MR SPEAKER: Order Honourable Members. *Nako ya dipotso e fedile.* Honourable Members, I understand that the Minister of Sports and Arts wishes to make a statement.

STATEMENT**SENIOR MEN NATIONAL FOOTBALL
TEAM QUALIFICATION FOR AFCON
2025 FINALS**

MINISTER OF SPORTS AND ARTS (MR KELEBENG): Mr Speaker, thank you very much for granting me this opportunity to make a statement on the achievement of the Senior Men National Team, Zebras who have qualified for the 2025 Africa Cup of Nations (AFCON) finals on 19th November 2024.

While we have never doubted our team's talent, commitment, and perseverance, and have known for a long time that there was something special about our team, we were also aware that our opponents on the day- Egypt were formidable. Considering that September 2024, Egypt had beaten us 4-0 in Francistown. Therefore, it was always going to be difficult to win the one point that we needed from the match against Egypt to qualify. The Zebras however did what they needed to do, and secured the one point against all odds.

That is why as a nation, we are overjoyed by this great feat, which brought glory to Botswana, shining the spotlight on Botswana and indeed presenting our beloved country as a force to be reckoned with. This performance has inspired not only upcoming footballers, but many young people in our nation and indeed the continent to dream big and work hard to turn dreams into reality.

In the past few years, there has been an indication that our performance in football is improving. Our clubs have performed relatively well in Continental competitions, our Senior Women National Team, The Mares, have qualified for the Women Africa Cup of Nations twice in succession. Now the Zebras have qualified for AFCON for the second time in history.

Mr Speaker, Pillar 1 of Vision 2036 (Sustainable Economic Development) identifies sport as one of the areas of focus for achieving prosperity for all through the establishment of a self-sustaining sport industry that produces globally competitive sport persons. The Botswana Excellence Strategy and the National Transformation Strategy, among others, place a strong emphasis on the development of value chains across all economic sectors. This performance by the Zebras, other teams, and athletes should be a catalyst to the establishment of a self-sustaining sport industry and

creation of sport related value chains. Other sectors of the economy should take advantage of the opportunity created by our team and explore possible ways to sell the country. For example, we have possible brand ambassadors that can sell our diamonds, our tourism, and all the other services that Botswana offers.

As we look to the future, our performance over the past few years serves as a beacon of hope and inspiration for the next generation of athletes, artists and leaders. Our athletes and performers including beauty queens have set a new standard of excellence, and we are confident that their success will inspire many others to follow in their footsteps.

Mr Speaker, it is my hope that this house will be inspired to invest more in sport, as it has great potential for community development, nation building, tourism and value chain development.

We have experienced how success in sport and the arts have united our people in happiness and pride, at the same time creating an expectation from Batswana to maintain or even surpass the current performance.

I wish to plead with this house to consider increasing Government investment in sport and the arts, with an intention to quickly diversify our economy. The Sport and Arts Sector can be self-sustaining if adequately resourced, create jobs and products that can be consumed even by international markets. Talent identification and nurturing should be conducted in a systematic manner that allows for graduation of athletes, performers, artists and associated officials from amateur to professional. It is therefore imperative that Government invests in systems that support sport development from early age as is international best practice. The sport and creative sector can brand and profile Botswana much quicker and more effectively than other fund consuming and traditional ways of promoting Botswana as an attractive destination for investment and tourism.

Appropriate purpose-built infrastructure that meet international standards is necessary as a catalyst for the development of the sport and creative sector. This infrastructure will support our envisaged district, national, regional and international youth, arts, sport, cultural and music competitions that will enable our youth to acquire technical and entrepreneurial skills and knowledge for sustenance and economic growth.

Mr Speaker, the sports persons and arts practitioners should be incentivised.

HONOURABLE MEMBERS: ... (Murmurs)...

MR KELEBENG: *Ke raya gore e ntse jalo* Honourable Speaker and rewarded to attract the necessary talent and motivate those who perform well to aim even higher. On that note, and based on the current Incentive and Rewards Package for National Teams and Athletes, each Zebra's player will receive P10,000.00 for qualifying, and additional P4,000.00 as appearance fee and reward for the draw against Egypt, totaling P14000.00.

The incentive and rewards package approved by Cabinet in 2022 will be reviewed to address gaps that have been identified, make it more comprehensive by including the arts while paying attention to issues of affordability. I therefore plead with this House to support this initiative and assist in galvanising the private sector and Batswana in general to support the sport and creative sector financially, technically and otherwise.

