom the question would have been redirected. Now, she is right in saying that your initial indication is that this question would not be adequately answered. I am inclined to agree with her because *fa o simolola fela ka* redirection, it may mean that you do not have full information. Is that the case, before we go into you proceeding to answer the question?

MR MOTSHEGWA: Thank you Mr Speaker. I have the answer. I was saying earlier on I had reached out to the Member of Parliament (MP) *gore* the way I see the question dealing with issues of environment, the Ministry of Environment and Tourism will be better placed to deal with the matter. Nonetheless, I have the answer, I can proceed. I was saying even further, they may not be issues but I was saying even if there are issues, we can engage the ministry of...

MR SPEAKER: I think let us proceed Minister.

MR MOTSHEGWA: Thank you very much Mr Speaker. Let me preface my response by informing this Honourable House that Organic Fertilizers Manufacturers Botswana (OFMB) whose main operation is to manufacture organic or any organically enhanced fertilizer started its operation in 2012 in Molongwana lands, that is Bokaa. According to the Environmental Impact Assessment (EIA) for the project from the Ministry of Environment and Tourism, there are no health hazards posed by the co-location of the fertilizer plant.

Mr Speaker, as indicated above, the ministry has been reliably informed that there are no health hazards posed by the fertilizer plant and as such, there is no consideration for constructing a wind barrier on the southern side of the plant.

Mr Speaker, I wish to assure this Honourable House that my ministry together with other relevant ministries, that is the Ministry of Lands and Agriculture and Ministry of Environment and Tourism, will ensure continuous monitoring to enable prompt action. Should the need arise, appropriate action will be undertaken in assuring the safety of the residents. Thank you Mr Speaker.

DR DOW: *Supplementary.* Ke a leboga Tona. Ke ne ke re ke botse, o bua ka gore go ne ga nna le EIA e e leng gore e siame, re a e itse. MALOLWANE-MMAPHASHALALA ROAD PROJECT

MR M. M. PULE (KGATLENG EAST): asked the Minister of Transport and Infrastructure if he is aware that the Malolwane-Mmaphashalala Road which passes through Oliphant's Drift, Ramotlabaki and Phala Camp was prioritised by the previous Government as a critical alternative to reduce congestion on the A1, and further:

- (i) to confirm whether this project remains a priority for the current Government; and
- (ii) provide an update on the current design stage, as well as any projected timeline for the construction phase.

ASSISTANT MINISTER OF TRANSPORT AND INFRASTRUCTURE (MR ATAMELANG): Ke a leboga Mr Speaker. Re ne re kopa *later date* gore re tle re go arabe ka bottlalo sir.

DIRECT PROCUREMENT OF TENDERS

MR A. K. KHAN (MOLEPOLOLE NORTH): asked the Minister for State President to provide an update on the value and beneficiaries of direct procurements of tenders in the ministry from October 2019 to October 2024; and whether the ministry intends to audit the processes and ascertain if there were any cases of abuse of public office.

Later Date.

HEADMEN OF ARBITRATION

MR L. BARONGWANG (MOGODITSHANE EAST): asked the Minister of Local Government and Traditional Affairs whether he does not consider:

- (i) adequately resourcing Headmen of Arbitration through provision of necessary administrative services and delegate some of the responsibilities from Tribal administration;
- (ii) improving their conditions of service from part time to full time employment to enable them better remuneration that will suit their status in the society; and
- (iii) stating the total number of Headmen of Arbitration across the country and whether that number is not sufficient enough to influence the decision.

MINISTER OF LOCAL GOVERNMENT AND TRADITIONAL AFFAIRS (MR MOTSHEGWA):

Thank you very much Mr Speaker. A question of this nature was asked last week. Therefore, essentially I will be rephrasing and making additions.

Mr Speaker, the background of the nature of the work of Headmen of Arbitration is that the Headmen of Arbitration were established through the Presidential Directive CAB 8 of 2002 after a feasibility study as per the Memo 23 tendered on the 8th Meeting of Cabinet held on the 13th March 2002. The nature of the work of Headmen of Arbitration is such that they provide arbitration services at ward level to maintain peace and tranquility. It is worth noting that they work only two full days in a week and have the right to take not more than 10 days emergency leave annually. Furthermore, they are allowed 12 working break with full pay preferably during ploughing and harvesting seasons.

