### ORGANISATION 2500 – MINISTRY OF DEFENCE, JUSTICE AND SECURITY

**MR CHAIRPERSON:** Please note that 2 hours 50 minutes have been allocated to this organisation. I shall call upon the Honourable Minister to reply to the debate at 16:55 hours today and the question will be put at 17:25 hours today.

**MINISTER OF INVESTMENT, TRADE AND INDUSTRY (MR KGAFELA):** Procedure. Mr Chairperson, in the light of Order 46, *ke ne ke utlwa* pressing the Minister to move at the end of his deliberation, *mme kana* Order 46 *e a tlhalosa gore*, when a speaker is moving a Motion, he must stand up, make a few remarks after which he or she then moves. It is only thereafter that Members of Parliament are invited to engage with him. After they shall have done so, he then replies.

I was just wondering Mr Chairperson, why you were insisting that the Honourable Minister must move at the stage of reply, when Order 46 on the rules quite clearly states that you move at the first instance when you speak. I am not so sure whether there is a difference between what the written black and white letter of the rules say, and the practice which is obtaining in Parliament whether practice now takes precedence over the black and white letter of the rules. That is the procedure I would like us to be assisted with Mr Chairperson.

**MR CHAIRPERSON:** Order! Order! *Mo ke gone mo gotweng moipolai ga a lelelwe, ke ka bo ke sa ka ka go fa* chance but I have the answer for you. This has been the practice of this Parliament before you were born Honourable Minister...

**HONOURABLE MEMBER:** ...*(Laughter!)*...

**MR CHAIRPERSON:** ...and we have not identified any irregularity on it.

Secondly and finally, much as you are a lawyer that I respect, in order to understand fully Standing Order 46.1 that you are quoting, you need to read Standing Order 46.1 up to 46.5. Honourable Minister, please move your next chapter.

**MINISTER OF DEFENCE, JUSTICE AND SECURITY (MR MMUSI)** Mr Chairperson, I wish to present to this Honourable House...

**LEADER OF THE HOUSE (MR TSOGWANE):** Procedure. Mr Chairperson, my procedure is in aid of what you have just said. I think for the record, you must indicate that the matter raised by the Honourable Minister has been dealt with, it has been raised in this House and it has been put to rest by the substantive Speaker in the past, as you have rightly ruled. So from now going forward, we must know that precedence has been set, what the Speaker has proclaimed remains the rule. Thank you Mr Chairperson.

**MR CHAIRPERSON:** You could not have been more correct Your Honour. Thank you for standing by our resolution my lord.

**HONOURABLE MEMBERS:** ...*(Murmurs)*...

**MR CHAIRPERSON:** I have closed the discussion on this matter, we are moving to another chapter.

**HONOURABLE MEMBER:** I ask for a written and reasoned ruling Mr Chairperson.

**MR CHAIRPERSON:** We shall provide that to you.

**MR MMUSI:** Thank you Mr Chairperson. Mr Chairperson, I wish to present to this Honourable House the 2022/2023 Budget Estimates for the Ministry of Defence, Justice and Security - Organisation 2500. This Organisation covers the Ministry Headquarters inclusive of the Office of the Receiver and the Chemical, Biological, Radiological and Nuclear Management Authority (CBRN); the Botswana Defence Force (BDF), the Botswana Police Service (BPS), the Department of Prisons and Rehabilitation (DPSR) as well as its Parastatal - Legal Aid Botswana.

Mr Chairperson, I humbly request that you allow me to brief this Honourable House on the performance of my ministry during the financial year 2021/2022, before I can present the ministry's proposed budget for the financial year 2022/2023.

Mr Chairperson, my ministry continues to pursue a strategic programme to ensure that the necessary supporting legal framework is in place to enhance access to justice to achieve the effectiveness of the justice delivery system in Botswana.

In this regard, my ministry will amend the Magistrates Courts Act Cap 04:04 to improve access to justice by enhancing the powers of Magistrates' civil jurisdiction to impose higher penalties. The Bill was published in the Government Gazette of 3<sup>rd</sup> December, 2021 and as such, it has matured and is ready for tabling before Parliament.

Mr Chairperson, in addition, legislation on bail is being developed to address the general concerns of the public on issues surrounding granting of bail to accused persons. The Bill seeks to articulate the law on bail. The Bill will contribute to more effective justice delivery. It will also preserve and restore confidence in the justice system.

Mr Chairperson, my ministry also continues to improve the legal framework for the provision of legal services. Mr Chairperson, I shall also be tabling the Legal Practitioners Bill which also seeks to better regulate the delivery of legal services by legal practitioners. The Legal Practitioners Bill will enhance professionalism and strengthen disciplinary structures for the misconduct by members of the legal fraternity.

On other key legislative matters, I can report that I have since commenced specific provisions of the Sexual

Offender's Registry Act to facilitate the appointment of the National Inter-Sectoral Council which will guide the national policy framework and ensure that there is a coordinated approach on matters of sexual violence...

**MR CHAIRPERSON:** Order! Order! Sorry Honourable Minister, please hold your horses, *e tlaare* after lunch, I shall call upon you to finish. Honourable Members, we are going to temporarily hold our business here for today, as we should go for some refreshments. Parliament is adjourned and *bon appétit* Honourable Members.

**PROCEEDINGS SUSPENDED AT 1:00 P.M. FOR APPROXIMATELY 1 HOUR**

#### CORPORATE INCOME TAX

**MR D. L. KEORAPETSE (SELEBI PHIKWE WEST):** asked the Minister of Finance and Economic Development to state:

- (i) how much has been raised from corporations in terms of corporate income tax for each of the three past financial years and the percentage of contribution to total taxes; and
- (ii) why corporate income tax cannot be raised from 22 percent to 30 per cent.

**MINISTER OF FINANCE AND ECONOMIC DEVELOPMENT (MS SERAME):** Thank you Mr Speaker and good afternoon. Thank you Honourable Member for the question.