Mr Speaker, I wish to bring to the attention of the House that there are critical competitions that are scheduled for 2025. There is the Dakar Rally scheduled for January, the African Union Sports Council Region 5 Youth Games in June, Women Africa Cup of Nations (WAFCON) in July, World Athletics Senior Championships in September and AFCON in December, hence the need for our teams to be supported to prepare well for the competitions.

In closing, let us give the Zebras a standing ovation and commend them for a job well done.

HONOURABLE MEMBERS: ... (Applause!)

MR KELEBENG: Thank you Mr Speaker. As the Minister of Sports, I pledge that my ministry with the support of Government and this House we will do whatever it takes to build a robust sport and creative sector in Botswana to diversify the economy, create jobs and export talent. We are looking forward to a more eventful, exciting and productive 2025. Pula Batswana! Pula! Thank you Mr Speaker.

HONOURABLE MEMBERS: ...(Applause!)...

MR SPEAKER: Order! Order! Honourable Members. Honourable Members, indeed, the statement is as submitted to me by Leader of the Opposition Honourable Saleshando and we had a meeting this morning to discuss *gore* what he has just proposed Honourable Members is not provided for in our rules of order and procedure. So do not be surprised Honourable Members when I do not recognise anyone as shadow Minister...

HONOURABLE MEMBERS: ...(Laughter!)...

MR SPEAKER: However, Honourable Members, I am aware that this is suggested as a reform and it has to be okayed by the House, starting with the Committee on Standing Order and Reforms. So *ke kgang e e leng gore le e akanye, le e sekaseke thata* Honourable Members *bogolo jang lona ba le tlaabong le le komiti ya* Standing Orders and Reforms. *Maikaelelo a se ba* official opposition *ba se buang se tsamaelana le* Standing Order 10 on party Whips. (a) suggest names of their party Members for selection to Parliamentary committees.

(b) submit to the Speaker, names of Members to speak on a designated subject, in the interest of quality and/ or specialised debate.”

Honourable Members, you would know that from all major policy debates, Whips, you are free to submit list to the Speaker. So, my expectation is that in light of the announcement by the Leader of the Opposition they will for each subject prioritise on their list persons or Members that they have designated to be responsible for various subjects. *Ke gone ka fa re yang go tsamaya ka teng* Honourable Members. Akere ke utlwetse?

MR SPEAKER: Order! Order! Honourable Members. Honourable Members, the debate on this Motion is resuming. When the Housed adjourned last week

Thursday 21st November 2024, Honourable David Tshere was on the floor and he was left with 28 minutes, 59 seconds. Honourable Tshere.

MINISTER OF COMMUNICATIONS AND INNOVATION (MR TSHERE): *Thank you very much Mr Speaker.* Ke ne ke simolola fela tota maloba *Mr Speaker*, jaanong mma pele gape ke go leboge. Kana maloba Leader of the Opposition o ne a bua gore o ne o rata go raya *Honourable Speaker* yo o fetileng o re, “*the right Honourable Speaker of the National Assembly.*” I guess le wena *you should be addressed as such, you are the right Honourable Speaker of this House and rightly so, you are the right Mr Speaker. HONOURABLE MEMBER: ...(Inaudible)...

MR TSHERE: Nnyaa, ke ne ke lemoga ba kganetso, ke ka lemoga Rre Merafhe ke ne ke lebeletse thata ba kganetso ba ba re thusitseng gore re bo re tsamaya gone fa. *Mr Speaker, However,* ke gakologelwa mafoko a *the Attorney General of the United States when Barack Obama took over as the President.*

He became the first African American *kana* black Attorney General the first one in America. He said this words then, *a bua ka ba ba tlhokafetseng gore*, and I am trying to paraphrase it to suit my narrative. To those Comrade President Boko, will not be the President of this country and I will be not the Minister of Communication and Innovation, to those who have passed away because they did not see what we have experienced as a country. I commemorate the President for whatever happened and I think these gentleman I was talking to including my mom, will look down on me today wearing a smile, after the achievement that happened.

