You will recall, or maybe you were not there at the General Assembly, I emphasised that all the political parties in this country when they go to their caucus, they are entitled to ask for officials to be at least to bring them on any Bill. That is before Parliament for their better understanding. I pronounced myself on that one quite clearly and deliberately *ka gore ke ne ke sa batle go nna le diketseetsego*.

However, fa re ka fitlhela e le gore ga e tsamaelane le sepe sa recommendations tsa Financial Action Task Force (FATF), I hope you will then decide gore a go ya go tswelwa fela le stages tse dingwe tsa yone when it was not meant to be discussed in this meeting of Parliament.*

## BILL

### TRUST PROPERTY CONTROL BILL, 2021 (NO. 37 OF 2021)

#### Second Reading

#### MINISTER OF DEFENCE, JUSTICE AND SECURITY (MR MMUSI):

Thank you *Mr Speaker*. *Mma ke go lebogetse rraetsho*. *Mr Speaker*, the objective of this Bill is to re-enact with amendments the Trust Property Control Act in order to align it with the Financial Intelligence Act and regulate the control of trusts in Botswana. While most trusts are set for legitimate and noble causes, research by international financial organisations such as the Financial Action Task Force (FATF) indicates trusts can and are being used intentionally or unintentionally as vehicles for money laundering, terrorists financing activities and proliferation financing.

The Trust Property Control Act was first enacted in 2018 and it established the legal framework for the regulation and control of trusts in Botswana. Prior to this *Mr Speaker*, there have been minimal vetting and control of trusts in the country. Continuing as a country without laws to regulate and control trust property, would provide a possible money laundering vulnerability on which illegal activities can be disguised through the legal vehicle of trust. The Trust Property Control Act is therefore one of the laws Botswana had to urgently put in place to strengthen financial systems and to satisfy compliant requirements of the Eastern and Southern Africa Anti-Money Laundering Group (ESMLAAG).

The Act was first amended in 2019 to clarify beneficial ownership requirement for trusts and to introduce requirements on keeping accurate and up to date information on the affairs of the trusts. Beneficial ownership through trusts and related legal arrangements must be available to competent authorities without legal impediments. This is achieved through defining what is considered to be a beneficial owner in the Act. In this area, Botswana was found wanting as information was found to be inaccurate, outdated and not easily accessible.

Mr Speaker, the 2021 Bill seeks to:

- (a) Introduce regulation of trust service providers and provide for the registration of trust service providers.
- (b) Make provision for regulation of foreign trustees.
- (c) Facilitate a continued loading and registration of trust instruments by empowering the Master to receive trust instruments executed before the 29<sup>th</sup> June, 2018. Failure to comply will result in such instruments being deemed to be null and void in Clause 28 and make provisions for the Minister to establish the void trust fund in Clause 29.

Mr Speaker, the Bill consists of 33 Clauses which are all in the Bill. Therefore, Mr Speaker, without taking much time, I will just read Clause 28 or give an explanation *ya* Clause 28.

Clause 28 affect the validity of trust instruments executed before 2018/2019. This places an obligation on trustees of such trust instrument to have launched a trust instrument to the Master within six months of commencement of the Act. Failing which the concerned trust instrument will be deemed null and void. A master is also empowered to take possession and control of trust property deemed to be null and void. Invested property on the concerned trust will stay to be administered in accordance with the terms of the fund establishment under the Act.

Clause 29 and 30 establishes the void trust fund of which money from property seized under the Act shall be paid into and provides for offences and penalties.

Clause 31, 32 and 33 empowers the Minister to make regulations, repeal the Trust Property Control Act of 2019 as amended in 2019 and assent the valid of trust instrument registered under the Repeal Trust Property Control Act of 2018 as amended.

Mr Speaker, I beg to move that the Trust Property Control Bill, (No. 37 of 2021) be read a second time. I thank you Mr Speaker.