- (i) Mr Speaker, corporate income tax collections for the past three years is as follows:

#### Corporate Income Tax Collections - P' billion

Tax Year	Corporate Income Tax (CIT)	Total Taxes	CIT as % of total taxes
2017/18	7. 726	40. 523	19.11%
2018/19	8. 169	38. 286	21.34%
2019/20	7. 334	38. 278	19.16%

2018/19	8. 169	38. 286	21.34%
2019/20	7. 334	38. 278	19.16%

- (ii) Mr Speaker, it should be noted that, as much as income tax is a fiscal tool, it is also an economic management instrument to promote growth and economic development in general. As a fiscal tool, corporate income tax is indeed an important source of Government revenue as indicated in my response to paragraph (i) above. However, worldwide, countries use the rate of corporate income tax as part of their economic instruments to

improve their ease of doing business environment as indicated in the World Bank Ease of Doing Business Report for several years.

It is for this reason Mr Speaker, that in determining Botswana's rate of corporate income tax there is a need to balance between the two objectives; namely fiscal and economic development.

In setting the rate of corporate income tax in Botswana, consideration was made to the business environment in the country such as Botswana's unfavourable geographical location Mr Speaker. Furthermore, the approach of maintaining a relatively low rate of corporate tax is intended to maintain the country's competitiveness for investment; both domestic and foreign. This is because the country is competing for Foreign Direct Investment (FDI) with the rest of the world.

It is therefore, for this reason, Mr Speaker, that we consider the current corporate income tax rate of 22 per cent complementary to other economic policies of promoting a conducive environment for business while contributing to Government revenues. However tax rates continue to be reviewed on a continuous basis to determine their appropriateness. I thank you Mr Speaker.

**MR KEORAPETSE:** Supplementary. *Ke a leboga Motsamaisa Dipuisanyo tsa Palamente.* Honourable Minister, in the past other observers including the European Union (EU)...

*Africa at bo 28 per cent le Swaziland, a ga o lemoge e le gore o kare mme gone we are collecting kwa tlase, ka gore we are even below the average corporate tax rate ya Africa even the global one? Se sengwe ke gore, you are saying this as complementary to other economic activities, including ease of doing business and my take is that, you meant in part attraction ya Foreign Direct Investment (FDI) and this has not assisted in the sense that, on average we attract less than 2 per cent relative to Gross Domestic Product (GDP) and FDI. A ga o lemoge e le selo se eleng gore you can review it, is not in your cards to review corporate income tax? Le gore fa o lebeletse the rate ya collection e eleng gore for the three years, the average is 19 per cent. Ga o na target ya gore the collection rate e nne more than this 19 per cent, perhaps up to 30 to 40 per cent ya collection Honourable Minister. Ke a leboga.*

#### RESOLUTIONS ADOPTED AND PASSED BY NORTH WEST COUNCIL

**MR G. KEKGONEGILE (MAUN EAST):** asked the Minister of Local Government and Rural Development to brief this Honourable House on progress made in implementing resolutions adopted and passed by North West District Council, in particular:

- (i) state the number of North West District Council resolutions passed to his Ministry;
- (ii) the number of those implemented; and
- (iii) the status of incorporating Mochaba into Shorobe, Xhana into Chanoga and Xhaoga into Nxamasere.

**MINISTER OF LOCAL GOVERNMENT AND RURAL DEVELOPMENT (MR MODUKANELE):** *Ke a leboga Mr Speaker, ke bo ke leboqe le Rre Kekgonegile for the question. Mr Speaker,*

- (i) For the period between June, 2018 up to December, 2021, North West District Council submitted a total of 27 resolutions to my ministry.
- (ii) Mr Speaker, out of this 27 resolutions, 22 have been responded to and concluded, while five are still pending. I must hasten to explain that the implementation of resolutions of Council are subject to approved plans such as Annual Budgets, District Development Plans (DDPs), National Spatial Plans 2036, National Development Plans (NDP), policies and laid down procedures, and as such, implementation is usually dictated by availability of resources.
- (iii) Mr Speaker, my ministry has progressed resolutions adopted and passed by North West District Council and, in particular, approval of the recognition of Xhaoga in 2013 which was communicated to North West District Council on 14<sup>th</sup> August 2013.

With respect to incorporation of Mochaba into Shorobe and Xhana into Chanoga, my ministry through an Inter-Ministerial Standing Committee established under the

Revised National Settlement Policy of 2004 is in the process of finalising the district request and submit the recommendations to Cabinet for consideration. I must however, Mr Speaker acknowledge the delays in processing this request, as it is going against the spirit and principles of the National Spatial Plan 2036, which discourages settlement sprawls as it is costly and unsustainable to maintain. It is anticipated that the exercise will be completed in the second quarter of the 2022-2023. I thank you Mr Speaker.

**MR KEKGONEGILE:** *Supplementary. Tanki Mr Speaker. Tona, mma re re re lebogile. #### RE-SEALING OF TUTUME-MAITENGWE ROAD

**DR N. TSHABANG (NKANGE):** asked the Minister of Transport and Communications:

- (i) to update this Honourable House on Tutume-Maitengwe road re-sealing project;
- (ii) to state, in view of his previous response progress at the Nsuswane and Nkange Bridges; and
- (iii) whether he intends to have Road Levy Funds used to fix the bridges destroyed by rains in the past and current rainy season.

**MINISTER OF TRANSPORT AND COMMUNICATIONS (MR SEGOKGO):** Mr Speaker,

- (i) The Tutume–Maitengwe road resealing project which was commissioned on 20<sup>th</sup> August 2019, and the contract was terminated in September 2021 due to non-performance of the contractor. In an effort to close up the project, post contract proceedings are underway alongside procurement preparations for conclusion of the remaining works.

