QUESTIONS FOR ORAL ANSWER

COMMUNITIES SURROUNDED BY PRIVATE FARMS

MR M. REATILE (JWANENG-MABUTSANE): asked the Minister of Land Management, Water and Sanitation Services to state:

- (i) the obligation of Government to communities surrounded by private farms; like communities of Thankane, Mahotshwane and Kanaku;
- (ii) the total number of farms, identity and size;
- (iii) the distance between villages and the first farm;
- (iv) the years the following villages were established versus the allocation of the farms;
 - (a) Thankane;
 - (b) Mahotshwane;
 - (c) Sekoma;
 - (d) Khonkhwa; and
 - (e) Samane.

ACTING MINISTER OF LAND MANAGEMENT, WATER AND SANITATION SERVICES (MR PULE): Thank you Mr Speaker. Mr Speaker,

(i) the obligation of Government to communities surrounded by farms is to ensure that these communities have access to land for the different uses, either as individuals or as community trusts. To this end Mr Speaker, Kanaku community has been allocated a range measuring 2476.5 hectares which the Southern District Council (SDC) has already developed by erecting a parameter fence. The Southern District is also working on a feasibility study to explore the possibility of allocating Mahotshwane community a farm after formation of a trust, and this exercise was suspended to comply with the COVID-19 protocols as the consultation required Kgotsa meetings.

Mr Speaker, I have to indicate that there are currently no available travel commercial ranges in the area for allocation. The existing ranges were allocated in the late 70s to mid-80s. However, in an effort to provide commercial ranges in the area, a former Wildlife Management Area being SO2 was de-zoned to commercial farms in 2012. 10 community farms were identified to be allocated to the community trust in the area. Following the demarcation of the farms, the communities raised objection to the provision of farms, and prefer communal grazing area. As a result of the above, the exercise of disposal of these farms was halted with a view to revisit the issue after incorporating the concerns of the communities, and this was done in January 2021 and is awaiting resurvey of the area.

- (ii) The total number of tribal list farms in the area is 55. The farms in the Thankane and Mahotshwane areas are denoted by the quote KN and their sizes range from 1930 hectares to 8987 hectares. The Sekoma farms are denoted by the quote KM, and they range from 6371 hectares to 7816 hectares Mr Speaker.
- (iii) The distance between Mahotshwane and the nearest farm being KN83, is 347 metres. The distance between Thankane and the nearest farm being KN11 is 533 metres. The distance between Kanaku and the nearest farm is 4.3 km, and the distance between Sekoma and the nearest farms is 3.81 km being Farm KN36 to the north, while Farm KM43 is 10 km out of the village.

In terms of the establishment of the villages and the farms allocation, the available information indicates that

- (a) Thankane came into existence in 1988 finding the first farms which were allocated in 1979 and another batch in the early 80s and mid-80s.

- (b) Mahotshwane was established in 1970 and the Mahotshwanyane farms were allocated in 1986 and 1987 respectively.
- (c) Sekoma was established around 1937 and Sekoma farms were allocated in 1986 and 1987 respectively.
- (d) Khonkhwa was established in 1960 and there are no farms next to the village Mr Speaker.
- (e) Finally Mr Speaker, Samane was established in 1978 and there are no farms next to the same village. I thank you Mr Speaker.

MOTOR VEHICLE INDUSTRY

MR T. LETSHOLO (KANYE NORTH): asked the Minister of Investment, Trade and Industry to apprise this Honourable House on the competitive (or non-competitive) nature of the motor vehicle industry in Botswana in so far as vehicle dealerships, vehicle service plans and vehicle maintenance plans is concerned, more particularly:

- (i) why some dealerships embed and bundle the cost of vehicle service or maintenance in the overall price of a new vehicle;
- (ii) is this not tantamount to unilaterally pre-charging consumers for the service and maintenance of the vehicle without giving the consumer the option for an alternative supplier with a possible price advantage;
- (iii) why do the manufacturers and dealerships prohibit vehicle owners from repairing or servicing their new vehicles at independent service providers and voiding warranties if they so do;
- (iv) whether this practice is not anti-competitive in so far as it compels the vehicle owner to use an approved dealership for subsequent service or maintenance of the vehicle, without the option of using independent mechanics and service providers;
- (v) why has this uncompetitive practice (of compulsory bundling of purchase price, service and maintenance costs without full disclosure and consumer choice) that treats customers unfairly not attracted the attention of the Competition and Consumer Authority (CCA);
- (vi) if this practice does not constrict the possible growth and development of local businesses and entrepreneurship in so far as it prohibits independent mechanics from servicing these thousands of vehicles;
- (vii) what would stop Government from passing a law that compels vehicle dealerships to separate the cost of the vehicle from that of service and maintenance so that consumers can choose their own service providers for service and maintenance;
- (viii) what benefits would accrue to the country in terms of employment creation, to local mechanics and associated service providers, and to consumers, if Government implemented the foregoing.

...Silence...

MR LETSHOLO: *Mr Speaker, Tona o tlhalositse gore o mo mosepeleng wa Puso. Jaanong ke kopa later date.*

Later Date.

HEADMEN OF ARBITRATION

MR T. B. LUCAS (BOBONONG): asked the Minister of Local Government and Rural Development to state:

- (i) the total number of Headmen of Arbitration in Botswana;
- (ii) their terms and conditions of Service;
- (iii) the rationale for paying Headmen of Arbitration allowances instead of salaries; and
- (iv) If the ministry is amenable to paying Headmen of Arbitration salaries to allow them all kinds of entitlements of salaried Government employees and to further state reasons for his response.

ASSISTANT MINISTER OF LOCAL GOVERNMENT AND RURAL DEVELOPMENT (MR MODUKANELE): *Mr Speaker, nte ke go leboge. Ke leboge le Honourable Lucas ka potso e a re e beileng pele.*

- (i) Mr Speaker, there are 2 557 Headmen of Arbitration in Botswana.
- (ii) The terms and conditions of service for Headmen of Arbitration are set out in the Guidelines for Establishing Courts of Arbitration. They stipulate that;
 - Headmen of Arbitration arbitrate on various issues in their respective wards and work three days in a week.
 - Furthermore, Mr Speaker, Headmen of Arbitration are expected to keep confidential information at all times, maintain high level of discipline and dress in a manner that is reflective of a public office.
 - They are also paid a monthly allowance that Government determines from time to time.
- (iii) The rationale for paying Headmen of Arbitration allowances instead of salaries is that, their conditions of service allow them flexible working hours to engage in other economic activities to compensate for other benefits extended to salaried employees.

