QUESTION WITHOUT NOTICE

CRIME AND VIOLENT CRIMINAL ACTIVITIES

MR M. BALOPI (GABORONE NORTH): asked the Minister of Defence, Justice and Security whether he is aware that crime and violent criminal activities appear to be on the rise; and further state:

- (i) what the national crime statistics demonstrate regarding violent crimes in each of the following years: 2020, 2021 and 2022;
- (ii) what forms of violent crimes are most prominent;
- (iii) whether illegal firearms are a concern to security organs in view of the fact that gun related crimes seem to be on the rise, and what plans are in place to arrest the situation;
- (iv) what security organs are doing to improve visibility and their presence around the country and within Gaborone, as a measure to avert crime occurrence; and
- (v) if he will consider introducing facial recognition capabilities in security cameras so that chances of identifying criminals can be improved.

ACTING MINISTER OF DEFENCE, JUSTICE AND SECURITY (MR MORWAENG): *Mma ke go leboge Motsamaisa Dipuisanyo tsa Palamente.*

- (i) Mr Speaker, I am aware that crime and violent criminal activities appear to be on the rise in the country. The national crime statistics demonstrates that indeed an increase was realised in violent crimes such as murder, rape, defilement, threat to kill and robbery. The total number of cases for these crimes in 2020 was 5, 823. In 2021, the cases increased to 6, 599, making a difference of

776 or 13 per cent increase. The annual statistics for the year 2022 have not yet been compiled or concluded as you are aware that we are only two months from January 2022.

- (ii) Mr Speaker, the most prominent forms of violent crimes for these years were rape, defilement and robbery.
- (iii) Illegal firearms are indeed a concern to security organs as they are used increasingly in criminal activities such as armed robberies and poaching. There are comprehensive response plans in place to mitigate the situation. These include visible patrols, special operations, deployment of officers at borders, stop, questions and search and armed escorts, to name but a few. These strategies are implemented to also tackle emerging crimes as well as public education and community policing.
- (iv) Mr Speaker, the Botswana Police Service continues to have presence on the streets and crime hotspots as a further strategy to improve visibility around the country. Law enforcement agencies in particular the police and the Botswana Defence Force (BDF) carry out joint patrols or operations.
- (v) Mr Speaker, facial recognition is one of the key components of the safer city or security cameras projects which is in Gaborone, Francistown and other places. The intention is to roll out the safer city project to all major towns in the country. The project will continue to be improved to enhance detection of criminals. I thank you Mr Speaker.

I thank you.

MR SPEAKER: Thank you Honourable Dr Gobotswang. Honourable Members, the floor is open for debate.

MINISTER OF MINERAL RESOURCES, GREEN TECHNOLOGY AND ENERGY SECURITY (MR MOAGI): *Ke a leboga Mr Speaker and thank you very much. Ke kgonne go ikopa ka kwa, mme ke tsibogele Tshutiso e e tlang ka Honourable Gobotswang.*

Mr Speaker, Botswana already has a law which regulates social upliftment programmes to ensure that communities benefit from companies, that include those doing mining or extractive industries. This is as per the Economic Inclusion Act of 2021 Section 29 (4). Mining companies have been doing Corporate Social Responsibility in Botswana as a purely voluntary initiative prior to the enactment of the Economic Inclusion Act of 2021. Subsequent to that, the CSR activities are governed by the Economic Inclusion Act of 2021. As a result of that, it is not yet prudent to now amend the law or put another law on top of whatever is being provided for under Section 29 (4) of the Economic Inclusion Act so that there is a specific proportion of the profits before tax allocated to CSR as the mover of the motion suggests.

It is best international practice for CSR activities to be voluntary. Mining companies engage in CSR activities as a contribution towards the society as part of their coexistence with the community, over and above the royalties and taxes they pay to Government. It is my ministry's strong belief that for our licenced mining operations, the positive social economic impacts outweigh the negative impacts, and that our mining operations are uplifting to the livelihoods of the communities hosting them. While our communities may be affected by impacts resulting from the presence of mines operating in their vicinity, they benefit from the developments that usually come along with the mines such as schools, hospitals, roads, electricity, just to mention but a few. This may have negative unintended consequences especially to the local mining communities as some companies may decide to withhold other benefits that they provide and only pay the mandatory CSR amount which may be less than the other benefits that they may have been provided with. Companies that are already in operation, may react negatively to this because they would see it as moving of goal posts when they have already invested in the country. It may impact negatively on Botswana's attractiveness...

MR TSOGWANE: *Clarification Minister:* Ke ne ke sa batle go go ntsha mo moweng jaaka o le mo mowing, e bile o bayo suo ya gago ka bokgabane. *Clarification* yame fela ke gore, phelelong o re tlhomamisetse gore o tlaa batla gore Motswana mongwe le mongwe a utlwse se o se buang. MR MOAGI: Go ntse fela jalo Your Honour the VP. Ke lebile mo nakong ya me. Mafoko a mangwe fa o ka nna wa tsaya ka Setswana pele o sa a tlhalosa ka Sekgoa, a ka tloga a lathha molaetsa. Jaanong ke gore ke dire pego ya me jalo pele, ke bo ke e soboka ke e neela Motswana.