Mr Speaker; ke eme foo pele ke lebagane le dikgang tse di amang Mahalapye. Ke na le dikgang tsa *ministry* kwa tlase kwa, mme ke ne ke re ke simolole ka tsa Mahalapye *Mr Speaker*. Jaaka ke etle ke tlhalose go na le mo gotweng Mahalapye Development Plan 2032, e e dirilweng ke Rre Merafhe. Fa re lebelela 2032 *we are 8 or 7 years away from the realization or implementation for* Mahalapye Development Plan 2032. Fa ke bua le wena jaana, dilo tse di *listed* mo Mahalapye Development Plan 2032, ke ka go fa sekai fela di le pedi di le tharo ka tse di setseng di dirilwe kwa motseng wa Mahalapye, ke *Police* e ntsha e e nang le *division* le sepatela. Dilo tse di ne di le teng mo lenaneong, a bo re ema gone foo *Mr Speaker*, ga go ise go ke go diragale sepe *after that*. Mo go neng go diragetse *before that* e ne e le *Sewage Water System* e neng ya tsenngwa. *That is pretty much the development tse di saleng di eme kwa motseng wa Mahalapye. At that time it had over 20 years, and for the past over 20 years ga re ise re bone sepe go diragalatema e ya Mahalapye e sutka gope.* Jaanong ke sone se re neng re ntse re lela, mme ra fiwa Transitional National Development Plan (TNDP), *a little P120 Million* yo go neng gotwe re ye go leka go tlhabolola kgopho ya metsi a pula. Fa o akanya gore *the Mahalapye Storm Water Master Plan the estimated cost is around P3 Billion, so if you are given P120 Million you can see gore ga a na go thusa, mme go tulwe re leke. Project e nngwe ke ya Mahalapye Truck Stop le primary school e kwa Flowntown Phase 2.* Ditiro tse tsa TNDP, ke a bona gore re mo Pusong e ntsha, mme keletso ya batho ba Mahalapye ke gore bogolo tse di diragale. Ke tsile go kopa mo ntlong e gore ditiro tse di neng di sololeditswe batho ba Mahalapye *under the TNDP* ka re setse e bile re bone le batho ba teng, tsweetswe! di tswelele *Mr Speaker* di wele. Di fele di tle di ungwele batho ba Mahalapye.

Re solofera thata *Mr Speaker* gore mo Pusong e ntsha, go tlaa dirisiwa madi sentle go sena *corruption*, e bile thebe le pula mongwe le mongwe yo re tlaa mmonang o tla a dirisediwa go tokafatsa matshelo a batho. Ke tsaya gore o bona jaaka *companies* di ithaopa gore jaanong di ya go duela P4 000.00.

Mr Speaker jaaka ke atle ke bue mo Palamenteng mo, fa go sena *any explanation attached to anything, you leave it to your own imagination. I imagine* gore go raya gore batho ba ka gore ga re sa tlhola rona re tsaya madi mo go bone, jaanong madi go raya ba duela batho ka one. Rona ga re *interested* gore rona re tseye madi mo go ope, e bile ga re kope ope, ga re batle ope a re fa madi, jaanong ba duele batho. Ke yone *my imagination*, gore go raya gore ba ba ntseng ba tsaya madi mo go bone ga ba yo fa, madi ao a tla a ya kwa Batswaneng.

Mr Speaker, ke leboga thata gore e re fa rentse re tsweletse jaaka o ne o tlhalosa kgantele re ya kwa Lenaneong la Dithlabololo la bo Lesome le Bobedi ka *January*. Re tlaabo re tla gape re tla go gakolola ntlo e gore dilo tse di mo Mahalapye Development Plan 2032 ke dife tse di neng di tshwanetse go ka bo di diragaditswe, ka lebaka fa re goroga mo go 2032. Jaaka e ke ntseng ke e bua e e kwa setlhoeng ya gore batho ba Mahalapye ba re ba batla gore go nne le *the fully implementation of the Mahalapye Storm Water Master Plan*, mealo e phatlalatsang metsi a pula mo motseng wa Mahalapye. Ke one matshwenyego a kwa godimo, ba re e diragadiwe, re e kokonne ka bo *P120 Million*, mme tiro e ntsi e setse. Jaanong ke yone e ba santseng ba lela ka yone *Mr Speaker; including Vocational Training Center (VTC)*. Kana setsha sa VTC kwa motseng wa Mahalapye rra se sale se beilwe, le gone mo *plan* e. Sale se beilwe ka nako eo ya bo 2007/2008 se teng, *it is along the old A1 and it is in a very strategic position where two roads will intersect* gone mo motseng wa Mahalapye, *the Western Bypass and the A1, very prime area* gone koo. Re batla gore setsha se se tlhabololwe, go dirwe Education Vocational training Centre kwa motseng Mahalapye jaaka o itse gore re na le Brigade e e tsereng lebaka le lelele thata e sa tlhabologe. *If you go to Mahalapye today and throw a stone, you will probably hit somebody who have been to the Brigade and they are not working.* Ba leka go a ga mantlo, ke bone ba ba agang mantlo ba aga motse kwa Mahalapye. *We have people* ba e leng gore ba na le dikitso tseo mme ga dia tlhabololwa *to a National Craft Certificate (NCC) or Apprenticeship level*, ga re kgone go *elevator to that level*. Jaanong re akanya gore fa re ka tlisa Mahalapye Vocational Training Center, *apprentices* le ba bangwe ba tlaa kgona go bona dikitso tse di maleba *Mr Speaker*.