(iv) Mr Speaker, given the nature of the work of Headmen of Arbitration, my ministry has no plans to pay them all kinds of entitlements of salaried Government employees. *Ke a leboga Mr Speaker.*

MR LUCAS: *Supplementary.* Ke a leboga Tona. Ke a leboga *Mr Speaker.* Tona, fa gongwe o nne o tlhalosa dikgang tsa gago ka Setswana gore di tle di utlwale sentle, go ne go ka re thusa. LEARNING PROGRAMMES OFFERED AT GHANZI BRIGADE

MR J. L. THIITE (GHANZI NORTH): asked the Minister of Employment, Labour Productivity and Skills Development to state:

- (i) whether the Minister is satisfied with learning programmes offered at Ghanzi Brigade in regard to meeting labour market realities in terms of both quality and relevance;
- (ii) if there has ever been a review of the learning programmes to meet the labour market demands;
- (iii) if the ministry has made any progress on the implementation of the Botswana Education and Training Sector Strategic Plan (ETSSP) at Ghanzi Brigade to align Technical and Vocational Education and Training (TVET) programmes and institutions with the demand for qualified, productive, and competitive human resources; and
- (iv) whether there are any plans to introduce mining and agriculture related courses at Ghanzi Brigade in light of the fact that there are booming mining and agriculture activities in the area.

MINISTER OF EMPLOYMENT, LABOUR PRODUCTIVITY AND SKILLS DEVELOPMENT (MR SHAMUKUNI): Thank you Mr Speaker.

- (i) Mr Speaker, I am aware of the learning programmes offered at Ghanzi Brigade which are; Electrical Installation and Appliance, Bricklaying, Auto-Mechanics and Business Studies. These are legacy programmes which have been offered since 1997.

However, given the present industry needs, I must say that I am not satisfied with the legacy learning programmes offered at Ghanzi Brigade. This is for the simple reason that these programmes do not meet the current labour market needs due to the fact that they were last reviewed in 1997.

- (ii) My ministry is currently reviewing the learning programmes to meet the standards of the National Credit Qualification Framework (NCQF). The process started in February 2019, and a total of 88 qualifications have been developed and submitted to Botswana Qualifications Authority (BQA). Out of these 88, 29 qualifications have been accredited and registered of which 22 are for Level III; six for Level IV and one for Level V. The learning programmes for these qualifications are being developed in conjunction with relevant stakeholders Mr Speaker.
- (iii) Mr Speaker, my ministry is making progress on the implementation of Education and Training Sector Strategic Plan (ETSSP) to align Technical and Vocational Education and Training (TVET) programmes and institutions with the demand for qualified, productive and competitive human resource. In order to improve the alignment of TVET programmes with market needs, my ministry will introduce programmes such as Livestock, Auto mechatronics and the improved Electrical Installation and Maintenance, as well as Music. To ensure competitive and industry relevant graduates, my ministry in partnership with GIZ (Germans) has trained two Auto-mechatronics Master Trainers in preparation for the implementation of the new curricula. Furthermore, in order to implement multiple pathways, Ghanzi Brigade has been included in Phase Two project which is expected to start in the financial year 2023- 2024.
- (iv) Mr Speaker, as I have already indicated, the agriculture related course that will be offered at Ghanzi Brigade is Livestock Farming. Some infrastructure development with regard to this programme have already been started at the institution. This programme will be offered at Certificate Level III, IV and V. Pertaining to mining related programmes, Ghanzi Brigade will be offering Auto-Mechatronics and Electrical Installation and Maintenance.

My ministry will continue to review its product offering at our institutions looking at the market needs in any particular locality. I thank you Mr Speaker.

MR THIITE: Thank you Mr Speaker; and thank you Honourable Minister. Tla ke go leboge Honourable Minister gore gongwe o tsweletse o tsaya dikgato tse di

tshwanetseng. Honourable Minister, jaaka o tlhaloganya gore kgaolo ya Ghanzi, *community activity e ntse thata e le farming, especially livestock farming, mme fa le tla le simolodisa ETSSP, a le ne sa lemoge gore it is important that mo nakong ya gompieno re lebagane thata le dikgwethlo tsa unemployment?* Le ne le sa lemoge gore go botlhokwa gore le fefose to introduce *livestock farming courses gore le kgone go thusa go tlhamma mebereko?*

Sa bobedi e bo e nna gore Honourable Minister, ka yone ETSSP ya gago, fa o e link gongwe kana o e itebaganya gongwe le *Ministry wa Minerals, Government is supposed to have long been aware and I know my Government has been aware gore kana moepo o a goroga kwa Ghanzi.* Re a itse gore moepo fa o goroga kwa Ghanzi, banni ba teng *for the longest time have never experienced a mining environment.* Mo nakong ya gompieno bana ba Ghanzi *are missing opportunities tsa mebereko ka lebaka la gore ga le a fefosa gore le eteletse pele go simolodisa courses tse di relevant gore e re moepo jaaka o tshwanetse o bule mo ngwageng o o tlang, le bone ba kgone to be absorbed ke moepo.* Gongwe o ka nkaraba gore *how can you account to batho Ghanzi Honourable Minister ka tiego e ya go tsisa the relevant courses tse e leng gore le bone they can be a part of job opportunities tse mo nakong ya gompieno di ba latlhegetseng?*

Honourable Minister, ya bofelo ke gore re a itse gore fa re bua ka value chains gongwe re leka go bua ka go atolosa itsholelo jaaka Puso ya me e ke e ratang thata e soloeditse Batswana. Re a itse gore go atolosa mebereko thatathata go ka bonala fa e le gore gongwe Batswana are given adequate knowledge ya go tlhaloganya the value chain jaaka ke bua gore livestock mo kgaolong ya Ghanzi since time immemorial, it is a hub of the beef industry. I thank you Honourable Minister.

MR SHAMUKUNI: Ke a leboga Mr Speaker. Mr Speaker, *re itse sentle gore local economy ya Ghanzi tota e ikaegile mo go eng. Ke agriculture mainly, and then of recent of recent ke mining.* This is the reason why we decided to scrap off some of our legacy programmes because *re ne re bona gore ga di relevant to dinako tsa gompieno or the demands tsa mmarakha jaaka re o itse mo nakong ya gompieno.* Process of

As I indicated, *re isitse* programmes *di ka tshwara 88 tse dišha tse e leng gore* we are going to offer them from August this year, but only 29 qualifications were accredited and *ke tsone tse e leng gore* we are going to offer them Mr Speaker.