**MR KEORAPETSE (SELEBI PHIKWE WEST):**  
Ke a leboga Motsamaisa Dipuisanyo tsa Palamente. Ke tlaa leka thata go bua Setswana mo kakgelong ya me ya Trust Property Control Bill, 2021 (No. 37 of 2021).

Mr Speaker, ke tsaya gore trusts di setse di tlhalositswe mo definition ya tsone. Ga se la ntlha re debate molao-kakanyetso one o, re ne ra o debate ke a dumela gore ke ka 2018. Go a tlhokafala Motsamaisa Dipuisanyo tsa Palamente gore mo dithutong tse re di fang bana ba rona mo dikolong, go simolola fela kwa primaries, secondary, go ya go tsena kwa universities, dilo tse di tshwanang le tse tsa trusts, ba di rutilwe. Jaaka maabane ke ne ke bua ka virtual assets; bone bo crypto currencies and so forth, o fitlhela e le gore kitso e a tlhabela, mme e bile gape go nna bonya to infuse that kind of education kana thuto eo mo baneng ba rona, especially mo curriculum. Fa o tsaya gongwe dithuto o setse o le kwa university tsa molao, gongwe ke gone kwa e leng gore you will be dealing with trusts. Generally, fela an average Motswana fela fa o ka tsena mo station o bo o re o botsa batho ka trusts, go nna dingalonyana gore o ka fitlhela batho ba itse gore trusts ke eng, e bile mosola wa tsone e ka nna eng.

These assets di botlhokwa jaaka Honourable Ramogapi a ntse a bua, ka gore nngwe ya advantages tse a ntseng a di bua, ke tsa bo gore, kana fa o lebelela batho ba bangwe ba e leng gore ba ne ba nna le mo go tweng generational wealth, ke gore khumo e e tswang e ya kwa baneng le bana ba bana ba bana, o fitlhela e le gore trusts played a role e ntsi thata mo gone moo mo go reng dikgwebo tse dingwe e bo e le gore mong wa dikgwebo tseo ke trusts. Jaanong fa go ntse jalo, o fitlhela e le gore go yeng fela kwa kokomaneng, batho ba kgona gore ba nne le khumo yone eo. Jaanong thuto e e tshwanetse, e maleba gore e se ka ya nna o kare trusts jaaka di dirisitswe e le tshono ya go humisa batho, e bo e le gore jaanong ke tshono fela e e leng gore e mo bangweng ba e leng gore ba tsena mo seatleng. Re a itse gore trusts gape bogolo jang tsa property trust, mengwe ya mosola wa tsone ke gore fa batho ba tlhokafetse e le gore gongwe properties tsa bone di mo di trust, they avoid a probate, ke gore the administration of estate e e leng gore e a dirwa fa motho a tlhokafetse mme e dirwa ke kgotlakgolo ya ditsheko, this can be avoided through trusts because it is a very lengthy and costly process. So fa gongwe trusts o fitlhela e le gore gongwe di a thusa fa go ntse jalo.

Mo gongwe o ka fitlhela e le gore savings mo estate taxes is one way of advantages of trusts. Most importantly, kana fa dithoto di le mo trust, o fitlhela e le gore go le

gantsinyana *they are insulated from certain creditors. I am not saying all creditors*, gakere le yone *trust* e ka nna ya nna le *loans, liabilities* tse di ka nnang teng. Fela o fitlhela e le gore *by and large* fa dithoto di le mo *trust*, gantsinyana *they are insulated from the creditors*. Ke dingwe tsa dithoto tse e leng gore di botlhokwa, Batswana ba tshwanetse gore ba di itse gore o ka nna wa boloka kana wa sireletsa dithoto tsa gago mo *trust* kgatlhanong le ba e leng gore gongwe e kare kamoso ba bo ba tla ba re o a ba kolota.