The development of Mahalapye internal road in general, le tsone ke bothata, ditsela tsa rona tse di sa bolong go dirwa. Ke kile ka botsa potso mo Palamenteng mo ka fiwa karabo, some of them are almost over 30 years old, di tshidile botshelo jwa tsone. Tse dingwe e sale e nna lerole le nna ke santse ke le mmotlana, di ntse ke lerole le gompieno. Ke tsone tse re lekang go ditimola ka go di tsenya pavements Mr Speaker. We need a real upgrade of internal roads in Mahalapye. Another senior secondary school in Mahalapye, setsha sa teng se teng kwa Mahalapye. Jaanong re tsile go kopa dilo tse gore di tsene, ka gore sekole kwa Madiba se a penologa fa re bua jaana, bana ba bantsi, mo re tlhokang senior secondary school e nngwe.

Stadium kwa motseng wa Mahalapye, ke gore o ka bona gore a nka bitsa motse o... dilo tse tsotlhedi seo a tota ke qualify gore ke motse, mme ke motse fela o motona o o senang stadium. Ke kile ka ba bolelela mo Palamenteng mo gore, back then Zebras e santse e dira sentle ke ba raya ke re fa ke ka ntsha ba Mahalapye mo go yone, team e le ga e na go bereka, ba tletse mo teng. Bo Masego Ntshingane, Sox, bo mang ke ka ba balolola ba ba ntsi ntsi gone fa. Jaanong kwa ba tswang teng ga gona fa ba ikatisetsang teng. Le gone kwa Mahalapye kwa re na le talente e ntsi ntsi e leng gore ga le ba bone bana ba, ka gore ga gona kwa ba ka itlhokotsang teng. Le kgang ya setima molelo kwa motseng wa Mahalapye, ke dingwe tsa dikgang tse e leng gore ke tsaya gore Tautona le maphata a a lebaneng re tla a thusana, gore dikgang tse di diragale.

Go na le puo e e reng Tautona o tswa kwa Mahalapye jaanong dilo di tla a diragala kwa Mahalapye fela. Nyaa bagaetsho, re tlaabo re le fa re kopa jaaka tsamaiso re e itse, gore dilo tse di tshwanetse di tsengwe mo lenaneong. Jaaka Tautona a emeletse a ile Germany a ile go kopa madi, fa ba ka reka diteemane tsa rona, ditiro tse di dirwe fela jaaka ditiro tsa metse e mengwe le ditoropo tse dingwe, ke dumela jalo. E tlaa re fa di dirilwe, e re fa le tla kwa Mahalapye give credit to the Member of Parliament including Honourable Nyatanga, ba re tlaabong re lwantsha dikgang tse. Le sekla la re ke Tautona, le itse gore di tswa kae, re a di fetlha le Honourable Nyatanga mo Palamenteng. Ne ke re ke di bue jalo, so that I register them kwa tshimologong gore ke tsone dikgang tse ke tlaabong ke tla go difetlha fa tsa motse wa Mahalapye, Mr Speaker.