So, we are aware *ka* the need of developing such skills *mo Ghanzi* and we will proceed *ka tse e leng gore* they have accredited.

In terms of development *ya* value chain, we are also aware *gore* skills have to be developed *gore baithuti batle ba tseye karolo botoka* in the industry. That is the reason why *re tsisa ya* mining, *ya* mechatronics *e e leng gore* it is supported by the Germans.

The way it is crafted Mr Speaker, it is such that *fa bana ba fetsa*, they are capacitated enough *gore ba kgone go tsena mo mmarakeng* as entrepreneurs. *Ba tswa ka tool boxes le dilo tse di farologaneng, gore ba kgone* to participate across the value chain *ya* economic activities *mo Ghanzi area*. MR SHAMUKUNI: Mr Speaker, I want to assure the Honourable Member *gore e tlaa re August a goroga re bo re simolola* enrolling *mo* programmes *tse disha tse*. *Re tlaabo re le ready to accommodate bana* and we have budgetary provisions for maintenance and also procurement of the equipment, *e e leng gore* will enable us *gore delivery ya* programmes *tse disha tse e bo e le swift go sena bothata bope*. MR KEORAPETSE (SELEBI PHIKWE WEST): Thank you Mr Speaker and good afternoon to Honourable Members.

Mr Speaker, I wish to start my reaction to the 2022/2023 Appropriation Bill with words from the Holy Book of Psalm Chapter 9:1 ‘I will give thanks to you, Lord, with all my heart; I will tell of all your wonderful deeds. Psalm 35:18 ‘I will give you thanks in the great assembly; among the throngs, I will praise you.’ While there are more things to be grateful for in the year 2022 Mr Speaker, I wish to profess my gratitude to the Lord Almighty God for the wonderful gift of life. Mr Speaker, I will be turning 40 years tomorrow, Thursday the 24th.

My wife and I have a new baby boy, we named him Dithapelo Keorapetse Junior. This boy came on the 24th of December 2021, we cannot thank God enough for this wonderful gift.

Like many who spoke before me, I would like to give a huge salute to Honourable Peggy Onkutule Serame for reaching new heights, rising to the helm of the country’s economic high command, where our lives are run; a big congratulation to her.

However, Mr Speaker, I wish to caution Batswana, especially women, to manage their expectations. I am generally an optimist, but I am sceptical that women’s lives are about to change for the better under Minister Peggy Serame. Honourable Serame is not new in Government, she has been Permanent Secretary (PS) in the Ministry of Trade, she has also been a Minister there. Personally, I do not know, I am amenable to advice, I do not know of any initiatives, ground breaking initiatives which have helped women when she led Trade ministry as PS or as its political head. Her first Budget Speech is devoid of feminine touch; it lacks that ethic of care espoused by Carol Gilligan. For instance, there was no announcement of abolishment of pink tax. In other words, Mr Speaker, sanitary pads, menstrual cups, tampons and related items, remain taxable items under a woman Minister of Finance, Honourable Serame. She has budgeted for free distribution of condoms mainly for men whilst she failed to budget for free distribution of sanitary pads for women. These are not good signs.

We have not heard of any ground breaking announcement on women or girl’s empowerment policies in her budget. This is not shocking, we believe she has a template and parameters set by her Government within which to operate. After all she serves the President, the ruling party and Government, and her rigidity during the debates on the Financial Intelligence Bill was telling on what we would be dealing with.

Mr Speaker, contemporary economic challenges of Botswana serve as a clear testimony that this Government has failed decimally to recognise that necessary conditions for sustainable socioeconomic development that would create meaningful jobs, alleviate poverty, narrowing inequalities and provide opportunities for Batswana are increased economic efficiency, expansion of national economic capacity, modern technological advance, economic and industrial diversification and adaptability to shocks. We realise during the COVID-19 pandemic that failure to build a strong economy that can adapt to shocks can lead us into trouble.

This Government has built an economy that is fragile and vulnerable to external shocks. For over 50 years it has been dependent on minerals, especially diamonds and Southern African Customs Union (SACU).

As we emerge from COVID-19, we are not seeing adequate expansionary fiscal policy measures. Government has failed to put in place counter-cyclical fiscal policy measures by avoiding taxes and increasing spending. This Government continues to take away from the poor and middle class through all manner of hidden taxes in the form of levies and high service fees, and leave out big corporations unscathed. Big corporations for instance, many of which avoid paying tax, are charged 22 per cent corporate income tax. We have suggested as an alternative that corporations be taxed 30 per cent corporate income tax because they can afford.

Throughout the 2022 Budget debate, we were unendingly asked to ululate and praise the Government for providing enough vaccines for Batswana. In fact, when I was with the President in Selebi Phikwe, he asked me *gore* how are you going to debate in Parliament now that we have provided adequate vaccines for Batswana. Mr Speaker, how much, the praise and worship team has done a good job in that regard in praising, so we will not belabour the point. However, we will never forget that COVID-19 vaccines arrived late, and that thousands of people lost their lives because they were not vaccinated on time. These people lacked oxygen and bed spaces in hospitals because of the clumsy preparation for COVID-19. The plundering of the fiscus under the guise of COVID-19 management, the corruption, mismanagement and maladministration, some are documented by the Auditor General and the Directorate on Corruption and Economic Crime (DCEC).

Now on Selebi Phikwe Mr Speaker; I wish to congratulate Selebi Phikwe schools for their sterling performance at primary schools, junior secondary schools and senior secondary school results. We remain the best in the country Mr Speaker, and big up to learners, teachers, parents and the community. If we had enough classrooms, laboratories, text books, teaching materials, machines and equipment, furniture, adequate internet coverage and access to computers, if we had less student to a teacher, and if teachers had better accommodation, enough furniture, and if they were paid well and had better conditions of service, we would be very-very far. If we could have these, we could better our best Mr Speaker.

October 7th 2016 remains a day of infamy for Selebi Phikwe residents. We have noted the finalisation of acquisition of Selebi and Selebi North, and acquisition of Selkirk by Premium Nickel Resources (PNR) Botswana.

Parliament was updated, the Minister responding to a question I asked, that there has been a finalisation of the deal, the acquisition of Selebi and Selebi North and Selkirk. That an amount of P770 million was expected to be paid for that. Selkirk mine has been sold for P66.97 million. PNR Botswana is committed to pay P337.87 million now and the balance of P337.87 million when they start production. This is a welcome development.