Mr Speaker, having mentioned the nature of the duty of Headmen of Arbitration, I wish to further mention that my ministry appreciates the role played by Dikgosi tsa Tetlanyo and the need for resourcing them to perform their duties in a more dignified manner and conducive environment. However, consideration for resourcing of Headmen of Arbitration through the provision of administrative services and/or delegate some responsibilities of Tribal Administration is constrained by the nature of their duties which is regulated by the Presidential Directive CAB. 8 of 2002 which formalised their existence and consequently caused for them to be remunerated. According to the directive, Headmen of Arbitration's duty is solely to arbitrate at ward level to facilitate reconciliation, peace and tranquility at the ward level as already mentioned above.

Mr Speaker, the nature of the service rendered by the Dikgosi tsa Tetlanyo and the level of responsibility does not require them to be full time. They are currently renumerated with an allowance equivalent to bottom notch of B2 salary scale. However, my ministry will consider the review of such in nature.

I wish to conclude Mr Speaker, by saying the total number of Headmen of Arbitration is currently 2519 which is indeed a large number. However, the consideration to review their conditions of service for the purposes of employing them on permanent and pensionable basis cannot be influenced by their numbers but by the nature of their duties. Mr Speaker, as mentioned above, the role of Headmen of Arbitration for now does not require

administrative resources or working full time. Should the need arise in future, a review would be accordingly carried out to ensure that their conditions of service are taken care of to ensure that they are effective in executions of their duties. Thank you Mr Speaker.

REVENUE REPATRIATION IN THE TOURISM SECTOR

MR T. FURNITURE (TATI EAST): asked the Minister of Environment and Tourism if he is aware of revenue repatriation in the tourism sector; and to specifically explain what he intends on doing to remedy the situation.

MINISTER OF ENVIRONMENT AND TOURISM (MR MMOLOTSI): Thank you very much Mr Speaker. Let me attempt to answer Honourable Furniture's question, which happens to be question number 12.

The question is to ask the Minister of Environment and Tourism if he is aware of revenue repatriation in the tourism sector, and to specifically explain what he intends on doing to remedy the situation. Mr Speaker, the Ministry of Environment and Tourism is aware of revenue repatriation in the tourism sector. This occurs when a tax paying entity transfers money earned overseas back to the country where it is based. The ministry advocates that all revenue generated from tourism licensed operations should reach Botswana and be reported accurately in Botswana for the following reasons to minimise leakages, strengthen the local economy through circulation of money in the local economy, increase local investments and reduce possibility of tax evasion. To remedy this Mr Speaker, the ministry has kick-started the process of reviewing the Tourism Act of 2009 with the intention for this to be considered by Parliament during the August 2025 sitting. The aim of this review is among others to provide legislative instruments that compels tourists to pay in full Botswana. By so doing Mr Speaker, this will tighten the legislation and enforcement measures to ensure that all revenue earned by tourism activities remains in the country.

This Ministry of Environment and Tourism expects that mandating all payments to be made in local currency will prevent cash out flows, while maximizing the economic benefits of tourism for the local population. In addition, stiffer fines for non-compliance and heighten monitoring of financial activities will be enforced to dissuade any attempts to circumvent the new requirements.

Furthermore Mr Speaker, the Ministry of Environment and Tourism will finalise the Tourism Leaks Study by January 2025, which aims to identify areas of leakages within the tourism sector, as well as mitigation measures. That notwithstanding, the ministry will continue to collaborate with stakeholders such as the Ministry of Trade and Ministry of Finance in mitigating revenue repatriation in the tourism sector. I thank you Mr Speaker.

MR NKAWANA: *Supplementary.* Ke a go leboga *Mr Speaker.* Tona, a wa lemoga gore madi a a tswang mo Botswana a tswela kwa ntle *particularly from the tourism sector,* go ka tswa go dirwa ke gore beng ba dikompone ke bone ba ba leng kwa mafatsheng a sele? MR MMOLOTSI: *Thank you very much Mr Speaker. I think worth noting Mr Speaker is that, kana dikompone tse tsa bojanala tse dingwe are multi-nationals.* Fa e le *multi-nationals* jalo, di gongwe le gongwe *around the globe.* Ka tsela e e ntseng jalo, go raya gore fa bajanala ba batla go tla kwano, ba duela kwa diofising tse di gaufi le bone. *We still feel gore golo ga teng go a re disadvantage,* mme mo nakong ya gompieno seemo ka fa se ntseng ka teng, go tla go fitlhelela re baakanya molao wa rona jaaka re re we are trying to review the Act, gongwe mo nakong ya gompieno seemo se tla nna jalo. MINISTER OF YOUTH AND GENDER AFFAIRS (MS CHOMBO): Thank you Mr Speaker. May I approach the podium?