However, mma ke sianele kwa go...lephata Mr Speaker. Kana jaanong ke filwe lephata. Lephata le bidiwa Ministry of Communications and Innovation. Nte ke

tseye nako e ke leboge Tautona gape gore a ba a ntirile Tona kwa lephateng le. Ke itse gore bontsi jwa batho ba ne ba re ke ka bo ke ne ke ile go dira kwa Health, mme ke kile ka tlhalosa mo nakong e e fetileng gore kana ke mo-engineer. Ke mo-engineer by profession, a biomedical engineer, so my role really at the Ministry of Health was to bring technology and innovation to Ministry of Health to aid diagnosis treatment and eventually healing the people. That is my role really, for my work e ne e le yone eo. Jaanong ke bone gore Tautona o ntshekatshekile sentle gore a mpeye mo kgannyeng ya communication and innovation. I think this is where I will thrive most, working with the same doctors, same Ministry of Health to help enhance connectivity and diagnosis through digital means, and ke yone e ke tlaabong ke e tsene gone foo.

Mo gongwe ke ne ke a tle ke tlhalose gore kana Palamente e e fetileng, Mapalamente a mangwe a a neng a le teng ke ba fa, go ne go sena ngaka mo Palamenteng e e fetileng, dingaka tse dingwe e ne e le dingaka di sele but the medical doctor was not there gone fa.

HONOURABLE MEMBERS: ... (Murmurs)...

MR TSHERE: E ne e le dingaka ba bangwe ba ke ka se keng ke bue thata. Re ne re tlhoka ngaka ya batho, ke yone puo e ke neng ke e bua mo Palamenteng mo gore re a e tlhoka, ke gore ga re ka ke ra claim. Ke ne ke tlhola ke bua ka nako ya COVID ke re kana where we are I am using a handbook, ke na le yone e kwa Mahalapye, it says 'Where there is no Doctor,' now we have to operate where there is no doctor and that is why everybody ... (Interruptions) ... a doctor.

HONOURABLE MEMBER: Clarification honourable.

MR TSHERE: No, we were using the manual 'Where there is no Doctor.'

HONOURABLE MEMBER: Clarification.

MR TSHERE: I will give you the last three minutes, let me finish the thing on communication. So, ke itumelela gore Dr Modise o teng, we will be working with them kwa Ministry of Health and other ministries. Here I want to pause Mr Speaker so that fa re bua ka communication and innovation, I am sure Members of Parliament (MPs) ba tle ba e tlhaloganya jaaka ke e tlhaloganya. You know fa o batla go tlhaloganya maranyane, because in most cases ga o a bone, imagine a road, Honourable Hikuama jaanong, just a road. E ke e tlwaetseng thata ke

A1, mme le ya Kgalagadi, Sir Seretse Khama Highway to Transkalahari, le yone e tshwana fela, akere ke mola o le one, go tswa fa jaanong fa le le ba ntsi mo teng go raya gore le tsaya lebaka. Go raya gore fa e le gore o tshwanetse o emelele fa ka December o ya kwa Palapye kana Francistown o ya go ema kwa Mahalapye ka gore ditsela di kgotlhagane foo, o ya go ema kwa Palapye two hours o emetse go feta, akere, ke setup ya tsela eo. Jaanong I want you to imagine that road, tsela eo wena o mo koloing, but ke batla o imagine e le cell phone yone tsela eo, you are making calls, you are doing emails and everybody else is doing it. Go raya gore rotlhe re mo tseleng eo, we are all trying to communicate through the corridor which is established. It is there, e teng gone fa corridor eo e le maranyane, it can be fibre optic e le cable kana it can be the towers that we are using but at the end of the day, there is a corridor that all of you have to line up and pass there. Now this is the problem, we have that corridor, imagine e tletsenjaanong dikoloi jaaka ke ne ke bua ka Palapye, you have to wait for two hours to pass to Francistown on a peak hour kana on a holiday, so that traffic jam ke yone e o e bonang mo cell phones tsa gago. Fa o leka go lets go tlaabo go tsaya lebaka ka gore o mo line le ba bangwe. All of you are trying to reach a certain place ka phone but there is traffic, there is a whole lot of people there. Now what do you do under a scenario of a road? Go raya gore you can expand the road then batho ba kgone go feta. Okay, that is the practical aspect. Le mo maranyaneng o kgona go oketsa bandwidth gore batho ba fete or you can put fibre optic which will be much faster and batho ba tlaa feta. At the end of the day, the strategy ya ga Goromente in terms of communication is such that all systems tsa ga Goromente, and this is the eGovernment strategy and eGovernment services, tse re batlang gore dilo tsotlhe jaanong di tsene mo maranyaneng. What does the President say fa a bua jalo? O raya gore all these communications tse re di buang tse. Jaanong for example, say mo go yone tsela ya Kgalagadi e ke buang ka yone, traffic e e foo eo, one of the traffic kana sengwe se se tlaabong se tsamaya foo e tlaabo e le information from Gantsi, medical file o o tshwereng x-ray machines tsa motho a le kwa Gantsi, they will be trying to pass in the same corridor e o tsamayang ka yone, wena Honourable Hikuama. Then if you look back fela le mo tseleng, setup you will see an ambulance at the back, that ambulance e ntse e kua e re ke batla go feta, ke batla go feta, that ambulance go raya gore e amiwa ke lona ba le mo tseleng. Ga go na tsela ya ambulance e ka fetang teng, so we can see. Le mo maranyaneng, we are trying