As I have indicated before, it is not because anyone in Government has done anything extraordinary. In fact, the Vice President (VP) must get the message that he himself, the President or his Ministers have not done anything extraordinary. A company called PNR saw an opportunity on a mine that is being closed and then they saw an economic business opportunity there and came to invest. We have talked about the need for reopening of this mine for many years. I have said in this very House, that from 2017, nickel prices picked. Nickel is now selling at close to 7 Dollars per Pound and copper is also selling well in the international market. That is why PNR and others were interested in buying BCL, because it baffled the mind in terms of why would somebody opt to close such a mine when these commodities are so much needed by the world. We want the Government to use the proceeds to pay former BCL employees, a fee equivalent to a retrenchment package, in line with promises made in 2016, that they would be paid enough to restart their lives post BCL closure. I have indicated that people's lives were destroyed Mr Speaker and here lies an opportunity to remedy the situation by helping ex-miners to recover.

The remaining assets should be expeditiously disposed for productive economic or business purposes to Batswana. If more ore is discovered after exploration, which the Minister spoke to, beneficiation should become a priority. Nickel, copper and other commodities should be refined in Botswana, in Phikwe to create more jobs. We hope that reports, for instance, today's Botswana Gazette Newspaper, that PNR may not have the financial muscle to reopen the mine are untrue and we hope that the company raises enough capital to restart full scale production.

Mr Speaker, Government has not responded to our calls for fair entitlement guarantee scheme policy and law to enable payment of workers in the event of insolvency, bankruptcy, liquidations and other related collapses of businesses. We have also called for a business rescue law, Honourable Minister Mmusi Kgafela. At the end of the liquidation process, there is a need for a Public Judicial Commission of enquiry into the collapse of BCL on its causes, effects and what can be done to prevent such catastrophes occurring in the future. BCL liquidation process must also be audited by the supreme audit institution, Auditor General to ascertain prudent management of public money.

Mr Speaker, Government should at the reopening of the mine, relocate the Department of Mining and Geological Engineering of the College of Engineering and Technology at Botswana International University of Science and Technology (BIUST) from Palapye to Selebi Phikwe for purposes of establishing BIUST Phikwe Campus. That is the resolution of Parliament and we wish that this Government can act on this resolution. We need an update on the review of SPEDU mandate. The Vice President (VP) spoke highly of SPEDU, he should attend Kgotla meetings that we address occasionally when Parliament is on recess and hear the views of Phikwe people regarding SPEDU. I do not blame anyone who is working for SPEDU, I blame this Government for setting a narrow mandate for SPEDU and for not funding it adequately, that is why today His Honour the VP cannot tell you the number of jobs that SPEDU has created, because the numbers are embarrassing when you compare them to the amount of money that is being injected.

We have asked for bold steps such as relocation of a big department, for example, Department of Mines to Selebi Phikwe to breathe life into the economy. We have suggested the decongestion of Sir Seretse Khama Barracks (SSKB) and relocation of Military Combats Services Support Units to the Eastern Military Garrison in Phikwe, primarily because the town is closer to the northern sector with a hub of anti-poaching operations. As such, logistical support will be nearer to end users.

The Artillery brigade should have been left in Phikwe and not relocated. It is not enough; we have indicated when we responded to the State of the Nation Address that it is not enough to ban importation of school uniforms as we have long advised. Uniforms are seasonal Mr Speaker and because they are seasonal, they cannot make much differences to the textile

industries that are operating in Selebi Phikwe for instance. What is needed in addition to banning the importation of school uniforms without a permit is to restrict importation of corporate uniforms used by big corporations, chain stores, banks, security companies, parastatals as well as some Government departments. It is also important to restrict the importation of protective clothing used in mining and construction. We have the capacity to manufacture these in Selebi Phikwe. We call for the increase of Selebi Phikwe Town Council budget, particularly the maintenance budget to enable us to maintain internal roads, schools, illuminate the town and general infrastructure Mr Speaker.

POLICY ALTERNATIVES

Now the policy alternatives because we are usually accused of criticising without providing alternatives. The Leader of the Opposition (LOO) has articulated cogently that priority of our priorities is jobs, jobs and jobs and that is my main focus.

Mr Speaker, what does not get measured does not get done. If we do not have measurable deliverables, it cannot do the job. Botswana's budget and the National Development Plans (NDPs), under Minister Serame and her predecessors, never set out job creation targets or report historical job creation or job shedding in the wider economy. Unemployment is officially at about 25 per cent and much higher for the youth, but you do not have job creation targets! Why this Government has rejected economic development best practice of setting job creation targets baffles the mind Mr Speaker. In the developed economies, there are robust job creation measurement mechanisms. For instance, the quarterly job data in the United States (US). The Umbrella for Democratic Change (UDC) alternative is that Government should start setting job creation targets that can have a meaningful impact on the unemployment problem and use Government budget as a tool for producing decent jobs. In addition to jobs created purely by the private sector. This is for reasons that Government spending constitutes a large part of GDP in Botswana. Government must on a quarterly basis produce data about temporary and permanent jobs created as a result of Government spending. We need targets, not only on job creation but also on cutting poverty numbers and on narrowing the wealth and income disparity that is so embarrassing. We all the time make it among the top most unequal societies. We need to have targets on how much of our Development Budget will directly go to citizen owned companies. We need measurements and reporting mechanisms on these targets.

Public Private Partnerships

On the Public Private Partnerships (PPPs), we have been told that some roads will be constructed through PPPs, but no details were provided and we are tempted to think that we are probably being misled.

Mr Speaker, The Ministry of Finance and Economic Development needs to develop a system to review the previous year's budget and determine the return on investment, especially on the Development Budget. It cannot be that money is just disbursed, but Batswana never get to find out if they got a fair value. As an alternative, we ask Government to consider a codified PPP policy and law instead of just paying lip service to the issue. I know they may refer me to the Privatization Policy, but I do not think it is adequate in addressing the PPP aspect especially how they seek to present to Parliament.

Umbrella for Democratic Change (UDC) suggests, as an alternative, that we need to develop an ambitious and clear infrastructure development plan, similar to Chinese belt and road programme, then invite private sector to assist in the execution. The PPP policy and Act which we recommend will then guide on how we engage with the private sector including incentives offered etcetera.