MR SPEAKER: You may.

MS CHOMBO: Thank you. Thank you Mr Speaker, for giving me the floor. First and foremost, I would like to thank God for being a respecter of no man, for being all powerful, all knowing as He has led me to this new

path for the glory of his name and for the upliftment of the life of His people. It shall be so. May He continue to order my steps and guide my path always!

I would also like to thank Mr and Mrs Chombo for having raised me right, for having encouraged me to pursue on education while allowing me to be multifaceted as I desire, for having allowed me to truly believe that ceilings are an illusion.

I would like to thank Batswana who I popularly call my people for their immense support to this very moment. I would like to express my sincerest gratitude to Mr President for having found it fit to nominate me as a Specially Elected Member of Parliament. My warmest regards as well to the Honourable Members who voted in my favour.

I am also humbled to have been appointed the Minister of Youth and Gender Affairs at only 26 years. I keep hearing people saying you are 26 but a Minister, or you are a Minister but only 26 and I think that my youth is not a prejudice, my youth is not a disadvantage. I am the Minister of Youth and Gender Affairs because I am a youth and I think that this is a time to be alive, a time to be Motswana and a time to be African.

My appointment Mr Speaker, does not only resemble hope. Young people have been holding unto hope for a very long time. This appointment is much more than hope for the future. It is the very manifestation of that hope in the present. It is the fulfilment of a dream that we had long aspired to see and quite frankly a dream that we never thought we would get to experience in the lifetime. So as I say thank you, I say it on behalf of all the young girls from Shorobe who grasp saying that they are from Maun before they thought nobody will know where Shorobe is. I say thank you on behalf of every young person who uses all their might to stay true to a course and to their purpose in the midst of hardships that they only know about.

I say thank you on behalf of every young person who has been thinking that their dedication goes and will continue to go unnoticed. On behalf of every Moyei, every Motswana, every African every woman, thank you Mr President and this Honourable House for this chance.

Let me further appreciate Mr President for making a deliberate decision to appoint 50 per cent women as Specially Elected Members of Parliament. I believe that this is in recognition of the glaring gender disparities

in this Parliament. I note this with appreciation that Mr President has committed to establishing a legal reform taskforce. I believe that this is a clear demonstration not only to us locally but to the international community, as well of our determination to formulate laws that accord women, young people, and persons living with disabilities and other marginalised population to be equal partakers in decision making processes at all levels.

Mr Speaker, we cannot continue to claim good governance with more than half our population being excluded from decisions that shape our societies and the economy. So it is very critical that in all of our endeavours, we deliberately mainstream women, young people, persons living with disabilities and other marginalised population as this is the only guarantee that they could equally and meaningful contribute to the Botswana that we want and that the Botswana where the people rule.

As Mr President has said, allow me to quote Mr Speaker.

MR SPEAKER: Please do.

MS CHOMBO: “The first 100 days is a period of renewal and restoration. In the first 100 days we focus on three interconnected pillars; Restoring Trust, Revitalising the Economy and Building Equity.” It is imperative that we make every effort to restore trust especially among young people and we can do this by engaging them and affording them an opportunity to contribute to issues such as employment creation, youth engagement, elimination of drug and substance abuse and nation building. It is our young people who can significantly contribute to revitalising our economy as the active labour force. I must say that I am very grateful to be among the few who have already been given this chance.

Mr Speaker, in terms of the building equity, we need a system-wide comprehensive approach to attain equity for all, particularly for people who have been systematically marginalised and excluded, thereby persistently facing poverty, inequality and injustice. We cannot as a society, continue to treat people who are unequal the same way. People have divergent needs and they required them to be treated differently. This therefore calls for the assessment and reorientation of our systems to realise improved and equitable outcomes.

As a collective Mr Speaker, we ought to establish how available opportunities and benefits equally reach all of our people. We are talking about an equal distribution of available opportunities and benefits without leaving anyone behind. To reach this level, we ought to acknowledge our past challenges, including gender disparities, exclusion of other population, past policies, practices and behaviours that perpetuated inequalities. We therefore, must formulate laws and policies that intentionally close these gaps, for this could be the only surety to achieving sustainable development with each Motswana equally enjoying the good of our beautiful land.