- (ii) In my previous response on the same project in September 2021, I had indicated that the contractor was on site engaged mainly to maintain the road, including the two bridges; Nsuswane and Nkange. We wish to acknowledge that the condition of these two bridges poses significant risk to motorists. To mitigate these risks, we have put a team on site to continuously monitor the behavior of the two bridges. My Permanent Secretary (PS) has also visited the same bridges in order to appreciate and own up on challenges we are faced with.

As previously stated, we had to terminate the contract in September 2021. Prior to termination while the contractor was struggling with the project, he had brought in a sub-contractor to assist with the repairs to the bridge. After the termination of the contract, my ministry decided to engage the same proposed sub-contractor to carry-out the repair works on the two bridges. A direct procurement method process was commenced immediately in December 2021. There has been delays between the procuring entity and the Ministerial Tender Committee (MTC), following some clarifications required by the MTC on the Bills of Quantities. Despite all the delays, we are very confident that the works will commence in April 2022, after corrective action taken to address the procurement process.

- (iii) Funds secured for the rehabilitation of Nsuswane and Nkange bridges are provided for under the Roads Levy Fund. I thank you Mr Speaker.

**DR TSHABANG:** Thank you Mr Speaker. At least *gompieno o beile* timeline ya April, you once put a timeline ya December. How are we going to trust you this time *ka gore* you keep on pushing time, especially when it comes to these bridges? You said there was a contractor on site for the two bridges but he has never come. I think *e tlhalose fela foo* Minister *gore le nna ke tlhaloganye gore* what is happening *tota gone fa*. A ka April *le baakanya* bridges *fela, kana madi otlhe a a neng a diretswe tsela, le yone le ya go simolola?*

*Ya konteraka ya tsela, le yone o e tlhalose gore gompieno* what should the community expect *ka gore o tlhalositse gore ya bridges le ya go e dira ka April. Ya tsela,* what should the community expect?

*Ya bofelo; ke botse fela gore tota mme* when you terminate the contract, what is the expected turnaround time *gore le ka boela kwa setshabeng la tla la simolola tsela gape? Ke eng go le tsere lebaka?*

*E le ya bofelo; wena* Minister and your staff, nobody ever went to address *batho ba Nkange* Constituency regarding this matter. Is it *gore le tsaya safety ya bone lolea kana jang? Tota kana fa le sa bue le batho* while they keep expecting you, *ga le bone gore le ba utlusa boithoko? Ke a leboga* Mr Speaker.

**MR SEGOKGO:** *Ke a leboga* Mr Speaker. *Kwa go ya ntlha tota* as I indicated, we are in the process of procuring a contractor for conclusion of the remaining works. So in fact, the decision *ya rona* was to take the sub-contractor that has been engaged to do the bridges so that *a wetse* the remaining works on the contract. We did this again *e le* a direct procurement to try and expedite the whole process *mme re ne ra nna le yone kgwetlho eo ya gore* we encountered *gore* there were queries on the Bills of Quantities *tse di neng di tsentswe* for conclusion of this work with the MTC. We are clearing it up Honourable Member so that indeed and we say we are very confident *gore* these works will commence in April this year.

**DR TSHABANG:** *Kana o raya* next week; April *ke* next week.

**MR SPEAKER:** Let the Minister finish.

**MR SEGOKGO:** *Ee, kgwedi e e tlang. Ka Setswana legale tla ke e beye gore di tlaa simologa kgwedi e e tlang* sir.

Honourable Member, I think when I was briefing committee *ya lona* on Committee of Supply, you raised this matter *ya gore* in fact *le rona* we were not responsive enough to come and brief *morafe* about these developments. I accept our failing in that respect *mme ke santse ke gakolola gore kana* my PS *tota gone* even whilst he has not arrived, took the time to come through. I know very much at your request but also to as I have said, to own up to these challenges that we are faced. I want to say *kwa go wena gore tota mme* I will do an endeavour *gore* after Parliament *e e wetsa, ke tle go dira jalo.*

I cannot give you precise turnaround times that we will have *gore* when we terminate *ka gore* this depends very much on the complexity of the project; the stage at which it is, the works that are remaining that have to be re-tendered. As you can see, we really sought to try and turn this one around very quickly and often we are hampered also because *le* the contractor being terminated. *Le ene* sometimes they are doing their best to try and proceed with litigation and that sort of thing

which can in fact delay us. *Ke tsaya gore gongwe ke di arabile.* I think I might have slipped on one question, you will remind me sir.

#### GOVERNMENT AND SOE TENDERS UP TO P10,000,000

**MR T. LETSHOLO (KANYE NORTH):** asked the Minister of Finance and Economic Development to articulate the implementation of the Motion adopted by this Honourable House requesting Government to reserve Government and State Owned Enterprises (SOE) tenders up to P10,000,000 to small, micro and medium sized 100 percent citizen-owned enterprises; and further state:

- (i) (i) for all individual ministries and parastatals, Batswana companies that have benefited from this Motion and tender values thereof; and
- (ii) foreign and non-citizen companies awarded these tenders, together with values and reasons relating to the deviation from the adopted Motion thereof.

#### STATUS OF MMATHEHE-BRAY-WERDA ROAD

**MR S. J. BROOKS (KGALAGADI SOUTH):** asked the Minister of Transport and Communications:

- (i) if he is aware of the status of Mmathethe-Bray-Werda road; if so,
- (ii) what is the short term plan to make it accessible; and
- (iii) when the construction of this road will commence as it is in the National Development Plan (NDP) 11 Mid-Term Review.

**MINISTER OF TRANSPORT AND COMMUNICATIONS (MR SEGOKGO):** Thank you Mr Speaker. Mr Speaker,

- (i) My ministry is aware of the status of Mmathethe-Bray-Werda road. The road was assessed on 17<sup>th</sup> March 2022, and it was found to be in good drivable condition, except within the Mmathethe village, where there were bad corrugations.
- (ii) To make the road accessible, my ministry grades it once every quarter. The last grading of the road was done in November/December 2021 and the

next grading is expected in April 2022. Currently, there is no need to have the road re-graded due to the fact that construction of the road is planned to commence shortly.