Tax and Revenue Collection

The UDC rejects Minister Serame's recent answer in which she sought to self-praise her tax collection efforts, by deliberately including customs revenues in calculating Tax-to-Gross Domestic Product (GDP) ratio. Customs revenue are not part of Botswana's GDP, which is goods and services produced in the country. Customs duties are based on imports into the country and imports are subtracted from GDP, because they are not produced in Botswana. Therefore, a clear indication of the inefficiency and ineffectiveness of Botswana Unified Revenue Service (BURS) tax collection is in the 12.6 per cent Tax-to-GDP ratio by Revenue Statistics in Africa. That is a figure we should confront and set targets against. The figures you have given us Honourable Minister, which includes customs are delusional in our view. Accordingly we ask you to set a 25 per cent target within five years, and 30 per cent target in 10 years excluding customs and excise.

Honourable Minister, we recommend that you reduce some sin taxes and introduce transaction taxes for high financial and or bank transactions. We ask you that you abolish pink tax, because we do not think that

this important commodities for women should taxed. Consider employment tax incentives for companies that hire young people and pay a living wage. We ask that you consider wealth tax to narrow inequalities and waited tax on luxury goods.

Mr Speaker, still on tax collection I think the Minister should shed light on how companies that owe large sums in taxes (millions and tens of millions), are able to obtain tax clearance certificates without making any payments or paying very little. How does that happen, because it does happen? Foreign nationals are reportedly also able to get work and residence permits renewed without being registered for taxes, how does this happen? Paying the correct corporate and personal tax should be one of the conditions for renewal. The solution is simple, link immigration and BURS. When an applicant applies for work and residence permit, the employee's or investor's salary should be reported to BURS, that is how it is done in other countries. Capacitate Companies and Intellectual Property Authority (CIPA), BURS and Financial Intelligence Agency (FIA) to clamp down on transfer pricing, tax avoidance, profit shifting by multi nationals operating in the country. This should help in reducing the taxes that have been passed on to the citizens through increasing Value Added Tax (VAT) as well as all manner of hidden taxes.

Review the abolishment of foreign exchange controls, we were told that the policy was aimed at attracting Foreign Direct Investment (FDI), but look at the paltry FDI we attract (at 2 per cent of GDP annually on average) and the practice has also facilitated profit repatriation and illicit financial flows.

Agriculture

The sad reality is that Agriculture is still getting a very low allocation of the Development Budget despite its minuscule contribution to GDP. There is no way we can transform agriculture if Government does not invest more in the sector, by way of infrastructure especially irrigation. National Development Plan (NDP) 11 Mid-Term Review of July 2020 at Chapter 4 under Economy and Employment, it points mainly to the support of commercialization of agricultural and specifically mentions Phikwe and Shashe areas for cluster irrigation farming. UDC suggests that the clusters must have sufficient water supply from the dams, and this calls for water distribution infrastructure to the clusters. The Phikwe Citrus Project which the Vice President also mentioned is a good example. Let us replicate the model,

but with citizen clusters having significant shareholding in the projects. We do not want to eat the crumbs from foreigners and naturalised citizens, we want a seat at the top table.

We suggest setting of clear targets for agriculture's increased contribution to GDP, say 5 per cent by 2025, 10 per cent by 2030, 25 per cent 2036. Once these targets are set, we can then work on the modalities and implementation supported by appropriate budgets. The ban on importation of vegetables should have been done gradually, in my humble opinion, to avert the current crisis.

We are overdue as a country on exploiting the economic benefits of industrial hemp and medical marijuana. The hemp industry, and the Leader of the Opposition articulated this point cogently on a number of times that, Botswana Democratic Party (BDP) remains the only Government we know which believes that hemp *ke motokwane*. The do not care about the amount of as substance that can make you high in hemp, that it is so minuscule, that it is so insignificant. But the BDP, because its leadership want Botswana to believe that hemp *ke motokwane*, they refuse all manner of research, all facts about industrial hemp. To reiterate what the Leader of the Opposition has said, the hemp industry was estimated to be about US\$ 3.6 billion in 2020 by Brightfield Researchers, and they expected the industry to expand at a compound annual growth rate of 16.2 per cent from 2021 to 2028. We are also told that farmers could earn US\$ 40 000 per acres of industrial hemp. US\$ 40 000 *re bua ka bo* P450 000 to P500 000, that the BDP is denying Batswana because they are steadfast on that hemp *ke motokwane*.

Housing and Transport

This budget does not offer much by way of addressing affordable housing and integrated transport solutions especially in urban areas. Owning a home is considered a basic human right by the UDC. We suggest that the Self Help Housing Agency (SHAA) program in its current form, must be scrapped and replaced with an inclusive and robust social housing programme that will provide decent housing at affordable rental and purchase rates. We are of the opinion that there has to be a budget allocation to support homeowners struggling with foreclosure, as a result of COVID-19 hardship. There has to be a protection program for homeowners by providing mortgage assistance relief services and legal support.

On the transport side, we should be developing a mass transit systems in urban areas like Gaborone, Francistown and Phikwe.

Employment, Sport, Arts and Youth Empowerment

The UDC suggests that building a world class sports academy is urgent. In the meantime, we suggest as an alternative, that Government should start a program to select best 100 young sportspersons in various sporting codes across the country, and sponsor them in best sports academies; deliberately sponsor these, place them in world academies. In five years we would have professionals in sport, and these young will get employment as sports professionals wherever they go.

Let us extend this to performing arts. UDC suggest that Government should sponsor any student who gets summa cum laude or first class or second class upper division with good Grade Point Average (GPA) say more than four for Masters Degree and PhD, to increase local and international employability of our young people, including self-employability.

HONOURABLE MEMBER: Clarification.

MR KEORAPETSE: I do not have time, I am left with very few minutes. The Ministry of Tertiary Education, Research, Science and Technology should collaborate with the Ministry Foreign Affairs and International Cooperation to coordinate international scholarship for placement of young Batswana in international universities.

Government should negotiate with bilateral and multilateral partners for more graduate scholarships. We need to set up an employment bureau to actively search for jobs for Batswana internationally. We need to take advantage of the low representation of Botswana in international and regional organisations and actively search for jobs for Batswana through coordination by Government, especially the Ministry of Foreign Affairs.

In the latest reports, Botswana Household debt reached US\$ 4 billion in October 2021. The country's non-performing loans ratio stood at 3.9 per cent in September 2021. Mr Speaker, predatory lending is becoming another pandemic. Proliferation of micro lending businesses, pawn shops and the like should worry us. All kinds of products exist in the market to lure Batswana into more and more debt. Batswana continue to lose properties including houses valued at millions sold for

a song and the main culprits are some lawyers, some deputy sheriffs, and some real estate agents. We need to review policies and laws to safeguard our people's interests.