Motsamaisa Dipuisanyo tsa Palamente, kana lebaka le letonatona la gore re bo re *discuss* kgang e ke *recommendation 80* ya FATF, *which is basically on combating the abuse of non-profit organisations*. *Honourable Ramogapi* o ntse a bua ka *charitable trusts* kana *foundations*. Kana fa o lebelela Non-Profit Organisations (NPOs) le tse dingwe tse e leng gore *they may not be trusts*, go lemotshagile gore di ka dirisiwa go tsamaisa borukutlhi jwa itsholelo le madi. Ke gore mo ke neng ke re ke *fiscal and revenue crimes* kana *financial and economic crimes*. Go botlhokwa thata go itse kgang e gore lebaka la gore re bo re *debate* molao o o tlang ka *Honourable Mmusi*, ke gore *we need to prevent fiscal and revenue crimes*. Borukutlhi jwa madi le go gopela itsholelo bo kgona go fitlhelelwa ka makalana a a dirilweng mme a diretswe gore a se ka a dira *profit*.

Go itshupile mo ditlhotlhomisong tse di setseng di fetile, *even* pele ga 9/11 gore NPOs di kgona go dirisiwa *for terrorist financing, even financing of proliferation of weapons of mass destruction*. Ke gore go *sponsor* borukutlhi jwa *terrorism* le go dira dibetsa tsa mmolao wa kgailo. Jaanong tota maikaelelo ke gone *to stop abuse* ya NPOs.

Jaanong kana dithoto tse di ka tsennwang mo *trusts* di farologane, e ka nna madi, *corporate stocks, bonds, real estates, not only* matlo le dikago, *but real estate in the sense* ya *real estate* le *life insurance*. Jaanong selo se se tshwanetseng gore se elwe tlhoko thata ke gone gore kana jaaka bangwe ba ntse ba bua, e tlaabo e le gore gongwe go na le *a charitable trust* kana *a foundation* e e tlaabong e kwadisitswe. Jaanong fa e le gore ga go elwe tlhoko gore e ka tsaya *loans* kana ya fiwa *donations* ka tsela e e ntseng jang, e ka nna le dithoto ka tsela e e ntseng jang, le gore dithoto tse di ka rekisiwa ka tsela e e ntseng jang, go raya gore fa go kgona gore go nne le kgonego ya *fiscal and revenue crimes, including money laundering, racketeering and fraud*. So ke sone se tota se tshwanetseng gore ka molao o, *to make sure* gore se lebelelwa thata, le fa go setse go tla go dirwa *regulations*.

Jaanong *Honourable Mmusi*, fa e leng gore bakaulengwe, bogolo jang ba Umbrella for Democratic Change (UDC) ba tshwanetse gore ba ele tlhoko thata, ke gone mo re ka se kang ra iphitlhela e le gore re mo go kgoreletseng go tsamaisa makgotla a sepolotiki, re iphitlhile ka gore re leka *to prevent abuse of NPOs*. *Some of the non-profit making organisations* ke *political parties*, mme ebile go ka kgonega. *I will give example* ya African National Congress (ANC). ANC Investment Arm ke *Chancellor House*. *Chancellor House is owned by a trust, that trust not so long ago admitted* gore *yes, we fund the ANC*. *Indeed* re le Botswana Congress Party (BCP), *that is the direction we are going, of having investment arms of having trusts*. *I believe* gore *in future* le *the coalition UDC, that is they direction that we will go*.

Ga re batle gore re bo re tla go kgoreletsa *because you have an obligation* le le Goromente. *You have an obligation* ya gore *under* United Nations (UN), African Union (AU), *even* yone FATF, ya gore le a patelesega ka fa Molaomotho wa Botswana, *International Humanitarian Law, international law* gore le sireletse tshwanelo ya gore re ikgobokanye, re bue ka tshosologo, re leke *to shape public opinion*.