- (iii) Construction of this road is expected to commence in June 2023, following the conclusion of the engineering design and Environmental Impact Assessment (EIA). The delivery schedules of the Engineering Design and EIA are earmarked for the end of March 2023. *Ke a leboga Mr Speaker.*

**MR BROOKS:** Thank you Mr Speaker, thank you Honourable Minister. Honourable Minister, just a quick one; *ke tsaya gore o ntse o utlwa* the question that came *ka Honourable Rre Tshabang, a go raya a re* this time around maybe *o tshwanetse gore re tlhamalale go nna re bua boammaaruri.*

The question is the distance that was graded *ka November 2021*, how long was it? Are you aware that *go na le Mashampa-Mmathethe and Mashampa-Werda...*

*ka November 2021*, how long does it stand? Are you aware that *go na le Mashampa, Mmathethe and Mashampa-Werda junction, kana ke yone thatathata e* my interest *e leng mo go yone*, totally it was not graded. At the same time, are you aware that *go tlhoka graders mo Kgaolong ya Kgalagadi tse o saleng o di solofetse ka 2020*, *tse e leng gore le gompieno ga di ise di tle*, *ke tsone tse di dirang bothata jwa gore ditsela di se ka tsa tlhokomelesega? I thank you sir.*

**MR SEGOKGO:** *Ke a leboga Mr Speaker. Ke a leboga Honourable Member. Fa go na le sengwe se ke nang le a* very clear intent on is to answer questions truthfully, *mme fa gongwe ke a bo ke ikaya gape* also because I cannot be at every single road. I interrogate staff *sa me gore ba nne* very precise, and I did ask them, ‘when did you do this inspection,’ and I take it with the confidence on which *ba nkarabileng gore ba ne ba dira jalo* on the 17<sup>th</sup> March 2022. What I want to acknowledge sir *ke gore ga ke na* the actual figure *ya gore re ne ra* grader how many kilometres in November-December, I interpreted to mean that we had addressed all the sections that needed to have been done on the road. I see you shaking your head, so I would take it that I will engage further with my staff on the matter *ya gore tota mme* this assessment and alongside the grading section *e o e buileng wa re gatwe Mashampa-Mmathethe*, I will get confirmation *ya gore mme seemo sa yone ke se se ntseng jang.*

**MR BROOKS:** Clarification. Mashampo-Mmathethe o ya go fitlhela e tlhokomelesega *Minister*, ke bua ka Mashampa, *the Werda junction* e e leng gore ga e ke e bo e tlhokomelesega gotlhelelele. Mashampa-Mmathethe go teng kwa *Region ya Southern*, Mashampa-Werda *Junction* e laolwa ke *Region ya Kgalagadi*, o fitlhela re le mo mathateng ka yone eo. *That was my question*, so ke ne ke batla gore re di lomaganye *especially* ka gore *the last answer* o ya go di tshwara. So ke ne ke batla gore gongwe ke e tlhakanye, ke dire selo se le sengwefela.

**MR SPEAKER:** You have made your point.

**MR SEGOKGO:** Thank you very much for that clarification. I will then indeed follow-up on precisely on Mashampa-Werda section to make sure *gore mme tota* the structures of that *e ntse jang*.

You are also correct to say that indeed Kgalagadi *e ntse e na le* a shortage of graders. I dealt with this matter particularly with the Chair *wa* the District Council, and I know that we did release some graders that have been brought through to Central Transport Organisation (CTO) for a test. I do not have the exact figure *ya* graders which were released at the time, but my expectation *ke gore* at that time there was an improvement out of the release of those graders. It took a while, but I certainly engaged CTO extensively on the release of those graders. I will again just assess and I will engage with council there to see *gore* how many graders there have, and I will engage with CTO to find out if in fact we have been able to release all the graders they need. I do want to acknowledge having been very much aware of the shortage of graders *kwa* district in the past. Thank you sir.

**MR BROOKS:** Thank you. I will see you next week Minister.

**MR SPEAKER:** I want to advise all Honourable Ministers. Standing Order 38.4 demands that these long answers, direct them to Honourable Members, we are not going to bog down Parliament with a thesis.

#### GUIDANCE AND COUNSELLING TEACHERS

**MR O. RAMOGAPI (PALAPYE):** asked the Minister of Basic Education to update this Honourable House on the following:

- (i) how many qualified Guidance and Counselling teachers are there in primary schools;
- (ii) how such teachers are utilised by the ministry;

(iii) when Guidance and Counselling teachers in primary schools will be exempted from normal classroom teaching and focus on guidance and counselling services only;

(iv) why Guidance and Counselling teachers in secondary schools are specialising yet they are dealing with mature students than in primary schools;

(v) given numerous socio-economic challenges (orphans, HIV positive children, abused children, family disorders) faced by students in primary schools why is it taking time to fully utilise the services of this underutilised, qualified human resource to help troubled learners who are affected academically;

(vi) how both learners and teachers who are either infected or affected by COVID-19 being assisted in primary schools since Guidance and Counselling teachers in primary schools are turned into classroom teachers with full responsibilities and do guidance and counselling as an adhoc service; and

(vii) to update this Honourable House when he will stop the discrimination or treating primary schools differently from secondary school teachers since most of these teachers have the required academic qualifications.

#### ASSEMBLY IN COMMITTEE

(CHAIRPERSON in the Chair)

#### APPROPRIATION (2022/2023) BILL, 2022 (NO. 2 OF 2022)

#### ORGANISATION 2500 – MINISTRY OF DEFENCE, JUSTICE AND SECURITY

(Resumed Debate)

**MR CHAIRPERSON (MR MOATLHODI):** Honourable Members, the debate on this Bill is resuming. When the House adjourned earlier this afternoon, Honourable Minister responsible for the chapter had just begun.