Aviation Industry

This is another point well-articulated by the Leader of the Opposition (LOO) cogently. Aviation industry is one area from which we can create jobs and diversify the economy. There is need to formulate a policy that allows for small domestic carriers to enter the market. Civil Aviation Authority Botswana (CAAB) needs to draft measures such a reduced landing, parking and navigation fees for small carriers. Carriers that seek to utilise underutilised airports like Selebi Phikwe, Ghanzi, Francistown, must be incentivised by offering them reduced passenger taxes, navigation fees, landing fees etcetera, as it is the case with budget airlines like EasyJet, RyanAir Mango, Kulula, FlySafair etcetera. Government through CAAB should genuinely liberalise the market, they must walk the talk on this matter. CAAB should stop hindering new private carriers to operate on certain routes as a way to protect the Air Botswana monopoly. CAAB should also build an airstrip or airport in Letlhakane-Orapa to allow new carries to operate Gaborone to Letlhakane-Orapa area which has some of the best paid employees in the country working in the mines, with a lot of disposal income. It cannot be that it remains only accessible through private air strips.

On corruption; it is important to make the Directorate on Corruption and Economic Crime (DCEC) independent, to formulate an Anti-Corruption Policy, to make sure that Ministers and the President are restricted from making business with Government. It is very shameful and embarrassing that the whole Government can allocate a state farm to a sitting President. Mr Speaker, if that is not corruption, then I do not know what corruption is. I think we need to deal with these matters and nip corruption in the bud. That is why we have fallen five point in terms of corruption perception index by transparency international. We are beaten by other countries including Seychelles. I wish to thank Honourable Members for their attention. Thank you.

MR SPEAKER: Thank you Honourable Member. Honourable Members, it is time now to call upon the Minister of Finance and Economic Development to reply to the debates.

Sengwe se ke neng ke se bua fale fa ke ne ke simolola, ke ne ka bua ka diphetogo tse ke neng ke re sengwe se re tlaa se dirang, ke go baakanya molao. Mengwe ya melao e re tshwanetseng re e baakanye, ke buile gore ke wa Public Finance Management Act, ka gore molao o ga o fe Permanent Secretary (PS) wa me dithata le bofeso jo bo siameng gore e re fa motho a sa dira se se siameng, a mo tseela dikgato. Ke mongwe molao o re yang go o tlhabolola go bona gore PS o ka mo neela dithata tse di maleba, mme e bile a kgona go gata ka bofeso gore a tseela motho dikgato fa a sa dira se se maleba. Wa *Public Procurement* o re neng re o fetisa le one, o na le dikgato mo teng tse di ka tsewang. Ke dumela gore jaaka re tlaabo re o diragatsa mo ngwageng o o tlang wa madi, go tlaa nna botoka *Mr Speaker*.

Ke ne ke fetela kwa go ya *scarce skills allowance*. Go ne go na le go tlhaloganya mo go farologaneng ga gore ke ne ke reng. *Mr Speaker*, se ke neng ke se tlhalosa ke gore *scarce skills allowance* e tsemo mo tirisong ka April 2008, e ne e tsena nako ya teng, gotwe is a temporary measure targeted for certain cadres mo ga Goromente, tse go neng go na le *serious shortages*. Go ne go na le ditlhaelo tse di tseneletseng tsa bodiredi mo dingwe professions *Mr Speaker*, ke gone ka 2008 ga bo go tsenngwa *scarce skill allowance*. Ka nako ya teng gape, ga bo go buiwa gore, re tsenya *allowance* e, re tlaa tsamayang re ntse re sekaseka fa nako e tsamaya, go bona gore tse e setseng e le gore nnyaa, jaanong ba oketsegile, letlhoko ga le kalo ke dife, mme re di ntshe mo go ba ba neelwang *scarce skill allowance*. Mme e bile re tlaa tsamaya re lebelela le se se diragalang mafatshe ka go farologana. Se ke neng ke se bua ke gore fa e sale ka 2008, dilo di fetogile di le dintsi. Bangwe ba go neng go na le tlhaelo e e tseneletseng, re bona ba setse ba le teng ba professions tseo *Mr Speaker*. Go botlhokwa gore jaanong *scarce skill* jaaka e ntse, ga e ka ke ya tlholo e kgona go re isa kwa pele, re tlhoka gore re ye go e sekaseka mo go tseneletseng, re bo re tle ka sengwe se se maleba, se se ka lebelelang gore nnyaa, mme fa e le gore dingaka tsone ke boammaurdi di santse di tlhaela, re ka dira jang gore dingaka tsone fa di tlhaela, re tswelele re ba atswa ka tsela e e leng gore ga ba ka ke ba tlogela Goromente ka bokete, ke e fa e le sekai.

Ke batla go bolelela Ntlo e sengwe gape *Mr Speaker*, se se ka go bontshang gore golo gongwe re ne ra nna bonya. Fa ke bua le wena jaana, ka April 2021, ngwaga ono wa

madi, 15,684 officers out of about 130,000 employees ba ga Goromente, ba amogela scarce skill. Mr Speaker, this translates to 12.1 per cent. A mme batlotlegi, le fa re ka bo re re bua dikgang sentle, a re ka bo re re 12.1 per cent e ka bo e amogela scarce skill? Go tshwanetse go re bontshe gore golo gongwe, sengwe re ne ra se diegela Mr Speaker. Ke batla go fa sekai, sengwe se sengwe se se diragalang ke gore o tlao fitlhela e le gore mo scarce skill, ba bangwe ba tsaya bo 30 per cent, ba bangwe ba tsaya bo 40 per cent of their salary. Gape se sengwe se se diragalang ke gore motho yo o neng a na le three years a le kwa ntle, a tlhoka tiro, fela jaaka re mo hira, re mo neela scarce skill, mme e le gore kwa ntle kwa, ba ba tshwanang le ene ka experience le ka sengwe le sengwe ga ba na ditiro. Jaanong scarcity gone foo, se fa kae? Se ke neng ke se bua ke gore re lebelele dilo tse tsotlhe.