Ke ne ke utlwa *Honourable Matsheka* a bua gore *some of the trusts* di kgona gore di dirisiwe *to shape public opinions*. *What is wrong with that?* Ga re *register trust* e e leng gore maikaelelo a yone ke go thusa BCP kana UDC, re tlhamaletse fela, re tlaabo re sa dire sepe se e leng gore ga se ka fa molaong. *We must be very careful about the regulations* tse di tlaabong di dirwa. *We must be very careful and study these laws* thata, re tle re bone gore dikgoreletsi tse di ka tswa fa go ntseng jang.

Ke eng ke bua puo e Motsamaisa Dipuisanyo tsa Palamente, ke buisiwa ke se; fa o lebelela bagwebi ba batona mo lefatsheng la Botswana, go bonolo, go a eletsega e bile go ba sologela molemo gore ba ikamanye le *party* e e busang. Ga gona le fa e le mathata. Ee, ba tla ba tshwere dikgetsi tsa madi le tse ba di tshwereng ba di neela *party* e e busang. Re ba bone kwa dikgannyeng tsa Botswana Television (Btv), e le gore ba tlile go lebogiwa mo moletlong mongwe mme go ne go sa bonale thata Batswana ba sekei ba bantsho jaaka nna le *Honourable Molebatsi*. Go ne go lebega go na le ba letso lengwe.

Jaanong ke buisiwa puo e ke gore go thata ya lentse gore re ka bona dithuso mo bagwebing ba ba leng mo teng ga lefatsheng la Botswana, ba ba gwebang ba rekisa dikoloi, ba hirisa *buildings* mo ga Goromente ka gore ga ke itse Batswana ba bantsi ba ba hirisang *buildings*

tse ditonatona mo go Goromente. Motho a hirisa *flats* tsa motseletsele, tse di kgonang go nna palo ya batho ba heta 100, e le Motswana wa sekei yo o tshwanang le nna le *Honourable* Saleshando. Ga nke ke ba bona, ba palonyana e e tsenang mo seatleng, re ka ba bua gone fa, ba palonyana e nnyennyane.

Jaanong *the rest* ba e leng gore ke bagwebi ba batona, ke dikompone tse ditona tse di agang ditsela, dipatela le dikole, ke bone ba ba rotloetsang *the ruling party*. Jaanong fa re dirisa *trusts* tse di tlaabong di *own* dikompone, dikompone tse maikaelelo a tsone e le go thusa diphathi tsa kganetso e le gore *trusts* tse di tlaa nna le *donations, even from foreigners, from outside* lefatshe la Botswana, e bo e le gore a re se ka ra kgorelediwa fela ka gore maikaelelo a rona *is to exercise out constitutional right, freedom of association, freedom of assembly, freedom of expression, including* le yone *freedom* ya *religion* le ya *belief* mo dikerekeng tse dingwe.

Tlhobaelo ya me e gone foo Motsamaisa Dipuisanyo tsa Palamente, gore *I hope* maikaelelo ga se go tla go kgoreletsa diphathi tsa kganetso mo ditseleng tsa gore ba batle madi *to campaign*. Go *campaign* go tura fela thata. Fa o lebeletse mo ditlhophong, sekale sone se se beilweng se ba a itse, ga se madi. Madi a mantsi a a tshelwa *in the ruling party*.

*Why do you think Honourable Kekgonengile, that treasurer wa the ruling party ke Rre Satar Dada, yo e leng gore he is a car magnate, property magnate and controls the poultry industry? Why do you think Jagdish Shah ke deputy treasurer wa the ruling party? It is to make sure that the ruling party is financially secure* ga e ya kwa ditlhophong. Jaanong rona *our financial security* e ya go tswa mo goreng re nne le *investment arms, charitable trusts* tse e leng gore *they can get loans and donations from* ba e leng gore *they believe in our cause* ya go *advance democracy* mo lefatsheng la Botswana.

