### Security Audit (Recommendations)

- Captcha on Login Required. To be setup once DIT provides most up to date website database.
- We wish to update all user passwords as a security measure.

### Hosting Audit

- Folder permissions all on deny.
- DIT confirmed it will not be possible to get additional storage to archive old content. Parliament staff can take up the issue with DIT.
- Content updates possible but it is not possible to upload new files/media i.e documents, images and any other media. DIT requires submission of such media to them directly to upload.

We hope that you are happy with all the work that has been done over the past month, and I look forward to sending you another report in a months' time