Gape ke tswelela, o tlao fitlhela e le gore ka kgwedi batho ba madi a scarce skill allowance ke P86.6 million ka kgwedi fela, ka ngwaga is P1.04 billion e le scarce skills allowance fela. O ka bona Mr Speaker, this is 3.6 per cent of total personal emoluments ka ngwaga, o ka bona gore tota mme le fa re ka bo re re go na le kwa go nang le letlhoko teng, tota mme re tlhoka gore re ye go sekaseka gore a mme scarce skill jaaka se ntse, a ga se a tshwanela go sekasekwa, re bo re boela kwa morago dilo dingwe, re bo re lebelela se e leng sone re ka se tsenya mo tirisong, se se tlaabong se replace the current scarce skill allowance scheme as it is. Ga ke gane gore go na le letlhoko, letlhoko le teng, mme se ke se buang ke gore, ka fa re dirang ka teng gompieno, ga go sustainable, go tlhoka gore re ye go sekaseka, re bo re fokotse le tsone dipalo tsa ba re ba duelang, re bo re bone gore a bone ba bangwe ba re ba duelang, a go santse go le maleba, kana re ka lebelela le tse dingwe ditsela tsa gore re ka ba retain jang in the public service Mr Speaker.

MR KEORAPETSE: Clarification Mr Speaker. Ke kopa tlhaloso ya gore, sa ntlha ke gore a o a lemoga gore kana issue ya scarce skill is a negotiable item in terms of the collective labour agreements you have signed with trade unions? That is the first point.

The second point ke gore maikaelelo ke eng ka gore it is already existing benefit, and fa o fetola policy kana molao, kana jaanong fa e le gore go na le adverse effect on the current beneficiaries, go ka nna le mathata. Jaanong maikaelelo a gago ke to collapse the scarce skill into salaries tsa ba ba setseng ba benefit kana ke eng sentlesentle because kgang ya gago e tsentse

tsebetsebe ya gore kana people have commitments tse ba di dirileng, ba lebeletse gore ba amogela scarce skill, so maikaelelo a ga Goromente ke eng ka tsebetsebe e e tseneng batho?

MS SERAME: Mr Speaker, ga ke na go ya kwa diteng tsa gore the review e ya go felela e tla ka sengwe sa mofuta mang, mme ga ke tlhomamise e, mme ke akanya gore fa ke gakologelwa sentle, scarce skill ga se sengwe sa dilo tse di bargained, Honourable Keorapetse, mme legale re ka e confirm eo.

Sa bobedi, the reason ke re ga ke na go tsena kwa diteng tsa kgang e, ke gore ke nngwe ya dikgang tse go nang le batsayakarolo, ba le mmalwa ba Goromente a tshwanetseng a buisane le bone, dipuisano tseo di tshwanetse di tswelele, in the end, ba bo ba dumalana gore se se tlaabong se replace the current scarce skill se tlaabo se ntse jang.

Se tlaabo se lebelela jang gore ka gore ke reality ya gore bangwe ba ne ba se amogela, re ya go dira jang gore le bone e re fa re se fetola ba se ka ba kokonelwa thata kana ra ba baya ka fa mosing. Therefore, ga ke ka ke ka kgona go bua diteng tsotlhe tsa gore se se tlaabong se le teng se ntse jang.

Ke fetela kwa pele Mr Speaker, go ne go na le dikgang tse dingwe tsa infrastructure development. Mo go e Mr Speaker, ke go lemoga gore batlotlegi ba ne ba bua ba le bantsi ba fa metlhale e le mentsi ya gore go ka dirwa jang gore re ka nna le ditlhabololo tsa infrastructure, a ke ditsela le tse dingwe, ka metlhale e mengwe, mengwe e le e e ka se kang ya turela Goromente ka seemo se se kalo.

Bangwe batlotlegi ba ne ba bua thata ka local production and food security, bangwe mo teng ba ne ba bua le ka the current restriction ya merogo e e tswang kwa ntle. Ke batla go feta fela ka yone Mr Speaker ke re, Honourable Dithapelo Keorapetse yo o sa itseng se nkileng ka tsamaya ka se dira, ke ka go bolelela gore go na le nako nngwe ke ele, e re neng ra restrict metsi, bottled water gore a tsene mo Botswana. Fela jaaka gompieno bangwe ba ne ba kuela kwa godimo, mme nako ya teng ke gakologelwa ke raya mongwe ke re, eo yone, fa e le gore batho ga ba itse gore ba ka nwa metsi a a seng bottled, ba tlao bidisa metsi ba a nwa. Nako ya teng motho wa teng o ne a tshega, a tsaya gore ke a tshameka. Ka mo raya ka re, ke gore ke go supegetsa gore metsi ga re ye go a bulela. Re ya go simolola go itirela metsi a rona re le Botswana, mme re tlao goroga

kwa seemong se le rona re tlaabong re kgona go itirela metsi, ga nna jalo. *Mr Speaker, gompieno ke ka go tlhalosetsa gore the investment e e neng e le on that sector has more than doubled, like three years ago.* Ga ke itse gore gompieno e tsamaya fa kae. *The number of jobs in that sector, has more than doubled in a year.* Ke dumela gore ya merogo le yone go tlaa siama. Go re rotloetse rotlhe gore re tsene mo mohameng o, re dire se se tshwanetseng gore re itirele dijo re le lefatshe la Botswana. *Mr Speaker, Honourable Tshere ke bona a tshega, ke bua boammaaruri Honourable Tshere.* A rotlhe re ye go itemela betsho.

O ne a bua ka ya *greylisting*.

MR SALESHANDO: *Clarification.* Ka bokhutshwane fela mo go e ya *vegetables*, mo letsatsing la gompieno ba Local Enterprise Authority (LEA) ba ne ba supa gore *local production* e kwa tlase ga 50 per cent of what we consume. So locking out, the short term, o solo fela gore this shortage of more than 50 per cent, how should it be met, and se se setseng se diragala in prices a le se etse tlhoko gore a mme ditlhwatlhwga ga di pagame ka tsela e ba ditiro di kwa tlase ba tsile go felela ba palelwa ke go ithekela merogo?

MS SERAME: Ke a leboga *Mr Speaker*. Se ke ka se go tlhomamisang ke gore, jaaka o bona ba LEA ba ne ba kgona go supa gore gompieno re tsamaya fa kae in terms of our own production, ke seemo se ba Ministry of Agriculture and Food Security ba tsentse leitlho le ba bangwe ba ba maleba, ba tlaa dira se se tshwanetseng ka nako e e tshwanetseng *Mr Speaker. I think the point I was trying to make Leader of the Opposition (LOO) ke gore, e re le fa re tlhaloganya gore go na le tlhaelo, go tlaa re mo gongwe re name re metsa mathe, re babalele ba ba ka amegang gore re tle re goroge kwa seemong se re ka kgonang go itemela merogo ya rona.* Ke dumela gore ba Ministry of Agriculture and Food Security kwa Committee of Supply, Tona o tlaa feta ka yone.