## SOCIETIES BILL, 2021 (NO. 38 OF 2021)

### Second Reading

#### MINISTER OF NATIONALITY, IMMIGRATION AND GENDER AFFAIRS (MS MOKGETHI):

Thank you Mr Speaker. The Societies Act CAP 18:01, was first promulgated in 1972 with the objective of providing for the registration and regulation of Non-Profit Organisations (NPOs) registered in Botswana. The act has gone through several amendments and reviews and the last review was in 2016 resulting in the current society's management and regularity system.

Numerous developments have taken place since this act was last amended in 2016. This include issues of money laundering as well as Government Accounting and Budgeting System (GABS) in the regulation of registered societies. These issues need to be addressed to ensure conformity with global and international standards. The Societies Act provides for the registration and regulation of NPOs such as Burial Societies, churches including political parties and football clubs.

Following the 911 terror attacks in New York-United States of America (USA), the Financial Action Task Force (FATF) introduced nine statute recommendations

against financing of terrorism. The NPOs were classified as one of the sectors susceptible to abuse for purposes of terrorism financing and money laundering.

Recommendation 8 addresses NPOs vulnerabilities and threats through targeted regulation and monitoring. It exhorts countries to review their laws and legislation relating to NPOs in particular, targeting NPOs which has been identified as being vulnerable to terrorism and its financing.

In 2018, following the amendment of the Financial Intelligent Act (FIA), the Registrar of Societies was designated a supervisor of NPOs in terms of FIA. Consequently the Registrar conducted an NPO sector risk assessment to determine the level of risk and their vulnerability. The risk assessment revealed that some societies in Botswana are at high risk of being used as confutes for money laundering and terrorism financing. Furthermore, record keeping within the NPO sector has emerged as a serious challenge, making it difficult to trace the origins of certain funds as well as the ultimate beneficiaries of the funds transacted.

The purpose of the Societies Amendment Bill 2021 is to align the Societies Act with the FIA and the Counter Terrorism Act in and endeavour to curb money laundering, terrorism financing and proliferation of weapons of mass destruction. This will also incorporate some of the requirements found in Recommendation 8 of the FATF standards. The recommendation calls for adequate measures to ensure that non-profit sector is not abused for money laundering and terrorism financing.

I will now proceed to the outlining of the amendments made on the revised Act:

Clause V of the Bill removes exemption so that all societies registered with Registrar of Societies for monitoring and supervision minimising risk of commission of financial offences.

Exempted societies are currently being waved from screening formalities of identifying the controllers of the society, as well as its operations which defeats the purpose of converting financial crimes.

Clause 6 of the Bill empowers the Registrar to refuse to register a society, where for instance a society or its office bearers is subject to sanctions, embargoes of similar measures issued by the United Nation Security Council. Registrar of Societies has not been empowered to refuse registration of a society where and individual

among members applying for registrations has links with listed organisations or individuals, and/or has been found guilty of a crime in the area within which the wish to operate.

Clause 7 of the Bill provides for qualification criteria for office bearers of a society, to ensure that such office bearers are fit and proper persons. Therefore minimising the risk of commission of financial offences within societies.

Clause 9 of the Bill provides for cancellation of registration of a society where the society has committed financial offence. Currently the Act does not empower the Registrar to cancel a society that engages in or facilitates human trafficking, money laundering, terrorism financing and proliferations of weapons of mass distraction.

Clause 10 (13v), (14e) and (22) of the Bill increases penalties for offences under the Societies Act. The Societies Act does not provide for effective, proportionate and dissuasive sanctions for violation of any money laundering and terrorism financing obligations as stipulated in the FATF methodology.

Lastly, Clause 32 of the Bill provides that societies exempted from the registration prior to the commencement of this Act, shall within 12 months apply for registration to the Registrar of Societies.

Mr Speaker, I therefore move that this Societies (Amendment) Bill (No. 38 of 2021) be read before this House for the second time. I thank you Mr Speaker.