It would impact negatively on Botswana's attractiveness as a mining destination. Thulaganyo e re e dirang gompieno gone kwa bo kwa bo Dubai go leka go ngokela batho koo. It would seem as another form of tax and additional cost that were not included in the initial investment of the company.

Having recently engaged with the international and local stakeholders when we were consulting on the Mines and Minerals Act, it was clear that as much as Botswana is an attractive mining destination, the introduction of additional taxes would not be welcome and would probably result in Botswana's ranking dropping. It will simply be seen as a tax and Botswana will be seen as a country with too many taxes when compared to other countries.

Mr Speaker, my ministry will not support this as it will clearly bring about unnecessary risks and will give the perception that investing in the extraction industry in Botswana is too expensive and has multiple taxes. This will rather tarnish the investment appeal and doing business in Botswana that we are currently peaking elsewhere.

The current arrangements have worked well as can be seen by the multiple Corporate Social Responsibility projects and other benefits that have come from the extraction industry. We believe the provision in the recent Economic Inclusion Act is sufficient to cater for this CSR requirements.

Ke dilo tse re itseng gore fa molao o dirwa, go ya go boa go dirwa le tse di yang go kgona go supegetsa batho tota gore tsa reng. Karolo e o satswang go bua ka yone Honourable Molao, e supa ka bophara e bile ka bottlalo e sa belaetse gore dilo tseo di a akarediwa. Ga di *prescriptive because ga re itse gore jaaka go na le mafelo a a farologaneng kwa*

go epiwang teng, a gone koo ba tlaabo ba batla *to deal with issues tsa environment as you were talking about,* kante go tlaabo go batlwa tse e leng gore go thusiwe ka dilo dingwe tse di kgoreleditsweng mo nakong e e fetileng kante di kgorelediwa ke meepo e e gone foo. Ke tsaya gore ka nako yone eo, go tlaa itsege, go supa bone ba ba amegileng. Ka jalo, ka boikokobetso rraetsho Rre Gobotswang...

HONOURABLE MEMBER: Ke kopa tlhaloso.

MR BALOPI: Ee Rre Seleshando, go bo go tsena Rre Molebatsi. Le riana ka bonako ka gore e a wela.

MR SPEAKER: Honourable Saleshando.

MR SALESHANDO: *Point of clarification.* Ke ne ke kopa Rre Honourable Balopi, o ntlhalosetse gore wena fa go buiwa ka Economic Inclusion Clause kana Section 29, e bo e bua gore yone e bua ka *targeted citizens, individuals* ba ba boelwang, gone moo ga o kgone go go farologanya le go mo go buiwang ke Rre Gobotswang, where it is now about the entire community, not targeted to any individuals, but to the entire community? O bona di tshwana mo go *targeted individual*, le mo gotweng go lebelelw *the entire community?*

MR BALOPI: Nyaa Rre Saleshando, ke tsaya ke re up to now as you are aware, *fa ke ka go botsa potso ya gore* are you a targeted citizen in this Economic Inclusion Bill or not, will you be able to answer me? Let me throw it back you.

MR SALESHANDO: No one knows because *ga re a e tsenya mo molaong ... (Interruptions)...* is just as good as mine.

MR BALOPI: *The assumption e ke nang le yone ke gore all of us as citizens* re le Batswana mo dikgaolong tsa rona tse di farologaneng, ba re amiwang ke dibetso tse di ka nnang teng ka ntata ya se Rre Gobotswang a neng a bua ka sone se akarereditswe mo molaong o, go raya gore *we are targeted citizens and everybody who would have that or experience...*

MR SALESHANDO: All of us.

MR BALOPI: Yes, this is my view of targeting...

HONOURABLE MEMBERS: ...*(Murmurs)...*

MR BALOPI: You do not have to *senya nako Rre Saleshando...*

HONOURABLE MEMBER: *Elucidation Rre Balopi.*

MR BALOPI: Ee rra.

ASSISTANT MINISTER OF AGRICULTURAL DEVELOPMENT AND FOOD SECURITY (MR MOLEBATSI): *Point of elucidation.* Ke ne ke re ke tlhalose gore kana *targeted citizen can be a community. It could be community* ya Basarwa...

HONOURABLE MEMBERS: ... (Murmurs)...

MR BALOPI: ... (Inaudible)... is to find a definition of targeted citizens.

MR SPEAKER: The time allocated for Honourable Balopi is finished. Honourable Keorapetse.