to transmit critical information that will require critical attention or on the spot attention but jaanong e diilwe ke traffic. This is the challenge that we are having today. That is why fa gongwe re tlaabo re ma-Directorate of Intelligence and Security (DIS) ba reeditse phone ya me, no fa gongwe it is not, because there is a lot of interference, akere le ba ntsintsi, so these are waves. Tse dingwe di a tlhatlagana, tse dingwe go nna eng, you can hear somebody a bua mo call, wena o bo o re maDIS ba go reeditse, no it is interference and superimposing of the waves tse di fetang foo.

HONOURABLE MEMBER: ...(Inaudible)...

MR TSHERE: Ke go bolelela ka traffic e re nnang le yone e e dirang gore o bo o na le seemo se o nang le sone. What is the solution? Mr President o ne a bua ka Starlink and SpaceX collaboration with Ministry of Communications and Innovation. Here what we are trying to say boela gape kwa tseleng, kwa kgannyeng ya tsela e e tletseng. Now imagine if I can create an imaginary road e nngwe e e tsamayang fa godimo ga yone e e tsamayang fa go yone e, ke bo ke dira e nngwe jaanong ke bo ke re okay, dikoloi tse dingwe tsamayang fa godimo ga tsela e. What will happen kwa tlase? Then you will be freed le kgone go tsamaya. We want to create that road e nngwe, that road ke yone e Starlink e lekang go e create mo Botswana. We will be creating an avenue e e leng gore we will be able to pass information and data mo go yone. What will happen is that and option eo ke ya satellite. We have had use of satellite mo Botswana but not to the point that the President wants to take it. What will happen is that we want to install mo go bidiwang a gateway, we are working on it, an earth station kwa Botswana Innovation Hub. Once we install that gateway, we will have a data centre right here kwa Botswana Innovation Hub. All the data will be stored there as a data centre. Then this tower will enable now to bill all the data to the satellite e e kwa godimo, and as a result you will have the fastest internet ever that you have never experienced here most of you. The advantage of that tower is that it will enable us to have internet connectivity at every square metre of this country including Central Kalahari Game Reserve (CKGR). Mr Speaker, e tlaabo e re o le mo trip fela fa o emang teng, if you can have power to your devices and modem wa Starlink you will have access to internet wherever you are. If that can happen ga go reye gore re bolaya the already existing infrastructure, no, that is not our intention. The intention like ke bua ka tsela is to create another road where we can offload to. Then once

our infrastructure in terms of the fibre optic that we have already installed, ga re ise re wele le gone ka gore we are taking fibre to the home, fibre to the institutions, now we want to completely connect institutions, and once they are completely connected, all Government services will run through the road e ke neng ke bua ka yone e e kwa tlase. Most of these, your telephone, your email will actually move to that platform, e bo e nna yone tsela e nngwe e ntšha e leng gore we are moving staff ka tsone. Kwa tlase we want to bring back issues tsa gore jaanong re nne le a fast internet, hence we need the radio licence and spectrum licence for this.

HONOURABLE MEMBER: ...(Inaudible)...