**MINISTER OF DEFENCE, JUSTICE AND SECURITY (MR MMUSI):** Thank you Mr Chairperson. Mr Chairperson, I also reported that an initiative by the ministry was underway to establish a child-friendly justice system. This entails improving the justice system in order to protect the well-being of our children. A situational analysis is being finalised following which a plan to reform including policy and guidelines will be developed and implemented.

#### Refugee Management

Mr Chairperson, there are Nine Hundred and Thirty-Three (933) refugees in Botswana. Last year, I reported that the refugee population stood at One Thousand and Ninety-Three (1093). We continue to experience a steady decline in the refugee population, as a result of the successful return of refugees to their countries of origin whenever the situation is conducive to do so.

#### Anti-Human Trafficking

Mr Chairperson, on the 25<sup>th</sup> of January 2022, the International Monetary Fund (IMF) had determined that

the global economy entered 2022 in a weaker position than previously expected. The IMF forecast that the potential reposition of mobility restriction in response to the possible re-emergence of COVID-19 variants. In this respect, implementing the global plan of action against trafficking persons, which Botswana acceded to in September 2017 identifies will be faced with unfavourable economy, which may in then be catalyst that exacerbate the perverseness of transactional organised crime in the form of human trafficking.

Given the complexity ascribed to investigating cases of human trafficking, it is also commendable that we managed to dispose of two human trafficking cases in 2021, one of which unfortunately involved the systematic sexual exploitation of a 16 year old minor. Mr Chairperson, the current Anti-Human Trafficking National Action Plan is also coming to an end this year, and efforts are underway to review the plan to devise a new plan in conjunction with key stakeholders, which will be aligned to key national development frameworks including the RESET Agenda.

#### Licencing and Management of Private Security Services

Mr Chairperson, my ministry through the Private Security Service Licensing Board industry, has teamed up with the Ministry of Transport and Communications, Botswana Digital and Innovation Hub and SmartBotswana to expedite the automation of private security licensing processes. The project is expected to ease the application processes and ensure the database security and electronic archiving of records. To date, the process of ...(Inaudible)... is ongoing since 24<sup>th</sup> January, 2022.

Mr Chairperson, all along the main service provided was guarding. However, the Private Security Services Act No. 11 of 2015 in a broad way introduced new services being Specialist, Close Protection, Electronic, Investigator and Advisory services. At the moment, the ministry is in consultation with Attorney General's Chambers in working on strengthening the regulations to deliver on the mandate of the Act in relation to these new services. It must be noted that the private security service industry in its new form and scope, exists to complement the work of the Police in the public security sector and offers employment option to thousands of Batswana.

Mr Chairperson, the country experienced a spate of cash-in-transit heists in Gaborone and its periphery between August and November, 2021. The ministry engaged stakeholders in a bid to find lasting solutions to this issue. At the moment, the Botswana Police Service accompanying vehicles that ferry cash to the auto-teller machines, is only a temporary measure. Further consultations are ongoing on measures that should be put in place to guarantee the safety of cash and assets in transit, with the aim of ultimately relieving the Botswana Police on escort duties.

#### **CHEMICAL, BIOLOGICAL, RADIOLOGICAL AND NUCLEAR (CBRN) MANAGEMENT AUTHORITY**

Mr Chairperson, as part of the commitment toward global peace and security, Botswana pursued a comprehensive and full-life cycle approach to addressing Chemical, Biological, and Radiological and Nuclear (CBRN) risks, and incorporate other obligations under other regimes. This is also a particularly important part of effective coordination of Botswana objectives to Anti-Money Laundering and Counter Terrorism (AML/CT) survey study.

Mr Chairperson, non-proliferation of Weapons of Mass Destruction has been strengthened by developing a National Action Implementation Plan in partnership with the United Nations Security Council (UNSCR) group of experts. The plan outlines national priorities to provide a coherent framework of action for implementing the UNSCR 1540 as well as counter-proliferation financing as required by the Financial Action Task Force (FATF).

#### **OFFICE OF THE RECEIVER**

Mr Chairperson, the Office of the Receiver continues to receive Court Orders for seizure of movable and immovable property determined by the courts as proceeds and instruments of crime. To date, the office has received 38 Court Orders for seizure of properties meeting various descriptions and of these, the court has since ordered return of such properties in five of them.

Mr Chairperson, as at January 2022, the total value of the properties under the management of the Receiver was One Hundred and Eighty-Five Million, Three Hundred and Forty Thousand, Seven Hundred and Eighty-Two Pula and Eighty Thebe (P185 340 782.80).

Mr Chairperson, execution of the Asset Management Solution is expected to be completed during the financial

year 2022/2023 followed by the actual disposal of approved assets, this plans development and valuation of moveable assets.

The Office of the Receiver envisages to develop an office strategy, which will set the tone of the office operations and provide clear guidelines to ensure continuity and clarity in delivering the mandate.

#### **VETERAN AFFAIRS**

Mr Chairperson, it is my intention to bring to Parliament a Military Veterans Bill, aimed at providing for the welfare and benefits of separated members of the Botswana Defence Force (BDF). This is an acknowledgement of the challenges faced by a large number of former servicemen, who struggle to transit from active military service to civilian life. It has been realised that the current set-up where the BDF Commander is charged with the responsibility for running the active force and administration of veterans' welfare is cumbersome and goes against the international best practice.

Mr Chairperson, the Bill will facilitate the establishment of the Veteran Affairs Unit within my ministry, headed at Director level. It will also establish governing bodies and functions of the unit and set out relationships with associations of separate members and other organisations with interest in the welfare of former service men and women. To mitigate the costs of establishing the office, a lot of personnel rationalisation had already been done within the ministry.

#### **LEGAL AID BOTSWANA**

Mr Chairperson, Legal Aid Botswana (LAB) has diversified its digital platforms to enhance service delivery, particularly in its public legal education and awareness programmes and/or activities and provision of legal services nationwide. Various electronic and digital platforms were utilised by the Legal Aid including but not limited to television, website, Facebook to achieve success on delivery.