MR KEORAPETSE (SELEBI PHIKWE WEST): Ke a leboga Motsamaisa Dipuisanyo tsa Palamanete. Ke gore se se lebegang se dumalanwe ke gore mogopolo mongwe le mongwe o ba kganetso ba tl Lang ka one, o se ka wa ganiwa fela. Ke gore *it must be trivialised as much as possible.* Se Honourable Gobotswang a buang ka sone fa, o bua ka *Corporate Social Responsibility Law*, molao o o *comprehensive* o o *tletseng*, o lebagane le *Corporate Social Responsibility*. E bile o remeletse mo go ba ba mo dikgwebong tsa moepo kana *extraction industries* go bona gore ba dira jang ka *communities* tse ba epang mo go tsone. *Section that is being referred to* ke bo Honourable Members ba Botswana Democratic Party (BDP), ga e bue se Honourable Gobotswang a se buang because yone gatwe e itebagantse le *targeted citizen* e e leng gore tota legale yone Honourable Letsholo o sale a e tlhalositse gore *this is a vague law*. E ne e le *just to tick the campaign box* ya gore re ne re rile re tlaa tla ka *Economic Inclusion Bill* when responding to opposition fa e re go nne le *Economic Empowerment Law*. So e ne e le *tick the box*, jaanong tlogelang to trivialise mogopolo wa ga Honourable Gobotswang. Se a se buang ke se e leng gore le kwa United Nations (UN) ba setse ba lemogile *the importance that is being played by extraction industries*, meepo ka fa di dirang ka teng mo mafatsheng.

*Honourable Kapinga o ne a bolelela ruri fa a bua gore kana fa re bua ka *Corporate Social Responsibility*, re bua ka *environmental, ethical, philanthropic, economic responsibilities*. Fa o bala Clause e Honourable Molao a ntseng a remeletse mo go yone e, fa o tsaya kompone ya DeBeers kana ya Debswana, or whichever mining giant, ke gore if it can outsource just a small tender ya gore kompone ya ga Rre Molebatsi ke yone e e re*

tseelang matlakala Friday mongwe le mongwe ka koloi ya matshelonyana. Fa e ka ntsha *a tender* ya gore *clinic* ya bone ka kwa ntle e lebega e pakogile jaanong komponenyana ya Batswana e e pente. Fa e ka ntsha *balls* di le 10, *donating for team* ya gone foo, *it has fulfilled that Clause, Section 29* e e kwadilweng mo *Economic inclusion Bill*. Ke eng ke bua yone kgang e Motsamaisa Dipuisanyo tsa Palamente? Ke gore...

HONOURABLE MEMBER: Elucidation.

MR KEORAPETSE: I yield Honourable Saleshando.

MR SALESHANDO: *Point of elucidation.* A very simple elucidation Honourable Keorapetse. Assuming the BDP was correct and I believe they are not, gore Clause e e akaretsa sone seo, a go molato gore go nne le molao specifically, o itebaganya le tsa *extractive industry* ka go thusa *communities*? Fela jaaka go na le molao wa *Constitution* o o re sireletsang rotlhe against kgethololo, mme re bo re boa jaanong re nna le o o itebaganyang le bana go ba sireletsa against kgethololo, what is wrong with that?

MR KEORAPETSE: Ga gona le fa e le sepe se se wrong ka gone moo ka gore gompieno jaana kwa Ghana, ba *Chamber of Mines adopted policy* e e leng gore a company set aside a minimum of a dollar out of every earning per ounce of gold, e le gore o ya kwa *Corporate Social Responsibility*, and one per cent of their net profit to develop their communities. It is specific, targeted, measurable, deliverable and you can measure. That is what Honourable Gobotswang is asking for. Jaanong lona le tabogela kwa molaong fela o o vague, o e leng gore le fa ke ka le botsa gone fa gore ke bokete jo bo kae jwa profits tsa Debswana jo bo ka tsenang in a community e e dikologileng toropo ya Jwaneng kana ya Orapa, ga gona le fa e le yo o ka mpolelelang because this law is very vague. Honourable Gobotswang here o bua ka selo se se specific, se tlhamaletse.

Lantlha fa ke ya kwa Orapa, ke ne ka kopana le mme a rwele dikgong a bapile le moepo wa Orapa, go supa lehuma le le leng teng mo kgaolong yone eo. Jaanong se se diregang fa Honourable Speaker, ke gore BDP e tsere tshwetso ya gore *it is going to trivialise this issue*. Ga ba bue se Honourable Gobotswang a se buang. Molao o ba o buang ba ntse ba re re o fetisitse o, ga o bue se Honourable Gobotswang a se buang ka gore *it does not address environmental, ethical and economic*

responsibilities. Fa e le sengwe o ka tswa e le gore it addresses philanthropic responsibility, mme le gone ga gona le fa e le targets tsa gore gatwe go diragala eng. Ka di 1 tsa April 2014, India became the first...

MR SPEAKER: Order! Order! Honourable Keorapetse.

MR KEORAPETSE: ...to legally migrate Corporate Social Responsibility. That is what Honourable Gobotswang is looking for.

MR SPEAKER: Order! Honourable Keorapetse, the time is gone, you are left with five minutes, 25 seconds. It is now 12:30, may I call upon the Leader of the House, the Vice President, to move a Motion of adjournment.