MR TSHERE: Botswana Communications Regulatory Authority (BOCRA) is working around the clock to facilitate this, so that eventually there is competition in the market and the benefit to our people and users will experience an affordable super high-speed connectivity. *Ke yone e ke e buang Mr Speaker. So, we want to do something like that which will benefit you, and this is a new thing we are bringing at a mass scale in Botswana as an alternative. That will enable us to use our infrastructure because for Government services, we need to have a secure network like our own local area network like the fibre that we have laid out over 20 kilometre (km), that is already there. That is the backbone of supporting the Government's E-Strategy. So, this is where we are. This is the digital transformation agenda of the Government.*

Honourable Members and Ministers here, let me pause here, my notes will not finish *ka gore ga ke na nako*. What is important is *lona* Ministers and Members of Parliament, we need to convert the services *tsa ga Goromente* and put them in an e-platform so that they can be carried in the corridor that I was talking about. *Jaanong* what it means is, it does not mean *gore ga ke re Omang a dirwe ka maranyane kana re dire gore Omang Motswana a kgone go tobetsa fela a bo a apply for renewal ya his or her Omang, go raya gore ke tsaya maikarabelo ke le lephata a gore go dirwa Omang, no, I do not, the responsibility still lies with you. You are the one who is going to process that data e e tlang kwa go wena*. What I am doing is to enable you for Batswana to communicate with you *gore ba tlhoka* Omang and that requires *gore re fetole melao e e maleba* to make this happen.

Let me give you an example, *fa gongwe fa re bua kwa polotiking, fa go ikwadisetswa ditlhopho, motho o tlaabo a bereka kwa Tsabong a tswa kwa Mahalapye, a batla go ikwadisetsa ditlhopho*. Well, there are platforms,

easy, *gakere* our systems are there in terms of Omang, we can easily verify and the verification can also happen during the inspection of the voters roll, but the law says *motho yoo o tshwanetse a emelete kwa Tsabong a ye go itshupa kwa Kgatleng e a tswang kwa go yone go ya go dira*. So, we need to change that law *gone foo ka gore jaaka re ntse re bua, ga go na gore UDC fa e tsere Puso gone jaana... gakere le utwile re ikana fa gore re tlaa dirisa melao e e teng until re tla ka melao ya rona*.

So, *le se ka la hakgamala*, that is why *rona* we have to come up mo *Palamenteng gore re fetole melao jaaka re ne re bua*, but *ga o ka ke wa bona re dira melao eo gompieno ka gore re ikanne gore re tlaa dirisa melao e e setseng e le teng*. *Ga ke ka ke ka gataka molao o o teng ka gore nna ke akanya gore ke tshwanetse gore ke dire jalo* but what I should do is to change the law. *Jaanong* I ask you Honourable Members *gore* let us change the law *gore e tsenelele mo kgannyeng ya* digitalisation strategy because that I cannot do on my own.

I will make the systems available, but *wena o le lephata, ke wena o tshwanetseng gore o eme ka dinao* and make sure *gore* your systems are online, Batswana can access it. *Fa e le gore ke Omang jaaka ke bua, rona re na le Poso gape*. So, what will happen is that, *fa e le gore o a apply*, it will be processed *kwa Immigration*. *Ba Immigration* should be able to mail it to you. With our Poso, you just collect your Omang. Some of the services should be that easy *gore Batswana ba se ka ba fola motshegare otlhe*. So, I will yield for elucidation. Thank you.

MR SEGOKGO: *Elucidation. Ke a leboga Mr Speaker*: *Ka fa ke utlwang Minister ka teng, a mme o ntshephisa gore internet tse di saleng di ntse di le down tsa bo Nkaikela, Matlala le Mafithakgosi, tse e leng gore e ne e le tsa mahala tsa Puso e e fetileng, a se a se buang se o ntsholofetsa gore di tlaa tsholetsegan? MR TSHERE: *O e tshwere sentle*. Once we have established *gore jaanong ga go na* bottlenecks... what you are talking about *ke yone traffic e ke ntseng ke bua ka yone*. *Jaanong* once we have solved that traffic and there is another flow of information, that would be experienced. By the way, the President *o ne a bua gore*

we are going to connect internet at schools. In fact, if we were to go by fibre and other things that connect, *re ka bo re* connect 20. *Gompieno re ya to* connect 300 of schools Mr Speaker. Once this installation that I was talking about, the gateway, the earth station here is complete, we will be the centre for that satellite to provide communication around in Southern Africa. So, it is going to be a transformative journey that we will experience Mr Speaker.

Like I am saying, with issues of innovation and technology, it is very difficult to explain, that is why I had to explain in the simplest manner Mr Speaker. It is good when you experience it and I am calling on Honourable Members to wait until they experience it. Thank you very much Mr Speaker.