Mr Chairperson, LAB also successfully opened a new service centre at Palapye, bringing the number of service centres to six, including the existing ones located at Gaborone, Francistown, Maun, Kasane, and Tsabong. This has assisted LAB's legal service and legal education outreach. The service centre has performed very well especially in publicity and legal education.

**BOTSWANA DEFENCE FORCE**

Mr Chairperson, there were notable achievements during the financial year 2021/2022. The Botswana Defence Force (BDF) conducted a broad range of domestic and regional operations in order to protect and promote peace and security. In some of the domestic functions, the BDF continued with the provision of aid to civil authorities, aid to the Botswana Police Service (BPS) in fighting crime and continued with current enduring operations in the form of border and anti-poaching operations. In respect of the COVID-19 pandemic, the BDF provided support to line ministries, including the Ministry of Health and Wellness (MoHW) and Ministry of Transport and Communications (MTC). The BDF also continued to provide protection and transportation to Very Important Persons (VIPs) and Very Very Important Persons (VVIPs).

Mr Chairperson, at regional level, the BDF was engaged in peacekeeping operations in Mozambique and Democratic Republic of Congo (DRC). In Mozambique, the BDF contributed to the attainment of regional security and stability by deploying 300 troops as part of the SADC Mission in Mozambique (SAMIM). The Defence Force also participated in peace observer missions in DRC, under the ambit of the United Nations (UN), and assisted in stability process in the Kingdom of Lesotho and Eswatini. The success in conducting these operations is a direct consequence of Government's commitment and dedication in continually funding the defence programmes and projects such as air assets, logistics support, vehicles, specialised defence equipment, communication equipment and infrastructure development. The expectation is that, the BDF will continue with the operations it is engaged with well into the next financial year, thus the need for continued funding.

**BOTSWANA POLICE SERVICE**

Mr Chairperson, Botswana Police Service (BPS) continues to implement various law enforcement strategies to remove opportunities for crime.

There are positive developments in the protection and promotion of human rights especially the prevention of violence and abuses that result in physical, sexual or psychological harm. The police are actively implementing efforts to improve the investigation and prosecution of Gender Based Violence (GBV) related cases and those involving children. Already, two

Child Friendly Service Centres have been established in Gaborone and Francistown, in part, to create a conducive environment for handling the victims and safeguard their privacy. The on-going rollout of the centres to Maun, Palapye and Lobatse will go a long way in meeting essential security requirements.

Mr Chairperson, in pursuit of increasing police visibility and access the following police posts projects were completed in 2021 and come are to be completed soon:

- (i) Parakarungu Police Post have been handed over.
- (ii) Mabesekwa Police Post - handed over.
- (iii) Radisele Police Post - handed over.
- (iv) Mopipi Police Post – to be handed over in the next month.
- (v) Dimajwe Police Post - 90 per cent completion.

Mr Chairperson, the BPS is responsive to any emerging security requirement. As you are no doubt aware, the country has been experiencing a growth in armed robberies targeting cash in transit vehicles and some large businesses in Gaborone and other areas. These criminals comprise both local and foreign nationals who appear to be jointly perpetrating these criminal acts.

Mr Chairperson, road safety is another national priority where the BPS is a key stakeholder. The realisation of improved road safety management is pursued through enforcement initiatives characterised by reinforced stakeholder engagements such as roadblocks, highway patrols, road safety operations and public education.

**PRISONS AND REHABILITATION**

Mr Chairperson, currently we have 22 prisons and a centre for illegal immigrants in Francistown with an authorised carrying capacity of 4 337. As at 16<sup>th</sup> March, 2022, the number of prisoners held in our facilities was 3 929 and 317 children accompanying their parents. This implies that we are operating at 9.4 per cent below our authorised carrying capacity. However, we are still experiencing overcrowding in high security prisons which is attributed to the magnitude of admissions of highly sophisticated criminals. However, we are still experiencing overcrowding in some of the prisons which is attributed to the magnitude of admissions of highly sophisticated crimes.

Mr Chairperson, the Prison Service will continue to capacitate officers to perform with due diligence. This shall be done through regular meetings, workshops and

refresher courses to instil discipline, vigilance, esprit-de-corps, the use of technological advancements and scale up searches to detect possible escapes and prevent contrabands from entering prison premises.

With a view to enhancing prisoner rehabilitation initiatives, the Prison Service has developed an Offender Re-integration Strategy to facilitate successful re-entry of offenders into the society.

Mr Chairperson, the Prison Service has further come up with the Prison Food Security initiative, which is in line with National Priority No. 4 on Value-Chain Development on His Excellency's Reset Agenda. This initiative will focus on prisoners with agriculture and agro processing skills, thereby enhancing the Prison Service contribution to the national food basket. It is anticipated that the initiative will facilitate an increase in food produced in Prison facilities, especially grains and vegetables.

## BUDGET PROPOSALS FOR THE FINANCIAL YEAR 2022/2023

ORGANISATION 2200 –MINISTRY OF  
YOUTH EMPOWERMENT, SPORT AND  
CULTURE DEVELOPMENT

**MR CHAIRPERSON:** Honourable Members, please note that two hours 50 minutes has been allocated to this organisation and I shall call upon the Honourable Minister to reply to the debate at 1630 hours tomorrow and the question will be put at 1700 hours. Honourable Minister, please talk to your budget.

**MINISTER OF YOUTH EMPOWERMENT, SPORT AND CULTURE DEVELOPMENT (MR RAKGARE):** *Ke a leboga Modulasetilo, ke lebogela sebaka se o re se fileng. Ke dumedise gape Motlotlegi Modulasetilo. Ke supe* Mr Chairperson and Honourable

Members how privileged I feel today to present the Ministry of Youth Empowerment, Sport and Culture Development's budget proposals for the financial year 2022/2023, under Organisation 2200, before this Honourable House.