As it stands, the challenges affecting young people include but not limited to unemployment, alcohol and substance abuse, high crime participation, mental health issues and while both the young and old alike are facing Gender Based Violence (GBV) which I believe can be highly attributed to the economic disempowerment that is experienced by many.

It is therefore, on a very good note Mr Speaker, that we welcome the President priorities on job creation, skills development, as well as on youth empowerment. As at the present moment, Botswana’s youth population stands at 824 296. *Ke a tle ke utlwe batlotlegi ba re ga ke na constituency ka ke le Mopalamente yo o itlhophetsweng. Bagaetsho*, I have the largest constituency standing at 824 296. Out of this figure, 483 862 are in the school system while 340 434 are out of school and unemployed. This number increases every year as students graduate from tertiary and other institutions.

Mr Speaker, these numbers present serious economic challenges. They present a threat to national and human security and to the attainment of sustainable and inclusive society. These numbers are also a threat and they jeopardise equitable resource allocation. For as long as these numbers are not catered for, we will never achieve equity and inclusion. We can never enjoy the fruits of our democracy especially peace and security.

The National Social Housing Strategy is also much appreciated. It is also a welcome development as it will ensure the creation of jobs by and for young people in the construction industry. This will further call for the strengthening of youth in the construction industry. In order to have young people speak with one voice and address that challenge in a more meaningful way, we also welcome the launch of the nationwide vocational training programmes.

On education Mr Speaker, we believe that the current education system needs to be reformed, strengthened and reviewed to produce a market-ready workforce. During this past week, our ministry; the Ministry of Youth and Gender Affairs under the Department of Youth brought together industry experts, youth representatives and development partners to draw the National Youth Policy.

The current National Youth Policy of 2010 has elapsed hence the call to review it and make it relevant and inclusive of emerging issues. The overall objective of a new policy Mr Speaker, is to address issues and challenges such as the definition of a wholesome empowered young Motswana, who embodies Setswana values of *botho*, democracy, human rights, peace and peaceful resolution of conflict, and a young Motswana who is economically empowered. It also addresses issues such as gender and disability mainstreaming, youth and entrepreneurship, respect to the environment and environmental sustainability. To attain this, this policy will place the primary responsibility on parents to inculcate these values in their children at an early age. To this end, we will collaborate with the new Ministry of Child Welfare and Basic Education to cultivate values as part of mainstreaming a comprehensive early childhood development by the first quarter of 2025.

Mr Speaker, I have personally experienced the power of having parents who instill the right values. I am a beneficiary of this conducive environment that we aspire young people and children to have, and it would be an injustice, and it would not be forthright for me, if I do not acknowledge how committed I am to ensuring the success of this endeavor. It is work that I have always been passionate about, and have done through my very own charity initiative, the Genesis Project. Having experienced the impact of having parents inculcate important values in children, having experienced this impact in communities such as Shorobe, Somelo, Mmaothate, Metsibotlhoko...

HONOURABLE MEMBER: ...(Inaudible)...

MS CHOMBO: *Ee rra, ke tswa Shorobe. Ke tsaya gore le nna fa motho yo o tswang Shorobe a ne a utlwa a ntheeditse, kana ke mo reeditse, o ka bo a ne a nkutlwaka gore re rutegile.*

HONOURABLE MEMBERS: ...(Laughter)...

MR SPEAKER: Do not allow side remarks to derail you, address the Speaker.

MS CHOMBO: Mr Speaker, as I was saying, I have experienced the impact of these programmes that inculcate important values in children, and I have experienced the impact in communities such as Shorobe, Somelo, Mmaothate and Metsibotlhoko. I am certain that Mr President is on the right path, and most importantly, he is on the right path which is a much needed path to lay a steadfast foundation for our present and future generations. It is important to acknowledge Mr Speaker, that changing policies, practices and behaviours can alter our daily operations and determine the impact on these individuals, are intense, interrogation of each step would therefore be critical, hence we have to wear a multispectral lens.

In conclusion Mr Speaker, let me assure this House that we will instill a culture that moves us from an inequity to equity, where every citizen is actively engaged in the development process. We will closely engage with all ministries, with all sectors in order to advocate for preferential treatment of women and young people through mainstreaming of gender and youth in all policies, in all programmes and in all projects. We will propose targets in terms of employment across sectors and at Government level, priority will need to be given to young people at entry level. This is our commitment Mr Speaker, and this is our call to action. Thank you Mr Speaker.

HONOURABLE MEMBERS: ...(Applause)...