Honourable Tshere o ne a buile ka greylisting. O ne a rile ga a itse gore ba European Union (EU) fa e le gore ke ne ke mo utlule sentle, ba EU go ne ga tla jang gore ba re *blacklist*. Ke tlhalose fela ka bokhutshwane gore, *I think e ya greylisting re buile ka bolelele mo teng ga Ntlo e, ga ke na go tsena thata mo details tsa teng.* Ke mo tlhalosetsa jaaka re ne ra tlhalosa in the past gore, ba EU e ne e se gore go na le sengwe se se additional, the greylisting was triggered by Financial Action Task Force (FATF). Ke ne ka tlhalosa gore le bone ba simolotse process ya gore re tswe mo *blacklisting* ya

Ke bo ke tlhalose gore kwa go bone ke *process*, ba setse ba e simolotse, ke dumela gore mo nakong e e sa fediseng pelo, ba tlaa bo ba re fa confirmation ya gore *process* e wetse, Botswana o ntshitswe mo *blacklisting*. Ke tshwanetse ke le lebogege le eo, ka gore le fetisitse melao e le mentsi.

Mr Speaker, go na le other areas tse batlotlegi ba neng ba bua ka tsone, ke tlaa feta ka tsone ka boripana. Nngwe ya tsone e ne e le ya rationalisation of State Owned Enterprises (SOE). Batlotlegi ba ne ba na le tse ba neng ba di bua tse di neng di farologane, mme I think bontsi ja bone ba ne ba re ba kopa gore a ke e re jaaka ke re re feditse, ba ke ba bone maduo. Ke le tlhomamisetsa gore ke dumela gore mo nakong e e sa fediseng pelo, go tlaa buiwa gore mme tota jaaka ke ne ke supa gore komiti e re neng re le mo go yone ya khuduthamaga e feditse tiro, Goromento o a di sekaseka. Go tlaa tshwanelwa ke gore re bolelele setshaba gore mo go se Goromento a se dumetseng ke eng in terms of the measures, in terms of le tse re bonang gore tota di ka tswalwa.

I thank you *Mr Speaker*.

Question put and agreed to.

Committee - Later Date.

MR SPEAKER: Honourable Members, as you are aware, Standing Order 87.1 requires that there should be a clear day before you commence the Committee of Supply. Tomorrow is Thursday and that should be a clear day. If the Ministers and their colleagues are ready, we can start next Monday with the Committee of Supply. I only wish to remind Honourable Ministers that in terms of our Standing Orders, the presentations, the speeches by the Ministers who will be coming to the Committee of Supply, should be given before the day on which the department or ministry comes to the Committee. Honourable Members will have a look and read, and know in time what is covered and what they may wish to dwell on. That is in terms of the Standing Orders.

You had agreed Honourable Members, following submissions by the Business Advisory Committee that on Tuesdays and Thursdays, we will meet in the mornings and in the afternoon. Since tomorrow will therefore be a clear day, the question arising is as to whether we should meet in the morning or just come at 2:00 p.m.?

HONOURABLE MEMBER: We could do questions Mr Speaker.

HONOURABLE MEMBER: And Motions.

HONOURABLE MEMBER: *Mr Speaker*, I think it makes sense that we only convene at 2:00 p.m. I think we have a bit of backlog in terms of noticed questions that are still to be answered. Maybe we could extend more time for questions tomorrow and agree that we will adjourn when we have finished the questions that will be on the Order Paper. I would not support that we also proceed with Motions because then that defeats the logic of having a clear day. Thank you.

HONOURABLE MEMBER: O tshaba tiro ngwana wa ga nkonne.

MR SPEAKER: Clear day means that we should have more time to try and study the department which will be coming on Monday and if we work the whole day of Thursday, which is a clear day, then it is a nominal clear day.

HONOURABLE MEMBER: Le a utlwa Rra Nkamo?

HONOURABLE MEMBER: Go a berekwa mo.

LEADER OF THE HOUSE (MR TSOGWANE): Ke ne ke kopa gore ke go kgwe dikgaba ka gore o kare o ne o batla gore re thusane kgang e. Ke tsaya gore it

must be really a clear. Ke tsaya gore go tsena phakela le afternoon ga Labone le Labobedi is meant to push the budget days but it will not help us even if we were to come in the morning ka gore ga e impact positively go re neela nako e ntsi ya go dira budget. I think e go tshwanetse gore go nne fela jalo re tsene ka 14:00. I thank you Mr Speaker.

ASSISTANT MINISTER OF HEALTH AND WELLNESS (MR LELATISITSWE): *Thank you so much. Ke dumalana le se nneng Vice President (VP) a se bua, go siame morena.*

MR MOSWAANE: *Procedure. Thank you Mr Speaker. Ke ne ke re o kopile Matona gore ba re fe documents the day before mme tota ka tsamaiso ba di tlisa the night e re tsogang re deal le tsone kamoso. Tota ba tshwanetse go di tlisa some days before. Fa ba di tlisa a day before, phirimane eo, it is not okay for us. Ke ne ke kopa gore le gatelele thata kgang e ka gore ba di tlisa late, fa re tshwanetse go robala gatwe re lale re lebile bosigo re bala bosigo jotlhe.*

E nngwe Mr Speaker, Tona a nne a araba fa re botsa ka dikgang tsa corruption ka gore di botlhokwa thata, wa itse. *Thank you.*

MR SPEAKER: Honourable Moswaane, *ba go reeditse o gateletse, ba a utlwa ke bagolo, kopo ke eo bagolo.*

So, we will meet tomorrow Honourable Members at 2:00 p.m. and deal with the questions which will be on the Order Paper. Now Honourable Members, that concludes the matters of today's Order Paper and may I ask the Leader of the House, Your Honour the Vice President to move a Motion of adjournment?

MOTION

ADJOURNMENT

LEADER OF THE HOUSE (MR TSOGWANE): Thank you Mr Speaker. As that concludes today's business on the Order Paper, I do move that this House may now adjourn.

Question put and **agreed to.**

The Assembly accordingly adjourned at 4:53 p.m. until Thursday 24th February, 2022 at 2:00 p.m.