Honourable Members will agree with me that 2021 was a difficult year due to the COVID-19 pandemic and its negative impact on the youth, sport and culture sectors. Young people could not congregate and engage or socialise, artists could not host shows and earn income. Sport was suspended and athletes could not play for almost two years. However, I wish to thank the leadership of our country for their strength and resolve in dealing with the pandemic. The high rate of vaccination has enabled opening of the entertainment and sport industries to revellers and spectators. Artists and athletes are now able to ply their trade and earn a living.

Mr Chairperson, under the 2021/2022 Recurrent Budget, the ministry was allocated Nine Hundred and Forty-Two Million, Three Hundred and Seventy-Nine Thousand, Seven Hundred and Sixty Pula (P942 379 760). From this amount, Six Hundred and Eighty-Eight Million, Three Hundred and Five Thousand, Nine Hundred and Ninety-Seven Pula (P688 305 997), which is 73 per cent of the approved budget, had been spent as at 16<sup>th</sup> March 2022. This is despite suspension of most programmes as movement and gatherings were prohibited under health regulations.

For this financial year, the Development Budget allocation was Fifty-Three Million, Six Hundred and Thirty-Five Thousand Pula (P53 635 000) which was reduced to Twenty Million, Six Hundred and Thirty-Five Thousand Pula (P20 635 000), to cater for critical needs associated with the COVID-19 pandemic, representing a 61.5 per cent reduction of the original budget. Eight Million, Fifty-Three Thousand, Five Hundred and Sixteen Pula and Three Thebe (P8 053 516.03) representing 39 per cent of the budget was spent, as at March 2022. Expenditure is generally low, but should improve as the COVID-19 situation also improves.

### **YOUTH EMPOWERMENT**

Mr Chairperson, the youth cohort constitutes the majority of our population. Unfortunately, our youth continue to face challenges of unemployment, poverty, drugs and substance abuse, as well as Human Immunodeficiency Virus/Acquired Immunodeficiency Syndrome (HIV/

AIDS), among others. The youth unemployment rate of 32.4 per cent (according to the Quarterly Multi-Topic Survey of Quarter 4, 2020) is currently the greatest concern of our Government. A multi-pronged approach is required to create employment opportunities for youth and Batswana in general, hence the implementation of entrepreneurship programmes, affirmative action initiatives and job preparedness through internship.

### **YOUTH POLICY**

To establish the relevance, efficiency and effectiveness of the Revised National Youth Policy 2010 and acknowledging emerging challenges, our ministry partnered with United Nations Development Programme (UNDP) in 2020 to review the policy. The consultancy work started in March 2021 and is expected to be completed before April 2022.

### **ENTREPRENEURSHIP**

The 2021/2022 financial year was a difficult and disruptive year, due to COVID-19 pandemic. Youth economic empowerment programmes were disrupted as safety and compliance to COVID-19 protocols had to take precedence. Following the call for new Youth Development Fund (YDF) proposals applications for the 2021/2022 financial year, the ministry received a total of 8 383 YDF applications, out of which 831 applications were approved for youth businesses at the value of P81.8 Million. An amount of P79.8 Million has been disbursed to youth as at February 2022. A total of 24 appeals have been received which are likely to drive the figures upwards. The priority sectors for funding were manufacturing, technology and innovation, tourism and agriculture value chains.

As members would be aware, YDF funding is a half grant and half loan arrangement. Young people are expected to repay their loan component to enable Government to sustain the programme and for them to demonstrate responsibility and accountability. A total of P4 632 739 against an annual target of P4 Million was paid back by youth businesses as the loan component for their funded projects. This is encouraging Mr Chairperson, considering the negative impact of the pandemic on many youth businesses.

We also continued to monitor funded projects and supported some of the YDF beneficiaries with the provision of operational spaces, capacity building and marketing. A total of 1 133 businesses were visited for monitoring across the country against an annual target of 1 220.

Although most of the youth businesses are struggling due to the economic impact of the pandemic, we are encouraged by some young people who have remained steadfast and committed to their businesses. To this end, we would like to highlight the following 10 businesses for special recognition as evidence of the success of YDF. Mr Chairperson, I must say that it is not only these 10 businesses. There is a lot of them that I would like to share, but due to time constraints, I just want to confine myself to these 10. We have:

- Ronreag Investments – Toilet Hire (Gumare),
- Zwekethubojwa and Sons – Waste Management (Shakawe),
- Tap and Die Investments – Auto Spares (Seronga) –Honourable Kapinga
- Precious Guest House (Tlokweg) – Honourable Segokgo.
- Sugar Nails – Beauty Therapy (Tlokweg),
- REECA Travel and Tours (Gaborone),
- Chidzanani Pharmacy (Francistown),
- Copza Weaner Production – beef production (Ghanzi),
- Blue Colour Wheel – Day Care Centre (Kasane),
- LA Signature Bed and Breakfast (Francistown), and many others.

#### **YOUTH VOLUNTEER PROGRAMMES**

Mr Chairperson, Government continues to administer programmes aimed at alleviating the unemployment challenges faced by the youth. Volunteer programmes continue to be made available with the objective of providing the youth with opportunities for meaningful engagement and preparing them for the world of work.

#### **SPORT AND RECREATION**

Mr Chairperson, the Sport Sector has been greatly affected by the COVID-19 pandemic resulting in limited activity for almost two years, where only National Teams were active. The health risk together with the strict health protocols for athlete's safety made playing very challenging.

It was only in August 2021 that local sport programmes could fully return to play, under strict health safety

protocols, regular testing and exclusion of spectators. However, as the disease situation improved, spectators were allowed to attend sporting events towards the end of 2021.

#### **Sports Legislation**

The Botswana National Sport Commission (BNSC) Act (2014) is currently under review with the intention of coming up with a Sport Act that will address all issues that are critical in the development of sport, and establish sport as a sector that can meaningfully contribute to the development of our economy. Drafting instructions have been submitted to the Attorney General, and a draft Bill is expected to be tabled before Parliament in July 2022.

#### **Women's African Cup of Nations 2022**

Mr Chairperson, I am proud as a ministry and as a Government to inform Honourable Members that the Senior Women's National Football Team; the Mares, have qualified for the Women's African Cup of Nations 2022. The team was rewarded with a qualification bonus of P537 500.00 by Government, and an additional P300 000.00 from Lucara Botswana to be shared amongst them. The finals will be held in Morocco in July this year. I am optimistic that Honourable Members will give our ladies support. This is a great achievement by the Mares and an important sporting breakthrough for our women in sport. I wish to congratulate the team for this gift to Botswana. The team will receive all the support it needs for their preparation and participation.

#### **Olympic Games**

Mr Chairperson, 14 athletes qualified for Tokyo 2020 Olympic Games that were postponed to be held in July and August 2021. As Members, would all be aware, the 4x400m Men's Relay Team won a Bronze Medal and has since been rewarded with a two bedroomed apartment each, at a total cost of about P2, 6 million. We will strive to continue to motivate National Team Athletes. To this end, the Incentives and Rewards Policy for National Team Athletes (2012) has been reviewed and the new policy should come into effect on 1<sup>st</sup> April 2022.

I need to correct this Mr Chairperson, it is actually not policy but an Incentives and Rewards Package. In fact, I am happy to share that yesterday Cabinet agreed with the ministry that this has to be passed *mme re letse re dumalane* Mr Chairperson, *ka boitumelo jo bo kalo*.

### **Proposed AFCON 2027 Bid**

Mr Chairperson, Botswana Government through Botswana Football Association (BFA) has expressed interest in bidding to co-host the 2027 Africa Cup of Nations with the Republic of Namibia. Preliminary discussions have been initiated with our Namibian counterparts, and they have considered the proposal favourably. Once details have been worked out and the necessary clearances made, an announcement on the outcome will be made. Clearly, hosting a continental event of this status has significant cost implications, but also positive economic and sporting benefits.

### **Arts and Culture**

Mr Chairperson, you will recall that in the past two years, the creative sector continued to experience challenges due to restrictions on gatherings as we battled control of the COVID-19.

### **Arts and Culture Programmes**

Mr Chairperson, despite challenges posed by COVID-19 in the creative industry sector, it is pleasing to note some performance milestones and achievements in the sector. In the 2021/2022 financial year, the ministry implemented a number of programmes that included Phase 1 Cross Country Recordings, Independence Day Celebrations Video Recordings, participation in Expo 2020 Dubai, NOW! Channel Television content acquisition and capacity building for the arts among others.

Mr Chairperson, the Cross Country Recordings were undertaken in two phases; Phase 1 in June and Phase 2 in July/August 2021.

### **National Arts Council of Botswana (NACB)**

Mr Chairperson, following the passing by Parliament of the National Arts Council of Botswana (NACB) Act in September 2020, we are happy to inform this Honourable House that the council is taking shape. The Board was appointed in August 2021, followed by the development of the organisational structure. Recruitment of the Chief Executive Officer (CEO) and other leadership positions is ongoing, with a target of the beginning of May 2022 for the positions to be filled. The rest of the staff is expected to report for duty by August 2022.

### **Budget Proposals**

#### **2022/2023 Recurrent Budget Estimates**

Mr Chairperson, allow me to now present my ministry's 2022/23 budget proposals, starting with the Recurrent

Budget. I request the sum of Nine Hundred and Sixty Four Million, Nine Hundred and Sixty-Four Thousand and Sixty Pula (P964, 964, 060.00) for the Recurrent Budget, which represents an increase of 2.4 per cent, compared to the 2021/2022 approved budget. The amount requested will be broken down as follows:

### **Headquarters**

I request Six Hundred and Ninety-Two Million, Nine Hundred and Fifteen Thousand, Nine Hundred and Fifty Pula (P692, 915, 950.00) for ministry headquarters. This request represents an increase of 3.4 per cent, compared to this financial year's approved budget. The largest share of the budget which is One Hundred and Eighty-Five Million, Twenty-Five Thousand, Three Hundred and Fifty Pula (P185, 025, 350.00) will go towards payment of salaries and operations. The Botswana National Sports Commission and Botswana National Olympics Committee will get the next largest share of the budget under headquarters, amounting to One Hundred and Sixteen Million, One Hundred and Ninety-Eight Thousand, Three Hundred and Seventy Pula (P116, 198, 370.00). This will cater for both their operations, facilities maintenance and forthcoming international sport competitions.

Mr Chairperson, One Hundred and Four Million Pula (P104, 000, 000.00) is requested for the Youth Development Fund (YDF). Twenty Seven Million, One Hundred and Fifty Thousand Pula (P27, 150, 000.00) is required for Schools Sport Programme. Twenty Million, Nine Hundred and Thirty-Six Thousand Pula (P20, 936, 000.00) is required for Constituency Sports Tournaments, while Constituency Arts Competitions will require Eighteen Million, Twenty-Five Thousand, Five Hundred Pula (P18, 025, 500.00) and Seventeen Million, Nine Hundred and Ninety-Nine Thousand Pula (P17, 999,000.00) will be used for President's Day Competitions.

Mr Chairperson, since I do not have time, this concludes my presentation of the 2022/2023 Recurrent and Development Budget requests for my Ministry of Youth Empowerment, Sport and Culture Development. I therefore move that the sum of Nine Hundred and Sixty-Four Million, Nine Hundred and Sixty-Four Thousand and Sixty Pula (P964, 964, 060.00) under Recurrent Budget for Organisation 2200 be approved and stands part of the Schedule of the Appropriation (2022/2023) Bill, and that the sum of Forty-Seven Million, Five Hundred and Seventy Thousand, Two Hundred and

Twenty-Five Pula (P47 570 225) for Organisation 2200 under the Development Budget be approved and stands part of those Estimates for the financial year 2022/2023. I move accordingly Mr Chairperson. Thank you very much.
